

<u>SUSTAINABILITY CHECKLIST</u>
--

	Criteria	Yes	No	Comments
CLIMATE CHANGE AND ENERGY				
1	Has the development been orientated and located to maximise solar gain? (Consider layout of rooms, workspace, window design and positioning)			
2	Will on-site renewable energy be included as part of the development? (For example, solar, wind power, biofuels etc)			
3	Will the development as a whole help to reduce carbon emissions?			
COMMUNITY				
4	Is the development located in an area with good access to local community facilities?			
5	Will the development provide an element of affordable housing? (Large residential developments only)			
6	Will the development provide open space?			
7	Will the development provide children's play space facilities? (Large residential developments only)			
8	Will Lifetime Homes standards be adopted? (New residential developments only)			
PLACE MAKING				
9	Is the proposal for the redevelopment of brownfield sites or vacant buildings?			
TRANSPORT AND MOVEMENT				
10	Is the development located in an area with a good level of access to public transport?			

	Criteria	Yes	No	Comments
11	Will cycle storage or shower changing facilities be provided on site? (Commercial developments only)			
LANDSCAPE AND ECOLOGY				
12	Will the development conserve and enhance the biodiversity of the site?			
13(a)	Has provision been made for conserving and enhancing the landscape?			
13(b)	Has a landscaping scheme been submitted? (Large developments only)			
14	Have services been designed to minimise any impact on landscape and tree protection?			
15	Has provision been made to ensure the long term sustainable management of the landscape/wildlife/recreational areas and features on the site?			
RESOURCES				
16	Will the development incorporate recycling or composting facilities on site?			
17	Will locally sourced materials be used in the development? (For example, materials from a managed forest)			
18	Will rainwater harvesting/collection systems be installed?			
19	Will there be provision for grey water recycling?			
20	Will Sustainable Urban Drainage Systems (SUDs) be installed?			
BUSINESS				
21	Does the development propose a mix of uses? (Large developments only)			
BUILDINGS				
22	Will the development be guided by Secured By Design standards?
