Reason for comment:
New development in and around Hackhurst Lane would add to already severe A22 traffic congestion. A new village would result in a rather isolated community.

Option 18e

Section of Document:

Your View ☑ Disagree

Reason for comment:
Lower Dicker is a long strung-out village. Such villages lack a community feeling. Infill will only add to this character and feeling. New infill development in and around Lower Dicker would add to already severe A22 traffic congestion.

Reason for comment:
This looks a possibility to us, but, along with all other possible developments in and around the A22, it will add to the congestion problems on the A22, even with the suggested access onto the A267.

Reason for comment:

The Beddingham road improvements will support new development in the region of Berwick. There would be a clear advantage of immediate access to the A27 for commuters to Brighton, Lewes, Newhaven and Eastbourne. A new development in Berwick would have the additional advantage of splitting the traffic loading between the A27 and the A22; probably most of the new traffic would be biassed towards the A27, not greatly increasing the congestion on the A22. Clearly, the rail links to Eastbourne, Lewes, Brighton and Newhaven are potentially a beneficial means of moderating increases in local road traffic.

Consultee ID: Mrs Roberts  
Chiddingly Parish Council  
106740

Part of document: Option 18j

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

Any development in and around lower Dicker on or near the A22, because of increased congestion on the A22, will have the consequent effect of increasing traffic on local village roads, which get used as short cuts to avoid the A22 traffic jams. In particular, the narrow residential roads through Gun Hill and through Chiddingly Village get heavily used by short-cut commuter traffic. Remedial action is needed now to combat this problem, which would become critical with any Lower Dicker/ Golden Cross development. If the Lower Dicker/Golden Cross area is to expland/develop the A22 needs to be diverted as it would split the two communities. It is suggested that the A22 be diverted at Park Corner, continue to the BOAT and bear east to meet up with the Boship roundabout. This would remove the bottle neck and allow communities to develop which should include a sizeable food store and other essential facilities for a new settlement. It could also include a Gypsy settlement where the current unauthorised settlement is sited north off B2124 at BROOMHAM.

Reason for comment:
Option 24a

Reason for comment:

Current housing is already too cramped with lack of green space/gardens provided for communities. Increasing density would only exacerbate this problem. Families want gardens or green space to play/exercise/relax.

Option 24b

Reason for comment:

Very Strongly - same reason as 24b applies

Option 24c

Reason for comment:

Very Strongly - same reason as 24b applies

Option 24d

Reason for comment:
Option 25a

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
Although there must be adequate provision of off road parking spaces for these properties, bearing in mind the suggestions of increased density. In addition it should be taken into consideration that many of the these types of dwellings will still have two occupants both owning cars!

Option 25b

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
With incentives for all those home owners to use the excellent(?) public transport links possibly in the form of community tax refunds (number of cars v working adult ratio)

Option 25e

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
Reason for comment:
Quite often individuals requiring affordable housing do not have access to private transport. By siting all these houses in rural locations they become virtually cut off from everyday facilities, schools, doctors and shops, due to the ever reduced public transport service. For example the housing currently provided in Muddles Green, Chiddingly no longer has a bus service resulting in access difficulties for some residents.

Reason for comment:
Although careful enforcement should be in place to ensure that any ancilliary housing (mobile homes/caravans) are removed promptly on any change of circumstance.

Reason for comment:
However carful controls need to be in place to ensure that these ancilliary residences are actually required and not a ploy to gain permission in the long term for residential housing. Businesses must be able to provide evidence of of requirement and evidence of the viability of the business and its long term prospects.

Reason for comment:

A minimum of two parking spaces per household should be provided as the norm in any proposed development.
Reason for comment:

With an emphasis on higher density housing suggested sufficient provision of green space within these developments and easily accessible parks close by is essential. There should also be adequate provision of cycleways and public routes to these green spaces away from the roads.

Reason for comment:

Reason for comment:

Reason for comment:
12.08.2007 Dear Sirs,

I wish to object in the strongest terms possible to option 18a the proposed plan to build 5-8000 homes adjoining the village of Isfield and option 27b the proposed development of a new railway link from Uckfield to Lewes. The village of Isfield comprises of approximately 300 homes with a pub and post office serving the local community. Whilst I totally disagree with central governments edict to build millions of homes in the South East which is the most densely populated area in the UK to start with, if local government is powerless or unwilling to do anything to prevent this I accept that an increase of housing for every town and village is inevitable. Central government has stated that the housing should be first targeted at brown field sites and Isfield has consent for some forty new homes on the army campsite in the centre of the village. This is a sustainable development and fits in superbly well with the manner in which the village itself has evolved and means that Isfield is already growing in size by 13%. Furthermore this increase in housing will have been achieved without detriment to the village or encroachment into the open countryside. If each town and village grew by the same percentage this would accommodate all local housing needs without destroying the character and community of the current residents. Due to the incompetence of national government and the local planning system being archaic, slow and at the mercy of some members placing personal views above the needs of the community, we now face the prospect of a town larger than Uckfield being dumped on a village to purely meet targets and support a railway that will do nothing for local residents other than allow them easier commuting to Brighton and London. Salaries for those working in Wealden remain lower than the national average and what is needed is creation of further job opportunities in our towns to achieve a local and retained benefit. Should additional housing then be created within the towns and cities this could be achieved on brown field sites and sites where regeneration is needed and would be a further boost to local business and employment. The current proposed development will create a dangerous situation where Uckfield and Isfield will be practically joined and this will pave the way for continuous future development through Ringmer and Lewes. It also appears that the fact that Isfield is a flood zone has conveniently been ignored in these proposals. All of the land along the Uck floods on a regular basis and you only have to look at the front page of the local paper showing the Isfield section of the railway line underwater to realise what folly it is to build a new rail link or 8000 houses in such an area. Even at the present time flooding in Isfield is far from irregular. Farmland along the Uck floods at least two or three times each year and not just in peak rainfall as seen in 2000 and 2007. The farming community realises that the land will flood each winter and take advantage of the fertile pasture created by the land acting as natural flood defense but building further houses in a flood zone will only exasperate the chaos caused to homeowners seen in the year 2000. Having seen the local chaos caused by flooding in 2000 it is insane to consider known flood zones for future large scale housing developments especially as it is now accepted that the effects of global warming will make flooding worse and more regular as sea levels rise. The old railway line has not been used since 1969 and is currently a green haven for all manner of flora and fauna and creates a safe corridor where species can spread and recolonise areas in line with new environmental farming schemes. Building a link from Uckfield to Lewes will result in thousands of hardwood native trees being felled and substantial loss of flora and fauna. The result will not be good for the local communities and will just provide easier access to London for current and future local residents. Improved access to London will further increase local house prices which are still like it or not far cheaper than the equivalents in the London commuter belt and drain further residents and young people away from making their lives here and supporting local commerce and community. I urge the planning department to reconsider the proposals and spread the housing amongst all communities not in large blocks as suggested and realise the rail link will have the...
opposite effect to what is envisaged. Yours sincerely, Mr. John Lewin, Constantia Manor, Isfield, East Sussex, TN22 5XU. Work No: +44 1825 750453 Fax No: +44 1825 750443 Mob No: +44 7860 533373 Email: mail@johnlewin.com
12.08.2007 Dear Sirs, Options 18a and 27b to open new rail link and build 5-8000 homes in Isfield. I wish to object in the strongest terms possible to the above proposals. The village of Isfield comprises of approximately 300 homes with a pub and post office serving the local community. Whilst I totally disagree with central governments edict to build millions of homes in the South East which is the most densely populated area in the UK to start with, if local government is powerless or unwilling to do anything to prevent this I accept that an increase of housing for every town and village is inevitable. Dear Sirs,

I totally disagree with the proposals to build both a rail link between Uckfield and Lewes and 5-8000 new homes in Isfield. The village of Isfield comprises of approximately 300 homes with a pub and post office serving the local community. Whilst I totally disagree with central governments edict to build millions of homes in the South East which is the most densely populated area in the UK to start with, if local government is powerless or unwilling to do anything to prevent this I accept that an increase of housing for every town and village is inevitable. Central government has stated that the housing should be first targeted at brown field sites and Isfield has consent for some forty new homes on the army campsite in the centre of the village. This is a sustainable development and fits in superbly well with the manner in which the village itself has evolved and means that Isfield is already growing in size by 13%. Furthermore this increase in housing will have been achieved without detriment to the village or encroachment into the open countryside. If each town and village grew by the same percentage this would accommodate all local housing needs without destroying the character and community of the current residents. Due to the incompetence of national government and the local planning system being archaic, slow and at the mercy of some members placing personal views above the needs of the community, we now face the prospect of a town larger than Uckfield being dumped on a village to purely meet targets and support a railway that will do nothing for local residents other than allow them easier commuting to Brighton and London. Salaries for those working in Wealden remain lower than the national average and what is needed is creation of further job opportunities in our towns to achieve a local and retained benefit. Should additional housing then be created within the towns and cities this could be achieved on brown field sites and sites where regeneration is needed and would be a further boost to local business and employment. The current proposed development will create a dangerous situation where Uckfield and Isfield will be practically joined and this will pave the way for continuous future development through Ringmer and Lewes. It also appears that the fact that Isfield is a flood zone has conveniently been ignored in these proposals. All of the land along the Uck floods on a regular basis and you only have to look at the front page of the local paper showing the Isfield section of the railway line underwater to realise what folly it is to build a new rail link or 8000 houses in such an area. Even at the present time flooding in Isfield is far from irregular. Farmland along the Uck floods at least two or three times each year and not just in peak rainfall as seen in 2000 and 2007. The farming community realises that the land will flood each winter and take advantage of the fertile pasture created by the land acting as natural flood defense but building further houses in a flood zone will only exasperate the chaos caused to homeowners seen in the year 2000. Having seen the local chaos caused by flooding in 2000 it is insane to consider known flood zones for future large scale housing developments especially as it is now accepted that the effects of global warming will make flooding worse and more regular as sea levels rise. The old railway line has not been used since 1969 and is currently a green haven for all manner of flora and fauna and creates a safe corridor where species can spread and recolonise areas in line with new environmental farming schemes. Building a link from Uckfield to Lewes will result in thousands of hardwood native trees being felled and substantial loss of flora and fauna. The result will not be good for the local communities and will just provide easier access to London for current and future local residents. Improved access to London will further increase local house prices which are still like it or not far cheaper than the equivalents in the London commuter belt and drain further residents and young people away from making their lives here and supporting local commerce and community. I urge the planning department to reconsider the proposals and spread the housing amongst all communities not in large blocks as suggested and realise the rail link will have the opposite effect to what is envisaged. Yours sincerely, Miss. Harriet Lewin, Constantia Manor, Isfield,
Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:
There are plenty of other areas for development. We must protect the AONB for future generations. Only low density 'brownfield' development should be permitted, with recycled materials.

Option 3d

Reason for comment:
Absolutely. Otherwise there will be an undue increase in traffic as people have to travel further afield for their work.

Option 2a

Reason for comment:
We should meet or exceed the target for the South East in general. Making this compulsory will help the development of the market for appropriate products.
We should be aiming higher than the modest general South East target. A 20% average could allow a varying targets for different types of housing, e.g. low-cost developments in a range of 10%-20% and higher-end developments with more ambitious targets. This would give flexibility to meet concerns about affordability whilst still striving to reach a high overall standard.

Subject to adequate improvements to transport infrastructure.

Subject to adequate improvements to transport infrastructure.

Option 12d

Section of Document:

Your View ✓ Agree □ No opinion □ Disagree

Reason for comment:
Although this is AONB, as a last resort a "small well designed linear cluster of housing of Cade Street like form" nowhere near the figure of 90 mentioned might be agreeable, subject to traffic calming around all of Old Heathfield and Sandy Cross.

Consultee ID: Mr Baylis
106746

Part of document: □ document □ chapter □ section ✓ option
Option 12e

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:
The local lanes - already dangerously overused as ratruns - could not support the extra traffic load and there is no alternative larger road to give access to the town and main routes. The land to the south of Sandy Cross Lane is a fine example of the Wealden countryside. To quote Section 2 of the Consultation Document, the Management Plan objectives include: - to maintain the pattern of small irregularly shaped fields bounded by hedgerows and woodlands; - to enhance the environmental function of field and heath as part of the complex mosaic of High Weald habitats; - to protect the historic features of field and heath. Building here would not make any contribution to increasing local employment opportunities.

106750

Part of document: option

Section of Document:

Reason for comment:
The figure of 20% should be a minimum requirement given the projected future problems in supply of sufficient power to communities.

Consultee ID: Mr Gleeson
106750

Part of document: option

Section of Document:

Reason for comment:
In some cases it may be agreement is appropriate, in others disagreement. Regrettably, I have to give an answer in one or the other. There are keys to this: Infrastructure may not be strong enough to warrant the area to be sufficiently attractive to employers. If this is the case, what impact would housing have on the same infrastructure? When was the area designated as suitable for commercial use rather than residential, and how has the local community changed since then? It is simplistic to just look at this as a ‘black and white’ issue, there are far too many variables. One thing is certain, that any alteration of use would need to be based on sustainable local planning and not just convenience and profit. As such I have chosen to disagree, as I do not feel guarantees would be put in place to ensure the conditions I have laid out.

Question 5c

Section of Document:

Your View ☑ Agree □ No opinion □ Disagree

Reason for comment:
It seems that the sensible approach is one of an entirely new settlement with good access to roads and rail to facilitate development in the South Coast Sub Region. This should be properly researched before further urban extensions are imposed on the Hailsham/Polegate/Willingdon area. This would also give the opportunity to develop fresh infrastructure without overloading already taxed existing routes.

Option 6b

Section of Document:

Your View □ Agree □ No opinion ☑ Disagree

Reason for comment:
Option 6c

Section of Document:

Reason for comment:

Q6 asks whether 80%, 75% or 70% of the housing requirement should be in towns, with the balance in villages. As has been noted in the LDF, the population in Wealden is 50% in towns and 50% in villages. LDFs are supposed to be relevant to the demographics of the area. Therefore the ideal solution would seem to be either a new settlement which does not impact on the current towns and villages, or failing that development which maintains the 50/50 split between towns and villages in line with the current distribution of the population.

Option 7a

Section of Document:

Reason for comment:

A good tool for use in defining necessary infrastructure improvements. Not comprehensive enough for any growth decisions, however.

Part of document:  
- [ ] document  
- [ ] chapter  
- [ ] section  
- [x] option

Section of Document: Option 8b

Reason for comment:
I object to Polegate and Willingdon being considered together for most purposes. The two places are quite different in character as described in the Non Statutory Local Plan and development potential both for business and housing is considerably different. Development in Polegate should be linked to the regeneration and revitalisation of the Town Centre and to the improvement in transport both road and rail and other infrastructure. Development at 8b is not sustainable if access is to the A2270.

Option 16e  
Reason for comment:  

Option 16f  
Reason for comment:  

Option 16f is unsustainable with access on to the A2270 and if the option was changed to access that area from the A22 new route or Dittons it would result in an entirely new and separate settlement in the Parish of Willingdon and Jevington, to which I am also opposed. I object to the potential loss of the green gap both at the A2270 and as viewed from the A22 new route and railway line.

**Reason for comment:**

Stone Cross looks to be an ideal location for further expansion with a good road link in to Eastbourne. A new and long awaited Railway Station needs to be provided as part of this area being further developed. This would reduce pressures on Polegate Railway Station and on parking in that town.

Reason for comment:

Option 27b

Reason for comment:

Option 27c

Reason for comment:

With the possible changing of the Eastbourne leg of the railway line into a light railway stopping at Eastbourne, Hampden Park, Polegate and possibly being extended to Hailsham. This would offset the need to exclude the smaller stations on the line to Lewes from trains stopping. There would be a need to create a link between the Friday Street area & Polegate for main line trains to bypass Eastbourne, which would be served by the light railway link.
Consultee ID: Mr Gleeson
106750

Part of document: ☑ option
Option 27d

Section of Document:

Your View ☑ Agree ☐ No opinion ☑ Disagree

Reason for comment:
The improvement to the A27 is urgently required to facilitate the economic growth sought in the South Coast area. Without it, businesses will look elsewhere. The existing A27 from Polegate to Lewes has one of the worst safety records in the whole of the South-East, developing this into a dual carriageway would improve the safety and save thousands of working hours for all wishing to use the road.

Option 28a

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:

However much we may wish to encourage public transport use, it is blinkered to think that people will give up cars, especially in an area as rural as Wealden. Even in the urban areas there is often a need to use cars on a regular basis, and the cost of housing is driving up the prevalence of 'house sharing' and therefore of the number of cars per household.
Consultee ID: 106750  Mr. Gleeson

Part of document: Option 28b

Section of Document:
Your View: 

Reason for comment:
It should be a condition of any permission to build houses. Failure to do so should result in the developer forfeiting the rights to a number of properties over and above the value they have gained, thus acting as a disincentive.

Consultee ID: 106750  Mr. Gleeson

Part of document: Option 28c

Section of Document:
Your View: 

Reason for comment:
Any new facilities should be built, examined and accepted before the old facilities are removed from public use. At no stage should the public have to suffer loss of amenity to provide developers with additional profit.

Consultee ID: 106750  Mr. Gleeson

Part of document: Question Twenty Nine

Section of Document: Housing Delivery
Your View: 

Reason for comment:
There should be time frames in place and land should not be able to be sold with the planning permission on. Planning permission that has not been used should expire with the sale of the land, thus ensuring that those who wish to apply, wish to build. Failure to start a buiding project within a year should result in a fresh application having to be made, with the developer meeting all costs of officers and council officials.

Part of document: □ document □ chapter □ section ☑ option

Section of Document: Infrastructure Requirements

Your View ☑ Agree □ No opinion □ Disagree

Reason for comment:

Fine words, but without the provision of an improved A27 link, the South East area will never develop. Investing businesses are looking for good road links, we can offer them a heavily congested road which becomes a car park at commuting peak hours. Everyone seems to realise this except those who oppose any road building at all due to the ‘evil of the car’ or those who wish to see no development whatsoever.

Your View ☑ Agree □ No opinion □ Disagree

Reason for comment:
Section of Document:

Your View  ✓ Agree  □ No opinion  □ Disagree

Reason for comment:

There are several scarce resources in the area, most notable of which is water (and the disposal of effluence), it is essential therefore that every effort is made to conserve these scarce resources. Water supply will be particularly vulnerable, global warming or not. The local water companies are amongst the least wasters of water supply (I believe they loose only 15%) and thus have only a relatively small amount to gain by replacing old/inefficient pipage.
Consultee ID: Mr & Mrs Hatcher 106751

Part of document: Option 5a

Agent ID:

Section of Document:

Your View  Disagree

Reason for comment:

Strongly agree with the first part of this statement that "Settlement boundaries should be maintained" but strongly disagree that development should be allowed outside the boundaries. We believe that settlement areas should be clearly defined as they exist now, ring-fenced and no development should be allowed in non-settlement areas unless it can be proved beyond doubt that the rural nature will not be impaired in any way.

Consultee ID: Mr & Mrs Hatcher 106751

Section of Document:

Your View  Agree

Reason for comment:

Agree but only within the criteria described in our comment to Option 5a.

Consultee ID: Mr & Mrs Hatcher 106751

Part of document: Option 6a

Agent ID:

Section of Document:

Your View  Agree

Reason for comment:

Agree but 80% should be regarded as a minimum. Development in rural areas in excess of this target would result in a greater proportion of housing in rural areas than urban areas that currently exists.
Consultee ID: Mr & Mrs Hatcher  
106751

Part of document: Option 7a

Section of Document:

Reason for comment:

Disagree because this would mean that those settlements that are fortunate to have hung on to a service (eg a shop or a Doctor's surgery) or accessibility (eg bus service) will, under this policy, be targeted for destruction whilst those that have not would appear to be completely immune. Whenever development is demand led, economic principles apply and appropriate services and accessibilities tend to follow. Surely the policy should be to encourage development in the existing towns (where all services, accessibility and employment already exists) and not to destroy the smaller local communities by inundating them with development.

Your View □ Agree □ No opinion ✔ Disagree
Reason for comment:
Disagree. the prospect of having 260-430 extra houses imposed on Five Ash Down, over and above the 140 already approved for the Grampian site (ie a potential 570), would be nothing short of the rape of what is at the moment a small community. It would thus become indistinguishable from Uckfield itself.
Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Mr & Mrs Hatcher 106751
Part of document: ☑ option Option 21c
Section of Document:
Your View ☑ Disagree
Reason for comment:
Disagree, as stated in our answer to Q 5a, we consider that before any further development is even contemplated, the boundaries of Buxted settlement as they currently exist should be clearly defined and ring-fenced. Any future development outside this boundary should only be approved when it can be proved beyond all reasonable doubt that the development could not reasonably be expected to be within the boundaries there not could it in any way impair on the rural nature of the area in general. We believe that once this boundary has been established it will become apparent that there is plenty of scope for infilling within its confines without ruining the nature of the community. Whilst we have no land that could possibly be used for infilling, we have had infilling around us and have lost none of our amenities.

Consultee ID: Mr & Mrs Hatcher 106751
Part of document: ☑ option Option 21c
Section of Document:
Your View ☑ Disagree
Reason for comment:
Any future development within Buxted or any of the other settlements in the High Weald should be on a community-led demand basis only and not to satisfy the ever increasing greed of the larger developers. A rough count of the number of houses that have been imposed on Buxted Parish by the larger developers over the past 20 years would amount to around 150. The Parish is about to have a further 140 imposed upon it at the Grampian site, almost as many, in one hit, as its had over the past 20 years. The plan itself proposes a further 460 in Five Ash Down plus another 150 in Buxted Village itself over the next 15 years or so. It must therefore be well beyond time to call a halt to any large scale development (say more than 3 or 4 house on any one site) that does not count against the numbers rimposed within the Wealden Plan.

**Reason for comment:**

Not enough local facilities to cope. This would destroy Ringles Cross which already has too much traffic.

Section of Document:

Your View  ☐ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

A general comment on the Hailsham/Eastbourne Triangle Arlington Parish Council was somewhat surprised to learn of an “action plan” for a Hailsham Eastbourne triangle. This concept has not as far as this Council is aware been subject to any previous planning consultations and was not included in any of the consultations leading up to the adoption of the non statutory local plan in December 2005. Arlington Parish Council is opposed to the imposition of development upon this area which includes Arlington without a full planning consultation as is envisaged under current planning legislation.

f) Upper Dicker Arlington Parish Council consider that between 25 -30 new houses – a balance between low cost market housing and affordable housing could be sustained in this village. Any new development should be targeted to benefit existing residents and their offspring. Arlington Parish Council also consider that Arlington Village could also sustain a small increase of low cost market housing benefiting existing residents and their offspring. This could be achieved through in filling.

Reason for comment:

It is vitally important to maintain the existing characteristics of the Wealden villages and towns. The local landscape features and environment should be preserved whenever possible and there is a need to try and encourage as much housing as possible for local people in rural areas.
Arlington Parish Council would like to see the Cuckmere River Valley -from Michelham Priory to the sea – protected in order to preserve its unique characteristics. Arlington Parish Council is of the opinion that any monies generated from 106 Agreements should stay in the areas or locality in which it was generated for the improvement of local amenities/infrastructure.

It is vitally important to maintain the existing characteristics of the Wealden villages and towns. The local landscape features and environment should be preserved whenever possible and there is a need to try and encourage as much housing as possible for local people in rural areas.

Please leave our countryside alone -more and more of it is being lost to these developments and in the long run no one will benefit - least of all the wildlife etc.

Mr. Brown

Option 25d

Section of Document: Agent ID: Agree

Reason for comment:

Mr & Mrs Withers

Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:
We disagree in principle because AONB’s are vital to preserve the character and health of our country and once they start to be eroded we will never regain them. HOWEVER, if proven without doubt, that additional housing is needed to sustain communities and ensure their future eg local young people can grow up, marry and raise their families in the same area where they themselves were brought up, then there should be some scope for small scale sympathetic development within existing village or town boundaries.

Mr & Mrs Withers

Option 3d

Section of Document: Agent ID: Agree

Reason for comment:

Mr & Mrs Withers

Option 2a

Section of Document: Agent ID: Agree

Reason for comment:
agree in principle but not if this will increase basic cost of properties or have a detrimental visual affect on the area.

106760

Part of document:  
☐ document  ☐ chapter  ☐ section  ✓ option  
Option 2b

Section of Document:

Your View  ☐ Agree  ☐ No opinion  ✓ Disagree

Reason for comment:
Insufficient information to even consider whether this is possible

Consultee ID: Mr & Mrs Withers  
106760

Part of document:  
☐ document  ☐ chapter  ☐ section  ✓ option  
Option 3a

Section of Document:

Your View  ✓ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
All depends on the local needs. If the industry is "clean" ie light commercial and not heavy industrial, and there is proven need of additional housing in the locality then it would seem sensible to use part of the allocated area for dwellings rather than encroach on other greener sites. We would however stress that any such option should be pursued with the utmost care in balancing the employment needs of the area with that of accomodation.

Part of document: □ document □ chapter □ section □ option  
Option 7d  
Section of Document:  
Your View □ Agree □ No opinion □ Disagree  
Reason for comment:  
There should be incentives or other approaches to endeavour to maintain existing usage of properties fulfilling local services.

Consultee ID: Mr & Mrs Withers  
106760  
Part of document: □ document □ chapter □ section □ option  
Question 7e  
Section of Document:  
Your View □ Agree □ No opinion □ Disagree  
Reason for comment:  
Any credence in the classifications detailed was nullified when we reviewed the "Draft Settlement Strategy for the Villages". See Matrix B page 45 in relation to Cross in Hand and compare this with the current situation in the village. Also other data relating to Waldron obviously relates to Waldron/Heathfield and is therefore not a true representation of the facts.

Reason for comment:

If new housing is needed this would seem one of the least offensive areas but the number of houses suggested seems excessive. Care must be taken if siting the development on an aquifer especially in the current concerns about water shortages.

Part of document:  
☐ document  ☐ chapter  ☐ section  ☑ option

Question 18k

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
It seems that government has decided that a football ground can be built at Falmer. Perhaps a new village would be more appropriate on that site instead!!!!!!!!!!! Where are the priorities.....?

Option 28c

Reason for comment:
Development should not be purely sports focused. What about the arts, music, theatre etc. There are very few appropriate performance spaces for community groups in the High or Low Weald towns and villages.

Question Twenty Nine

Reason for comment:
Agree, but only if the development is preceded by development of appropriate infrastructure.

Question Thirty

Reason for comment:
Not possible to comment on all parts of these proposals in a single answer.
Reason for comment:

It is almost impossible to disagree with the sentiments in the 'preliminary spatial vision' - they are 'motherhood and apple pie' statements that it is impossible to contradict. We are more concerned about the practicality of this vision and whether it can be delivered in an environment which will be largely driven by developers, higher authorities, national government etc. The continued character of Wealden will depend critically on the 'sensitive integration' of developments into local areas, and considerable profit- and greed-driven pressures will work against this. How are we to be assured of the continued attention to 'sensitive integration' over a ten-year period? How will the inevitable setting of precedents with unforeseen detrimental consequences be managed?

Reason for comment:

Unable to comment sensibly on 14 objectives within one question, and no option for 'no opinion'.

Part of document: Chapter
Section of Document: Context
Your View: Agree
Reason for comment:

Copwood Farm Uckfield East sussex TN22 5TY. Head of Planning & Environmental policy Wealden District Council Council Offices Pine Grove Crowborough East Sussex TN6 1DH 12th August 2007
Dear Sir, Wealden District Council: Proposed structure plan I am writing on behalf of my family to comment favourably on the recently published structure plan. I understand that Copwood Farm is designated as one of the 'main areas of search for development' to the west of the Uckfield bypass (A22). Clearly any expansion on this site has the following advantages: Existing infrastructure which can be utilised to facilitate access into any new development from the bypass at Copwood roundabout Proximity to existing industrial and housing developments which have taken place in the past thirty years The potential to facilitate projected requirements for mixed use developments through a strategy of consolidation, rather than piecemeal development. In broader terms, I understand that Isfield is also identified as one village among a number of possible sites which may be suitable for a planned increase in housing. I further understand that Wealden District council is required to respond to central government planning policy which: 'requires development in rural areas to take place primarily in those villages which are the focal points for local services.' Isfield appears to have a particular advantage in this respect as it will benefit from the proposed reinstatement of the rail link between Uckfield and Lewes. This will add considerable value to any local policy initiatives designed to reduce dependence upon private vehicle use. Naturally, however any proposed development at this site would need to be adequately supported by infrastructure, including a new primary school and an upgraded village hall and under fives play area. Yours Faithfully Mrs G Tebbutt

Already over congested area, close to proposed national park and existing AONB

Consultee ID: MR HOUSTON
106766
Agent ID:

Part of document: □ document □ chapter □ section ✓ option
Option 18j

Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
Totally inappropriate. Berwick is a small rural community and these proposals would destroy the whole area within at least a 5 mile radius. Many of the new dwellings would be purchased as holiday/second homes thus adding nothing and taking away a great deal.

Consultee ID: MR HOUSTON
106766
Agent ID:

Reason for comment:
Those seeking affordable housing need to be close to work opportunities and not 'out in the sticks' which will only increase transport costs, carbon footprint and road traffic in their efforts to get to employment opportunities.

Part of document: ☐ document ☐ chapter ☐ section ☑ option
Option 2b

Section of Document:

Your View: ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
All new building must meet a requirement of generating at least 20% of its energy from renewable sources and should be increased after 3 years

Consultee ID: Mr Rowling
106767 Local Resident

Part of document: ☐ document ☐ chapter ☐ section ☑ option
Option 19a

Section of Document:

Your View: ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:
The village is built up to the current development boundaries. Any further building will mean using green field sites and add to the general erosion of the area as it now exists. Traffic through the village is very heavy at most times of the day and completely up to the limit during the weekends. Evening rush hour has the village isolated, with jams extending up to the Brambletye Bends (I have commuted to Horsham for the last 3 years and have had daily experience of these traffic horrors!). The main roads systems in the immediate area cannot take any permanent additional load. The East Grinstead Bypass will only push the same traffic problems further South to Forest Row and Nutley.
Consultee ID: Mr Rowling

Consultee ID: Mr Bottomley
106768

Part of document: Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Your View
☒ Agree
☐ No opinion
☐ Disagree

Reason for comment:
If it accepted that 8,000 - 10,000 houses are needed in Wealden they should be distributed as widely as possible throughout the area to minimise the impact on any one area. The designation of AONB is highly subjective and its allocation has been with a very broad brush. New housing should be predominately "affordable". The market can take care of the desires of people in a position to look for larger or second homes. However developments should be on a small scale to avoid the creation of sink estates.

Consultee ID: Mr Bottomley
106768

Part of document: Question 6d

Section of Document:

Your View
☒ Agree
☐ No opinion
☐ Disagree

Reason for comment:
The mix between towns and villages should remain broadly unchanged. Villages must be allowed some development or they will stagnate, but development of both towns and villages should be in proportion to their present size.
Option 8d

**Reason for comment:**
Development of this area would seriously damage the utility of the new South Downs National Park, ruining the view northwards from most of Wealden's section of the Park. Large new towns rarely add value to an area as they are created without a supply of local employment or infrastructure to attract wealth.

Yes - except for SO5 and we dont understand SO11

Mr Bower

Ninfield Parish Council

Part of document: Part 10

Section of Document: Details of How to Comment

Reason for comment:
I have found filling in this consultation very difficult, as on a number of questions are hard to answer given the options you are given or difficult to interpret given limited information. I am writing on behalf of Ninfield parish Council, who have held a meeting to discuss the document, and have found it difficult to comment on a number of areas - and on a number wanted to record a 'no comment' or 'dont know' response - which would give you a more rounded picture of the respondents feelings.

Part of document: □ document  □ chapter  □ section  ✔ option
Option 11d

Section of Document:

Your View □ Agree  □ No opinion  ✔ Disagree

Reason for comment:

I disagree to any developments. I disagree that this has good services of public transport. In fact for a rural area I would say one bus into Crowborough an hour is poor and although the train service has improved only Uckfield to the south and East Croydon to the north offer the consumer anything. Walshes Road leading into Western Road is already a "rat run" for vehicles including large HGV vehicles for access to industrial estates in Jarvis Brook. Travelling down Western Road is at the best of times difficult. Even the slightest increase in traffic in this area would be catastrophic. The council should investigate traffic control methods in this area as a matter of urgency as the road is congested enough as it is.
Mr Rogers  

Part of document:  
Option 11e

Section of Document:

Your View  
☐ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

Public transport has to be improved. HGV and heavy traffic using Walshes Road is unacceptable. Western Road traffic situation is unacceptable as it stands. Amenities in Jarvis Brook are poor. Charity Shops and take away restaurants offer the community a service but I would not accept that these facilities offer varied consumer choice as it is without the proposed development a further 1200 dwellings in the area

Mr Tullett  

Part of document:  
Option 18i

Section of Document:

Your View  
☐ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

there are no words that can express why this shouldn't happen. have the planners noticed the hill carving.
Option 18j

Reason for comment:
this is an area of natural beauty with views too and from the long man of willmington a developement of this size would totally destroy the village and the surrounding countryside, with an increase in road use. i am toatally against this suggestion for the following reasons:- there is not the infra structure to accomodate this sort of developement. there is not the health care services locally to cope. the train service cannot cope at present any increase would have a dramatic effect. there are no local services (i suppose the brown enveleopes from tesco's cannot be far behind) building on a flood plain ( again )

Question 18k

Reason for comment:
all these proposals show that the planners sole solution is to concrete over Sussex. perhaps they should learn that we are reaching saturation point and that we should stop creating the supply. the reason why there is a demand for housing is because this is a nice place to live and would be totally destroyed by further building, i have witessed the destruction of parts of dorset by these sort of short sighted developements with whole indiginous populations be ostichised by the new comers and then dying out. This is a recipe for disaster we are here to protect the countryside for future generations not turn it into shoddy housing estates.

Part 1

Reason for comment:
Very pleased that Wealden has enabled stakeholders to respond at the very earliest stage.

**Reason for comment:**
Reason for comment:

Option 3b
But this is not an excuse to allow buildings of no merit in the countryside to become offices or industrial units. This encourages urbanization of the countryside. It encourages extra traffic and as lorries get bigger and bigger they cause damage to overhanging vegetation and to the edge of the lanes. It’s getting difficult to walk the lanes safely now.

Reason for comment:

Option 5a
But only to provide for proven affordable housing for local people.

<tr>
<td>Reason for comment:</td>
<td>The growth should be 50% in towns and 50% in the rural areas. This is the current split of population and that should be retained in order to retain the current feel to Wealden of a rural district with a number of market towns.</td>
<td></td>
</tr>
</tbody>
</table>
New housing should be 50% in the towns and 50% in the villages. This is the current division of population and it would maintain the distinctive feel of Wealden as a rural area with a few market towns and a number of villages.

Villages with infant and junior schools should take some growth. This will sustain the viability of the local school. Also it will decrease traffic which often travels considerable distance in order to attend a rural school. This is not sustainable.

Option 11b

Section of Document:

Agent ID:

Agree

No opinion

Disagree

Reason for comment:
Option 11c

Reason for comment:
But no housing on this site. The agreed non statutory plan designation of this area for sports should be reintroduced. Crowborough is an expanding town and lacks quality sports facilities. It is unsustainable to say that residents can access sporting facilities in T Wells and Eastbourne. The PPG 17 document is extremely poor.

Option 11d

Reason for comment:
Generally there is poor access. The roads already take heavy traffic already. A roundabout would increase the urbanization of this area of Crowborough and would be totally unacceptable. This area lacks amenities. This area is too far from the Town Centre. Any development would have to be on the Kemps Farm side only and would have to be carefully designed with maximum attention to the landscape.

Option 11e

Reason for comment:
There are significant social problems already for this area. It lacks facilities. It is too far away from the Town Centre facilities. It is too far away from Beacon Community College.
Reason for comment:
Crowborough has already taken much extra new housing already. Much of it inappropriate and not addressing housing need. 5.18 I do not recognise as being correct. The infrastructure has no spare capacity. Beacon Community College we understand will be full in two years. There are long delays for traffic around the Cross which makes the High St horrible to walk along. There has been considerable infill. The loss of the fairground to development will remove a green lung. Few new trees or hedges are being planted. The country market town feel is being whittled away.
Question 11g

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

but I would hope that THE community facility would be achieved long before the core strategy is approved and not be dependent on it. The community has waited long enough. The aspiration of providing choice and quality of shops is great but how will this be achieved? The building of Morrsions with the car park between the shop and the town's High St was a dreadful planning mistake. The Fernbank is a large festering boil. I suspect the shops will remain empty as they are too large and therefore expensive for small specialist shop owners to hire. The ground floor entrance through the car park and the design of the Fernbank is reminiscent of the worst of 60s urban design and has no place in a market town in Wealden. I find it difficult to be positive about the High St. I would like to see a museum. I think future business should be developed south of Crowborough on the A26. Crowborough can take no further development which impacts on Green Lane, Western Road, Hurtis Hill, Fermor Road - life is miserable for residents as it is. Crowboroughs special qualities should be enhanced. It's Arcadian I think with a capital please! I think we need more trees to be planted and more trees that in 25 to 50 years will become much loved focal points to developments. I don't see what can be done to improve the gateway at JB. It's a complete mess and disappointing as this is a historical area with a magnificent Church which is despoiled by a local business that has turned the corner into an industrial waste. Its always dirty. Please dont forget the other entrances to Crowborough which are also important and I believe look dreadful and certianly dont give the visitor any impression of Crowborough possibly being a quality market town. I support the extension of the Uckfield Lewes line and hope that we can achieve a later evening train service to Crowborough. Crowborough is dominated by the car. There is no positive message about putting the pedestrian first. There is nothing here about limiting the light over Crow which now spills well into the AONB. There is nothing here about providing tranquility. The main roads are very busy and in the evening and nighttime cars are driven at extremely fast speeds. I would like to see some imaginative thinking about the traffic situation with a one way system to the worst effected parts but with suitable design to ensure each road does not become a race track! Crowborough suffers from the worst urban blight which highways calls improvements. These have no place in a market town and have just increased the feel of unsympathetic urbanisation which have resulted in it being more difficult for the pedestrian to walk around town. The town lacks TLC - see the healthcheck aspirations. For example the town signs are all dirty!

Question 18k

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

I would like to see a study undertaken to see if it is a plausable option to build a new settlement before sites are allocated for housing in the current settlements. I think it would be an exciting opportunity and could lead to a coherent design and development rather than the ad hoc developments we are currently getting.
Reason for comment:
All villages and especially those with primary schools should take some development. This should be for affordable housing to meet proven need for local residents.

Reason for comment:
All villages especially with junior schools should take some housing. This should be affordable and provide for local proven need.

Reason for comment:
All villages should take some housing. Especially where there is a local primary school as these need to remain viable. This should be affordable housing to meet local proven need. Or could be small family units. We need to retain the viability of our villages.
All villages should take housing to provide for local proven need, especially where there is a local primary school. This will allow for sustainable communities and enable the retention of amenities. The housing should be affordable or smaller family homes.

Reason for comment:
Housing for elderly relatives should form an integral part of the property. We lack the ability to enforce once the particular need for that family has passed. This could be abused though I am in principle sympathetic.

Part of document: □ document  □ chapter  □ section  ✔ option
Section of Document: Question 31b

Reason for comment:
There is nothing about providing for the cultural or spiritual quality of life. More emphasis needs to be placed on providing tranquility. This is especially so in the countryside. But we need more large green spaces in our Towns. There is no mention of Quiet Roads or for some lanes being primarily for pedestrians, horse riders, cyclists. Currently many lanes are used by fast moving traffic not prepared to wait for extra lights etc on the main roads. For example if traffic is heavy there are long tail backs to the A26 in Crowborough so people come off at High Hurstwood and use the lanes parallel to access Crowborough. Traffic is a major issue for all residents. ESCC lacks initiative in acquiring monies from development either for its libraries which should become cultural centres and Crow library is very small and also for adult education both to enable local residents to update skills but also to provide opportunity for learning skills that are purely for leisure and relaxation. The local leisure centre needs revitalizing. There is nothing that addresses an aging population.

Part of document: Option 14a
Option 14b
Option 20b

Reason for comment:

My wife and I are alarmed by the prospect of relatively large housing projects in the village of Wadhurst. The proposed developments within and around the centre of Wadhurst would be served by an infrastructure that is already overstretched. The traffic situation is bad at rush hour periods and for some time before and afterwards as people travel through and from the village. Crossing roads for parents with children involves taking risks with fast moving traffic on the main and side 'rat-run' routes, such routes appearing to be situated in or adjoining sites of proposed development. Supplies of gas, water and electricity will be needed in far greater quantity than at present. We seem to have a large number of works and disruption to the roads by the repairs on roads, and the cables and pipes lying beneath them, this may be exacerbated. We worry that local businesses will suffer as the village gets more clogged up with traffic travelling through Wadhurst. The car parking facilities are not great and frequently are insufficient, so people will travel through wadhurst to get to a larger town or out of town supermarket able to serve their needs. This will add to wear and tear on the town in terms of traffic pollution and noise pollution whilst detracting from the 'Area of Outstanding Natural Beauty' status that hitherto has protected the area. Would the local service centre of Wadhurst become a sterile characterless environment? We fear that the suggestions made by Wealden district Council would make it more so, indirectly is not directly.

Consultee ID: Mr Cornish

Part of document: Option 5a

Section of Document:

Reason for comment:
The statutory building lines were established back in 1988, and the various changes that will have gradually taken place over the past 18 years make it no longer automatically right that previous criteria for a particular area should simply be rolled forward into what will become de-facto a new statutory plan. The cumulative effect of changes made should be a factor taken into account in any new plan.
A specific example: the amount of in-fill development over the past 20 years in the Warren area of Crowborough - around Old Lane, Glenmore Road, GR East, Goldsmiths Avenue etc - is such that the routing of the building line to exclude properties such as 'Hawkwood South' from being within the development area is all the more incongruous and inconsistent. The line should more sensibly and realistically follow the route of the Ashdown Forest Medieval Pale, ie protecting the Forest itself from developers, but not discriminating against the development of the larger garden sites along Old Lane in a way that is in keeping with the gradual infilling that has taken place since the 1988 Statutary Plan.
I would like to object in the strongest possible terms to the proposed new rail link through Isfield as well as to the proposal for a new settlement in the village. In the case of the railway, either the trains would not stop in the village and would therefore be of no benefit to local people, or there would be a station in Isfield, leading to far more traffic on already over burdened roads and the need to provide a large car park in the centre of the village. The level crossing would make the traffic problem considerably worse as well as effectively cutting the village in half. For these and other reasons the rail link has next to no support in the village.

In the matter of the settlement; Isfield is a truly rural village of a type that is becoming rare in the South East. To develop it in the manner suggested would be entirely to change its character, without benefit either to the current inhabitants or to the putative residents of such a development. There is no prospect of employment in the village so any new residents would have to travel some distance to work, putting further pressure on the road system. There is also the question of insufficient amenities, such as the provision of water which, even if the proposed reservoir at Clayhill is approved, will continue to be inadequate. Apart from the fact that development on the edge of larger villages and towns is a more efficient and energy saving way of connecting new residents with employment and leisure facilities, my understanding is that some of these areas such as Buxted and Polegate would welcome new development and have the existing infrastructure to cope with it. This seems to fit in at the same time with the pattern business investors prefer. We understand the need for a certain amount of growth and for the provision of some affordable housing in the immediate area. A modest number of new dwellings would not be vigorously opposed as long as such a development did not change the essential character of the village.
Part of document:  ☑ option

Section of Document:

Your View  ☑ Disagree

Reason for comment:

The current infrastructure for such a development simply could not cope with the influx of residents that such housing would incur. Halland suffers continuing power cuts, has no main gas supply and with the continuing threat from global warming leading to long hot summers and dry winters the water supply is already an issue in the South East that cannot be ignored. Local GP surgeries, local hospitals, schools and supermarkets within the area are already struggling with the current population. Bringing more people into the local vicinity will only add to their already overstretched capacity. Transport continues to be a huge and contentious issue around Halland. The A22 is the main route in and out of East Sussex and is extremely busy. If each dwelling proposed has two cars, which the average family now have, then the additional cars to our roads will be an enormous strain and lead to even more congestion and pollution. The likelihood is that the people who will live in the new housing development will have to commute as the public transport links are practically non existent. Due to this it will only encourage commuters and will not be for the need of local people who need affordable housing. The knock-on effect of a busy main route will be that people seek alternative routes to beat the congestion and this will only overstretch the smaller local roads, in particular the B2192 that has already become increasingly busy and dangerous in the past few years. Also with no easy public transport links and a huge housing estate harbouring teenagers with nowhere to go, the concern has to be with what this younger generation will have to do that could potentially lead to social problems within the area. Nowhere in the document that proposes the Halland Village expansion does it state where they plan to put the additional new homes. All that has been stated is that ‘open fields around most of Halland not outstanding, especially to the South’. We absolutely contest this idea and feel that the countryside around Halland is outstanding and only adds to the countryside and character of East Sussex. In particular walks to the South of Halland offer uninterrupted views of the South Downs and would be totally ruined with a new housing development. With many changes being made to our countryside there is concern for our already beleaguered wildlife population. The local habitats surrounding Halland are rich and diverse with flora, fauna and wildlife that would be devastated by such a huge expansion to our village. Having looked at the potential proposals for such a housing expansion it would appear that there are other sites that could address some of the issues and concerns we have regarding the area of Halland. Berwick, for example, has good transport links both public and private with its own train station and good links to the A27 and is also near Arlington reservoir. While we appreciate the need for affordable housing and that villages in East Sussex will have to grow to cope with this need, we cannot understand the need for expanding Halland to almost triple its population with a housing plan that seems flawed and so destroying the very essence of Halland itself.

Reason for comment:

For any scale of development the incursion into the AONB should be avoided. Exceptionally small scale development at the edge of a village where justified as important to the future vitality and viability of local services might be considered

Option 2a

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

Hillreed support the integration of renewable energy in housebuilding where the technology is maintainable and therefore truly sustainable.
Employment land should be protected. Advice from commercial agents based on past trends should not unduly influence the future spatial provision of employment land in the LDF. The south of the district in particular has long been recognised as underperforming in economic terms but this could easily change in the future if the core strategy vision to stimulate economic interest alongside housebuilding in the south of the district is achieved. The district should look to the future optimistically and not jettison employment land and current allocations based on a pessimistic view from historic trends and a desire for a quick fix of brownfield land to satisfy regional performance targets.

Agree and the assessment of market need should take into account a positive future for employment prospects, based on a regenerative vision, rather than relying on pessimistic past trends. This is exactly the way that Rother has approached the allocation of employment land at North Bexhill despite its poor attractiveness to investors in the past. In Thanet in East Kent this approach has proved successful at the implementation stage too.

Your View ☑ Disagree

Reason for comment:
This will result in effectively a peripheral expansion of Eastbourne and will serve to abandon Hailsham and the smaller rural settlements in more central parts of the district which will become increasingly reliant on this urban centre, leading to longer commuting and congestion, the effects of which will be more acutely felt because of the A27 trunk road.

Consultee ID: Mr Hume
106786 Hillreed Developments Ltd

Part of document: ☑ option
Option 8a

Section of Document:
Your View ☑ Agree

Reason for comment:
The Core Strategy acknowledges the dependency of Hailsham and Polegate on the Eastbourne economy. Rather than accepting the secondary status of Hailsham relative to Eastbourne the strategy should strive to regenerate Hailsham and make it a much more self contained settlement. The Hailsham focus approach will achieve this. Such an approach is even more important given the dispersed settlement pattern in Wealden district which would mean that if Hailsham becomes a dynamic centre and its status increased it will serve the wider rural catchment area. Hailsham geographically could become the main "node" serving the southern half of the district with Crowborough serving the north, it is better placed to do this than Polegate. This approach also seems logical given that Hailsham will become the administrative centre of the district and growth can help address the recognised deprivation in the south and east wards of the town. The concentration of development at Hailsham has a far better chance of reducing the high amounts of outcommuting of the workforce and loss of household retail expenditure to settlements beyond the district. The past underperformance and lack of economic growth could be changed with an ambitious vision to regenerate the town allied to mixed use development of a significant scale. Alternative approaches that continue to promote the dependency of Hailsham on Eastbourne will lead to future lack of investment and decline.
Option 8d

Reason for comment:
Given the current housing shortfall and long lead in times for new settlements, Hillreed strongly disagree with this option when edge of centre growth opportunities are available notably at Hailsham which sequentially represents the first planning choice.

Option 15a

Reason for comment:

Option 15b

Reason for comment:
Consultee ID: Mr Hume
106786 Hillreed Developments Ltd

Part of document: ☑ option
Option 15c

Section of Document:

Reason for comment:
This land is the most accessible to the town centre and therefore in line with Government guidance should be examined before all other greenfield options. Its accessibility to the centre will allow the town to expand and community facilities sited here will therefore be accessible to the widest catchment. This is why the land was allocated in part for mixed development under Policy HA12 of the Non Statutory Local Plan. Proximity to the town centre will result in greater travel on foot and by bike and public transport, with less need for car based journeys thereby reducing congestion. Research by Regeneration Specialists Roger Tym Associates identified that for this site far greater household retail expenditure will be spent in Hailsham's town centre compared with alternative peripheral edge of town sites. This difference could amount to around £1.5million pounds per annum a significant boost to the regeneration of the town. The expansion of the town in this direction will also allow the new community to be better socially integrated with existing residents compared with peripheral alternatives. Opportunities for growth at the edge of settlements are very rare and favoured by the planning system. The town strategically should expand and become more self contained to arrest the dependency on Eastbourne and to stimulate confidence and investment, which in the past has leaked outside the district. This direction of growth allows the town to expand from the centre which will stimulate confidence and allows effective “visionary” land use planning. Public transport improvements could be integrated in this approach with a new route to the centre secured from Battle Road. In landscape terms key views and ecology will be protected and highway studies have shown that a significant scale of development can be accommodated technically within the highway network. No other alternative growth option offers these advantages.

Reason for comment:
Reason for comment:

Agree if exactly as phrased in the question- new development should generate 10% of energy savings by insulation values and solar/ground preheating. No invasive constructions allowed.
Consultee ID: 106787

Option 2b

Section of Document:

Reason for comment:
Until 10% is proven and practical, more is going to add too much to construction costs.

Consultee ID: 106787

Option 3a

Section of Document:

Reason for comment:
Employment zoned land should be retained as just that - the region needs to attract more commerce. If some is lost the price of remaining zones will increase, making it less viable.

Consultee ID: 106787

Option 3b

Section of Document:

Reason for comment:

Consultee ID: 106787

Option 4a

Section of Document:

Reason for comment:
Unacceptable encroachment into an undeveloped area.
Consultee ID: 106787

Option 4b
Section of Document:

**Reason for comment:**

All areas under consideration are sensitive, and the A27 is up to full capacity, so any region which will increase traffic volume even slightly will be negative. Even upgrading the A27 will not fulfil the need as there is considerable backlog of potential volume - for example if made easier to commute to the Brighton area, many journeys will be encouraged which are not at present practical.

Reason for comment:

Option 25g

Section of Document:

Your View: Agree, No opinion, Disagree

Reason for comment:
Option 27c

Reason for comment:
This would require more virgin land and the same effect could be achieved by developing the station area in Polegate.

Option 27d

Reason for comment:
The requirement is for an upgraded A27 with some dual carriageway and by-passes. The entire section should not be made motorway style due to visual effect, cost and encouragement of new development, which, with latent demand, will make the section to Lewes incredibly busy. It is obvious if a full motorway style road is approved then vast housing developments will follow, and the character of the area will suffer.

Option 27e

Reason for comment:
Eastbourne would benefit, and the schemes in other parts of the country reduce traffic. Office and Council workers should be provided with efficient bus services to their workplaces.

Reason for comment:

Consultee ID: Mr Reed  
106789

Section of Document: Option 2a

Reason for comment:

Consultee ID: Mr Reed  
106789

Section of Document: Option 2b

Reason for comment:
Settlement boundaries should be maintained and not expanded once the boundary has been established during this process.

NW Uckfield should be in High Weald AONB, please look to redraw this boundary as this area has all the characteristics. Dr Martyn Stenning can provide details.
Wealden currently split 90% towns and 10% rural, this option was not provided for comments. Even though 50% of currant population is rural if Wealden had a building target of 10000 homes that would mean 5000 to be divided to the villages which is unsustainable and would not be in line with stated objectives such as protecting the countryside.
Option 7c

Reason for comment:
This question has been asked BEFORE readers actually read how many dwellings some villages are being proposed for. EG. Five Ash Down is currently 100 or so dwellings and the proposal is for 260-430 which is completely disproportionate to that village’s size. To expand villages above 10-20% there current size is fool hardy and will turn those villages into mini towns. Wealden has not offered the option to let all villages have some share of the housing burden rather than hoisting it all on a few. Wealden need to spread development and disappate it, rather than be developer lead with 'larger easier to make money' developments. EG, approx 70 villages in Wealden should be able to take on average 20-30 homes each to meet the targets. Some of the larger villages could take more with a cap set at 10 or 20%.

Option 9a

Reason for comment:
Needs to be divided between Crowborough, Heathfield and Uckfield. NW Uckfield has all the characteristics of the High Weald and should be redefined as such.

Option 9b

Reason for comment:
Should be divided between Crowborough, Uckfield and Heathfield but not into AONB.

Question 11f

Section of Document:

Your View ☑ Agree □ No opinion □ Disagree

Reason for comment:
Crowborough, Heathfield and Uckfield should all share the burden of development within Wealden. Any areas to be developed should preferably be brownfield with a reluctance for greenfield. If greenfield sites are chosen these should not 'nibble' away at the AONB, not breach any significant landscape horizons, be sensitive to existing residents and be sites which are the least ecologically sensitive for the town.

Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:

AONB seems to apply to the whole area of the north of WDC - even though many parts would not typically be regarded as AONB such as the existing main towns. It seems that to prejudice other parts of WDC in favour of the High Weald is to ignore some reasonably harmless areas of development potential.
Option 2a

Reason for comment:
Pointless - if the people living in the new "green" houses then have then to drive 1-2 hours away to find work as there will be no suitable work locally and insufficient rail links to allow them to use the train.

Option 2b

Option 3a

Part of document: □ document □ chapter □ section ✓ option
Option 18i

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:
The concept of creating a "New Town" roughly the size of Hailsham in Berwick is fundamentally flawed. There are many examples of successful post war new towns - Stevenage and Welwyn in Hertfordshire are both on excellent road and rail links into London where many of its residents commute to work. Milton Keynes benefits on being positioned close to the M1 and on the main London - Birmingham railway and is strategically positioned as a commercial centre as well as being commutable to the Capital. And Crawley's success has come from Gatwick which is its life-blood. And all these new towns were built at least 12 miles from any rival conurbation. Conversely Harlow, which has always had poor links into London, except for the poorly accessible M11 is an example of a socially failed new town with unemployment and crime traditionally high. A new town of Berwick would be some 80 minutes commute to London by train - more than most are prepared to endure and neither the A27/ M23 or A22 routes to London is likely to make business strategically attractive. So residents of an enlarged Berwick will have to rely on employment in the Eastbourne and Brighton areas - there is little if any evidence that some 5,000 new jobs will come available in these areas to enable people to work reasonably locally. And the concept of creating jobs with new business parks is questionable as it will take enormous tracts of countryside to be concreted over to provide this level of employment. So the alternative is to have the new residents of Berwick finding work in other counties - none of the roads in this area of East Sussex show signs of being able to meet this increased traffic - nor are the rail links suitable. It therefore defies logic to build a new town so close to other conurbations such as Lewes, Eastbourne, Polegate and Hailsham. Then there is the issue of services. Water rates payers, despite there being no reduction in water bills were denied last year the use of their hoses. It would be naive to think this is the last time a hose ban will prevail. Long term there is not enough water in the area to meet demand every year. Full stop. And no water company is going to finance a new reservoir (more appropriation of the countryside) just for another 4-700-houses. Second - the local hospital facilities are under retreat. Eastbourne Hostpital's A&E has a threatened foreclosure notice. Where will 10000 new residents be expected to go to get treatment? Haywards Heath - Oh no that one's at risk too. Then there's the issue of timing of the introduction of services. For example - how many houses does it take to warrant the first primary school, secondary school, surgery etc. 1000? 1500? So until these quotas are built - say over a period of 2-3 years, the residents will have no support services and will need to travel considerable distances to take their kids to school or visit the doctor.

Option 24c

Reason for comment:

Presumably people in need of affordable housing don't have cars or can't afford to be driving to and forth to towns for their needs. So sticking them in the countryside will disadvantage them.

Option 24d

Question 31a
Section of Document:
Your View: ☑ Disagree
Reason for comment:
The so called Eastbourne Triangle is something that has not been put to public consultation. It is therefore inappropriate for Wealden to present this concept in this paper without more information.

Consultee ID: Mr Bendit, Agent ID: 106791
Part of document: ☑ option
Question 32a
Section of Document:
Your View: ☑ Disagree
Reason for comment:
What a ridiculous question. What was the point of asking all the previous questions if you then have a catch all question at the end? The answer is in the curate's egg. Some good bits - some bad. At the end of the day the countryside has to be preserved. Because once it's gone, there's no going back and will be the thin end of the wedge. Eastbourne, Polegate and Hailsham will in a generation's time be the thin end of the wedge. Eastbourne, Polegate and Hailsham will in a generation's time be at risk of becoming like the sprawling urban conurbation of Bournemouth, Christchurch or Brighton, Hove, Southwick, Shoreham etc. ie an amorphous mass of concrete with little if any definable heart. Best answer is to make better the existing towns more viable and vibrant.
The concept of creating a "New Town" roughly the size of Hailsham in Berwick is fundamentally flawed. There are many examples of successful post war new towns - Stevenage and Welwyn in Hertfordshire are both on excellent road and rail links into London where many of its residents commute to work. Milton Keynes benefits on being positioned close to the M1 and on the main London - Birmingham railway and is strategically positioned as a commercial centre as well as being commutable to the Capital. And Crawley’s success has come from Gatwick which is its life-blood. And all these new towns were built at least 12 miles from any rival conurbation. Conversely Harlow, which has always had poor links into London, except for the poorly accessible M11 is an example of a socially failed new town with unemployment and crime traditionally high. A new town of Berwick would be some 80 minutes commute to London by train - more than most are prepared to endure and neither the A27/ M23 or A22 routes to London is likely to make business strategically attractive. So residents of an enlarged Berwick will have to rely on employment in the Eastbourne and Brighton areas - there is little if any evidence that some 5,000 new jobs will come available in these areas to enable people to work reasonably locally. And the concept of creating jobs with new business parks is questionable as it will take enormous tracts of countryside to be concreted over to provide this level of employment. So the alternative is to have the new residents of Berwick finding work in other counties - none of the roads in this area of East Sussex show signs of being able to meet this increased traffic - nor are the rail links suitable. It therefore defies logic to build a new town so close to other conurbations such as Lewes, Eastbourne, Polegate and Hailsham. Then there is the issue of services. Water rates payers, despite there being no reduction in water bills were denied last year the use of their hoses. It would be naïve to think this is the last time a hose ban will prevail. Long term there is not enough water in the area to meet demand every year. Full stop. And no water company is going to finance a new reservoir (more appropriation of the countryside) just for another 4-700 houses. Second - the local hospital facilities are under retreat. Eastbourne Hospital's A&E has a threatened foreclosure notice. Where will 10000 new residents be expected to go to get treatment? Haywards Heath - Oh no that one's at risk too. Then there's the issue of timing of the introduction of services. For example - how many houses does it take to warrant the first primary school, secondary school, surgery etc. 1000? 1500? So until these quotas are built - say over a period of 2-3 years, the residents will have no support services and will need to travel considerable distances to take their kids to school or visit the doctor. The best solution is to make strategic additions to the existing 5 Wealden towns where there are existing facilities that can be used by new residents. These might typically be in groups of 1-200 houses. This will bring an added vibrancy and energy to the towns, helping existing local business in having a greater number of residents to serve. New residents will be able to move into existing communities rather than the bleak prospect of moving into a new town without a soul.

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:
Let's not fool ourselves, wind power can never develop useful amounts of energy. Wave power is a difficult technology, although can potentially produce far more. In the short term, nuclear power is the only viable option. In the long term, only a breakthrough in nuclear fission will save us.

- Section: ☐
- Option: ☑

**Section of Document:**  
Option 5b

**Your View:**  
☐ Agree  ☐ No opinion  ☑ Disagree

**Reason for comment:**  
Most employment is in and around towns. If we are to limit increased commuting, it follows that the most possible development should be in and around towns. It is fatuous to propose making new housing carbon neutral, if this new supposedly carbon neutral housing leads to large increases carbon emissions due to increased commuting.

Reason for comment:
Polegate/Eastbourne both have rail links and, by Wealden standards, relatively good road access. However, it must be said that the whole of this ill-considered, central government imposed plan, takes no account of that the road, rail and public service infrastructure in Wealden will not support large scale development and only scant information from East Sussex County Council, Southern Water, NHS etc is available at present. We are getting into detailed comments on the housing plans without any knowledge of the essential infrastructure improvements.

There is no rail link to Hailsham and access by road is poor.
Consultee ID: Mr Katon  
106793

Part of document: □ document □ chapter □ section □ option  
Option 8d

Section of Document: 

Your View □ Agree □ No opinion □ Disagree

Reason for comment: 

Has there ever been a successful creation of a “new town”? Character and community cannot be created artificially by planners and builders. In any event, the choice of Hellingly Hospital (18g) and surrounding fields is an unsuitable choice unless direct road access to the A267 is provided.

Completely unsuitable location

Option 13a

Section of Document:

Reason for comment:
Why so sensitive about the AONB here? You seem to be prepared to ignore it elsewhere where this plan considers other towns. Tunbridge Wells is a relatively large town by Wealden standards, with services well able to support extra housing. It has a good rail link to London and many people currently commute some distance to the town for this purpose.

Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Mr Katon
106793

Part of document: option
Option 17b

Section of Document:

Reason for comment:
The site might be suitable, but the access roads definitely are not. Once again, this aspect seems to be completely ignored. No doubt, this is a matter for East Sussex County Council, so WDC can pretend it is not an issue for them. This is a theme that runs through the whole of this plan, in that infrastructure issues are sidelined. If Hellingly Hospital is to be seriously considered, a direct road link towards the A267 is essential before the development takes place. If this is not implemented, future residents will develop various rat runs at peak times to avoid congestion at Horsebridge and Bowship Roundabout, including through Hellingly Village.

Option 27d

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
It is interesting that this question, as opposed to others, is posed to encourage a negative response. Clearly, any adverse effect on the South Downs is to be discouraged, but this could be said for the whole of this unrealistic plan, as WDC knows well. To support the planned number of houses, major road improvements would be required, including a number of dual carriageways. These will not be built and the result will be major traffic congestion and associated pollution. Yet, the plan talks of "carbon neutral" housing!

Question Thirty

Section of Document: Infrastructure Requirements

Your View  ☐ Agree  ☐ No opinion  ✔ Disagree

Reason for comment:
The proposals are totally inadequate to support the size of development proposed. This is unsurprising in that the targets set are totally unrealistic.
Option 14a

Section of Document:

Reason for comment:
This is an important environment worth saving. Many species of plant and animal life would be lost if this was developed. The infrastructure is already overloaded.

Option 14b

Section of Document:

Reason for comment:
This is a small area of green belt that should be preserved.

Option 21b

Section of Document:

Reason for comment:
There is a great danger of turning a country location into one huge development. The road would not cope with the extra traffic. The infrastructure is insufficient.

Option 21f

Section of Document:

Reason for comment:
A development of this size would obliterate the character and community of the village.
Your View    ☑ Agree    ☐ No opinion    ☐ Disagree

Reason for comment:
AONB is a very wide designation and there will be degrees of landscape value. Very careful consideration needs to be given before giving permission for building but there might be occasions when it can be considered for particular purposes.

Consultee ID:    Mrs. Holmes    Agent ID: 106795
Part of document:    ☐ document    ☐ chapter    ☐ section    ☑ option
Section of Document:    Settlements in the High Weald Area of Outstanding Natural Beauty
Your View    ☑ Agree    ☐ No opinion    ☐ Disagree
Reason for comment:
Balance as ever important
Because many farm buildings were allowed to be erected without planning permission, it often means a building in the countryside would be in an unsuitable position for any other purposes and could lead to sporadic housing development in the AONB.

Market housing is usually much more attractive to developers than commercial and the work living mix must be protected.
Option 6a

Section of Document:

Reason for comment:
Keeping the local identity of villages is very important or they could expand to become much larger villages and then mini towns. The reason most people choose to live in a village is because of its lifestyle, and community feel. Villages cannot expect to compete with towns for facilities. Villages however need to be sustainable with a happy life work balance mix ideally with a shop, school and church.

Option 19e

Section of Document:

Reason for comment:
Agree with the designation that Hartfield can take only limited growth bearing in mind its status as a conservation village. My understanding that the MAXIMUM number of houses allocated would be 20 during the period covered by the LDF BUT NOT ALL IN ONE PLACE. Two sites have already been identified; Old Crown Farm (9) and the Old Coalyard (8) which is well on the way to the total number. Hartfield already has a large council estate and further development of social housing beyond that specified above would unbalance the village and threaten the AONB. We do not have the infrastructure to support more housing in the village. Hartfield is a very desirable place to live in and through the right to buy families stay in the same house very long term so one could never satisfy such a desire as first choice for all families. Hartfield is a lively village and any additional housing should be small infill sites protecting greenfield sites in the AONBI sites presently a good mix.

Question 19f

Reason for comment:
Any form of development must be closely scrutinised to protect the very special areas surrounding the Forest.
Consultee ID: Mr Bristow

Part of document: Option 18i

Section of Document:

Your View: Disagree

Reason for comment:
Once a green area is built on one never gets it back in the future - it is gone forever. Any housing development should take place on previous factory / retail / residential land that is now derelict. The A27 is insufficient and unsafe at the moment. The A27 cannot support the extra traffic that would be generated by housing development without significant improvement. ie dual carriageway from Lewes to Polegate. Building Houses also means there is a need for extra health, educational, recreational, religious, retail and recycling facilities. The whole infra-structure would have to be developed. It would mean a loss of area for the wildlife. Who is going to live in the new houses and where are those people now? If it is "affordable housing" how much would a house cost? what would the rent be per week? I do support the idea of Wilmington having a Railway Halt for railway services as this would ease traffic on the road and help South Downs walkers and ramblers. I would like an individual response to these points please.

Consultee ID: Mrs Bond

Part of document: Option 14a

Section of Document:

Your View: Disagree

Reason for comment:
Local infrastructure unable to support additional traffic/bus system. Snatts Road is in effect a lane and not built to handle heavier traffic of buses/access to Downlands Farm. This road is already becoming a race track and it is only a matter of time until a very serious accident happens since the road is not built nor has the ability to be widened to take additional traffic. Additionally, any development would cause unacceptable harm to a rural setting that provides a strategic countryside gap break between Uckfield and Maresfield that is of ecological value to the local ancient woodland habitat. This site already supports a number of EU protected species with others also protected by UK legislation - consequently any development issues would require involvement of the EU given the protected status of certain species.
Consultee ID: Mrs Bond
106798

Part of document: □ document □ chapter □ section ✓ option
Option 14b

Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
Uckfield does not have the infrastructure in the North End of town to support any development of this magnitude. Additionally, such development will also see the strategic countryside gap between Maresfield and Uckfield erode.

Option 3a

Section of Document:
Your View ✓ Agree □ No opinion □ Disagree
Reason for comment:
The question is how a 'realistic prospect' is defined. The proof threshold should be quite high - otherwise we risk loss of diversity and supporting business local to residential development.

Consultee ID: Mr Potter
106799

Part of document: □ document □ chapter □ section ✓ option
Option 5a

Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
The very concept of defining a development boundary indicates that a natural limit of expansion has been reached. To simply redefine the boundary is in effect moving the goalposts to meet needs other than those of the settlement itself and renders the whole concept flawed.
Reason for comment:
A development boundary exists to prevent sprawl of a settlement beyond its accepted limits. While there may be a case for fine tuning from time to time this should be strictly controlled to ensure that there is no adverse effect on the existing settlement and should not be seen as precedent to open up new areas of land for development. A case in point is proposals under Hope project to build affordable housing outside the development boundary of Forest Row which would have opened up land to the North and West to further development and also presented the prospect of two cul de sacs being connected and becoming a 'rat run'. Once infrastructure is put in place the case for expansion may become irresistible - neither planners nor the plan can guarantee complete protection...

Reason for comment:
Just because a village is reasonably well served at its current population does not necessarily mean it has capacity to accommodate expanded population. I believe there is a size limit to villages beyond which the sense of community can be lost. The large village then becomes a small town which is likely to result in fragmentation of community and creation of 'sub-communities' and alienation and all the social problems this can bring. The housing expansion pressure should be seen as an opportunity to attract services to smaller villages where services are being denuded (eg closure of sub post offices) or where they don't exist and people have to travel further to get them.

Reason for comment:
See comment to 7a
Consultee ID: Mr Potter
Part of document: Option 7c
Section of Document:
Reason for comment:
See answer to 7a - there are limits to growth of villages before they become towns...

Consultee ID: Mr Potter
Part of document: Option 7d
Section of Document:
Reason for comment:
For smaller villages to retain any chance of survival as self supporting entities basic services need to be maintained. It is these villages where services are at serious risk that should be the focus of population retention and expansion, not where existing population is sufficient.

Consultee ID: Mr Potter
Part of document: Question 18k
Section of Document:
Reason for comment:
I support the concept of promoting significant expansion of settlements that are suffering from depopulation and degradation that will ensure that local services are retained and bring vibrancy back into communities where it has been lost.
Forest Row is a village with an extraordinarily vibrant community that is largely self sustaining. This comes from there being shops and services that both act as a focus but is also of small enough size for people to recognise each other on a day to day basis. A significant increase of population would put the community feeling at risk - creating a small town rather than a large village. Surely it is better to preserve and support the existing community and use it as a model for other smaller villages to grow to the similar size where they can also be self sustaining. Existing services such as schools, health care, parking etc are operating at full stretch. Expansion of 20% would mean that new facilities would be required to serve the population and this would fragment the village. Furthermore the proposed locations have a number of questionable features. They begin the process of physically linking Forest Row to East Grinstead losing the character of the village, both locations are of a hilly nature with serious risk of run off causing flooding lower down, and most importantly a major portion is agricultural land. It is a well known issue in national news that the present system of relying on long distance food is unsustainable. We need to preserve as much agricultural land for future food requirements as possible.
Part of document: Option 25a
Section of Document:

Reason for comment:
With an ageing population, making more provision for older people needs to be given priority. This would then release houses being occupied by single elderly people that would be more suited to family occupation or multiple occupation and reduce pressure to build more smaller houses for first time buyers.

Your View
☑ Agree
☐ No opinion
☐ Disagree

Consultee ID: Mr Potter
Agent ID: 106799

Part of document: Option 25c
Section of Document:

Reason for comment:
Safeguards need to be put in place to ensure property developers and speculators do not hog infill sites - building expensive new houses that attract commuters at the expense of provision for the existing population. The threshold for providing affordable housing with other housing development should be lower - maybe one per every 5 permitted.

Your View
☑ Agree
☐ No opinion
☐ Disagree

Consultee ID: Mr Potter
Agent ID: 106799

Part of document: Option 25d
Section of Document:

Reason for comment:
Affordable housing should be provided where it is genuinely needed regardless of context. This may mean some is needed in some urban areas while some rural areas may not require it. It needs to be determined on a case by case basis.

**Reason for comment:**
and needs... although this should not mean that communities become dependant on permitting development in order to have needs met.

Reason for comment:

There is no reason why this should not be higher. New domestic and commercial development should meet a requirement of generating AT LEAST 20% of its energy from renewable sources with immediate effect, and that this target be the subject of upward review after 3 years

Reason for comment:

Flood Plain to the North of Forest Row, Ashdown Forest to the South would indicate that single plot would not really be possible without significant impact on existing infrastructure and the AONB. What with the proposed East Grinstead ByPass funelling all traffic through Forest Row this really would destroy the village. I really can't understand the relief road at all to funnel traffic past a larger town through to Forest Row. The recent flooding to the North of the village showed the flood plain in action!! More houses would exaserbate the problem. Who now wants to buy on flood plains now!!
Option 20b

Section of Document:

Reason for comment:
The paper comments about the proximity to the railway: The railway car park is full. The trains are full. There are limited taxis available if you do not drive. Few people wanting "affordable" housing will be able to afford it if it is within driving distance of the railway. Wadhurst high street is grid locked most days. There is no parking available. For Wadhurst to support additional housing it needs an improved infrastructure. There is no room for improved infrastructure.

Option 12e

Section of Document:

Reason for comment:
Presently approximately 50 dwellings are served by Sandy Cross Lane. The siting of up to 200 further houses will massively overload this lane which is already barely adequate. It is, in many places, single track, particularly near the junction with Hailsham Rd where most houses do not have off-road parking. Here, the presence of vehicles such as bin / delivery lorries regularly brings traffic to a complete halt for extended periods. The lane is geographically closely bounded by embankments on both sides which would preclude easy widening. There are many blind bends further down the lane where the absence of pedestrian provision causes great concern to walkers, particularly children, when the lane is used as a 'rat run' by some traffic. Furthermore there is barely adequate surface water drainage in the vicinity of Sandy Cross Lane, which would prevent its' use by a heavier traffic load. The development of more housing will intolerably exacerbate this problem. The area immediately to the south west of the lane is an AONB, which fundamentally should not be developed, particularly when other 'non-AONB' sites have not yet been developed. Heathfield does not possess adequate infrastructure to support such a large development, both immediately in the vicinity of Sandy Cross Lane, and more generally. Lack of local employment will force high levels of commuting which will further burden traffic blackspots like those in Cross in Hand.

Question One

Reason for comment:

20% increase is not possible unless it becomes a dormitory of East Grinstead for commuters - totally destroying the village as we know it. We had severe flooding here recently. What about our fantastic local primary, it was also flooded - if they tried to expand we would lose the playing fields and what about the brook? Besides, big primary schools are not conducive to community learning and cohesiveness. Forest Row will not withstand this much development.

106805

Part of document: ☑️ option

Option 14a

Section of Document:

Your View ☑️ Agree ☐ No opinion ☑️ Disagree

Reason for comment:

When we purchased our home we were informed this area was protected woodland. When the woodland was chopped the owners put lots of signs up saying they were just making way for new growth. This was clearly a misrepresentation and raises concerns about the owners trustworthiness. London road is already extremely busy and the traffic very fast and this number of houses will clearly worsen this situation. This level of building will completely change the aspect and rural setting in Ringles Cross not to mention more damage to ancient, protected woodland, some of which has already been hacked down.

Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
Development should be sensitive to areas of outstanding natural beauty.
Option 2a

I would also support a higher target if feasible.

Option 3a

Option 3b

Larger areas should not be precluded from consideration if there is evidence supporting their need.
Consultee ID: Serpell
Consultee ID: Serpell
Consultee ID: Serpell
Consultee ID: Serpell

Option 3d

Section of Document:

Reason for comment:
It must be taken into consideration that many Wealden residents live a large distance away from their work.

Option 4a

Reason for comment:
I am concerned that there has not been a full planning consultation on this subject as required under current planning legislation.

Option 4c

Reason for comment:
Additional route, besides Dittons Road, should be built.

Option 4b

Reason for comment:
There should be a green belt maintained between Hailsham and any developed settlement; furthermore improvements should be made to the A27 and Cophall roundabout.

Question 5c

Section of Document:

Your View  
☐ Agree  ☐ No opinion  ☐ Disagree
Reason for comment:
Question 5c

Reason for comment:
I believe that a new Settlement is the best option; further development will be restricted by the non statutory plan, therefore a new settlement, and the reasearch thereof, should become priority.

Question 6d

Reason for comment:
I understand the current distribution of housing to be roughly a 50/50 split. This works well and I am in favour of the continuation of this policy.

Option 7a

Reason for comment:

Option 7b

Reason for comment:
Option 7c

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

Any such growth should be capped (i.e 10% over 5 years) to protect the character of settlements.

Option 9c

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Option 7d

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Question 7e

Section of Document:

Your View  ✔ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

The definition between Large/Small Local Service centres seems to be fluid; why are Buxted, East Hoathly and Westham shown as Smaller Local Service centres, when all three are larger than Herstmonceux and Horam?
Consultee ID: Serpell
106807
Part of document: Option 8a

Question Twenty Nine
Section of Document:  
Housing Delivery

Your View  
Agree  
No opinion  
Disagree
Reason for comment:

Land should be subject to a vacant land tax, similar to the tax charged on vacant properties, to discourage land banking.
The existing infrastructure must be improved in such places as water and sewerage. However new roads will not resolve the problem.
Consultee ID: Barry
Agent ID:
106808
Part of document: Option 12e
Section of Document:
Your View agree disagree
Reason for comment:
Rural access and enjoyment by many existing residents that live in the area will be affected adversely. The character of the lane with its narrow width & blind corners is unsuitable for significant increased traffic loads. Proximity to ancient meadows and woodland by so many new properties with storm drain infrastructure will further degrade the natural water course flows (witness the ghyll valley adjacent to the last development of Persimmon homes in Green Lane just upstream of proposed location). Pollution loads of the local streams will increase and damage the headwaters feeding the last natural river in Sussex: namely the Cuckmere. Further additional consequent predatory pet populations will degrade the local wildlife value.

Consultee ID: Barry
Agent ID:
106808
Part of document: Option 14a
Section of Document:
Your View agree disagree
Reason for comment:
Unacceptable harm to Landscape & wildlife value of the ecologically valuable & irreplaceable resource.

Consultee ID: Barry
Agent ID:
106808

<td></td>
</tr>
</tbody>
</table>
About 90% should be focused in and around towns with the remainder distributed to villages. This because of the particular character of the rural areas in the Wealden District. I believe Wealden should evolve into an area of dense conurbations with largely empty areas between them.

Far too simplistic. One village shop/garage/station is not the same as another. It may not serve local needs; it could be badly run; in the wrong location; etc... Public perception of the service is difficult to codify, especially from the comfort of the council offices. Additionally a commercial enterprise could close down (or open up) the day after the survey.

Until the method of defining 'growth potential' is workable, flexible and compares like with like, the whole approach is flawed.
Consultee ID: Mr Rogers  
Part of document: Option 8c  
Reason for comment:  
Would eventually lead to development crossing the A22 westward.

Consultee ID: Mr Rogers  
Part of document: Option 8d  
Reason for comment:  
The entire concept of new settlements in the Wealden District is profoundly wrong-headed. We are not living in the Wild West, there are no endless prairies and no Indians to kick out. Urban areas always expand and once developers have a stepping-stone into the rural area there will no going back. Agricultural, Rural and open landscape is not being made any more and we will need it in the future.

Consultee ID: Mr Rogers  
Part of document: Question Ten  
Reason for comment:  
15 houses could double the size of some villages. Thresholds should be considered as a percentage of the size of the town or village.
Option 16a

Reason for comment:
The area around the Cuckmere Valley which surrounds Arlington Reservoir, Abbots Wood and Michelham Priory should be seen as part of the larger area (often called the Heritage Coast) which stretches from Upper Dicker to the sea with Berwick at its centre. This area is shown on tourism and leisure guides, pamphlets and maps published by, among many others, East Sussex County Council, Tourism South-east, The South Downs Joint Committee and even Wealden District Council. It is a tourist destination and the centre of a leisure area much used by the surrounding conurbations. National Cycle Network Routes, the Vanguard Way and the Wealden Way all pass directly through the Berwick area because it is an area of outstanding natural beauty which represents a leisure playground which must be preserved for future generations of the surrounding towns.

Option 16b

Reason for comment:
The area around the Cuckmere Valley which surrounds Arlington Reservoir, Abbots Wood and Michelham Priory should be seen as part of the larger area (often called the Heritage Coast) which stretches from Upper Dicker to the sea with Berwick at its centre. Option 18i

Reason for comment:
The area around the Cuckmere Valley which surrounds Arlington Reservoir, Abbots Wood and Michelham Priory should be seen as part of the larger area (often called the Heritage Coast) which stretches from Upper Dicker to the sea with Berwick at its centre. This area is shown on tourism and leisure guides, pamphlets and maps published by, among many others, East Sussex County Council, Tourism South-east, The South Downs Joint Committee and even Wealden District Council. It is a tourist destination and the centre of a leisure area much used by the surrounding conurbations. National Cycle Network Routes, the Vanguard Way and the Wealden Way all pass directly through the area because it is an area of outstanding natural beauty which represents a leisure playground which must be preserved for future generations of the surrounding towns.
The Berwick proposal is based on several untrue and self-contradictory statements. There is a "need to retain the attractive farmsteads and areas of woodland" but the first phase of the proposal would destroy one of the largest and most important areas of woodland in the area - namely the so-called "brownfield" site. This area of dense and boggy woodland is the only part of the proposed "New Berwick City" that might possibly be masked from the South Downs by the "folds in the land". It is high time this important wildlife site was reclassified as greenfield and left out of development considerations. Given a standard urban rate of 30 dwellings-per-hectare the proposal requires over 200 hectares (2 square kilometers) - without factoring in shops, a school, community buildings, a bigger railway station, a new junction and bridge over the railway. Anyone who has walked along the top of the South Downs and admired the sight of Arlington Reservoir would know that the idea that a development four times the size of that Reservoir can be concealed in any way is ludicrous. The settlement, unable to expand eastward because of the river floodplain, would suck up Selphaston, surround the reservoir northward and spill over the railway towards the A27 (where more spaghetti junctions and road widening would be required). Given a Suburban rate of 1.17 cars-per-household New Berwick City would have over 8,000 commuter cars most of which the new A27 junction might be expected to handle every morning and evening (unless we are going to build some large industries/offices). One of WDC's aims is to build affordable housing. Any developer allowed to build in the Cuckmere Valley would want to build luxury homes because of the desirability of the (shrinking) area of outstanding natural beauty. No developer respecting its shareholders would produce so-called social housing. Any affordable housing built here would swiftly become unaffordable when re-sold. The statistical analysis of work patterns in villages should draw an obvious conclusion. Commuters tend to be among the higher income earners. Affordable housing should not be built in areas high in commuters because such housing will very quickly become unaffordable - assuming the new housing does not have the affect of reducing the attraction of the area and driving all house prices downwards. The area around the Cuckmere Valley which surrounds Arlington Reservoir, Abbots Wood and Michelham Priory should be seen as part of the larger area (often called the Heritage Coast) which stretches from Upper Dicker to the sea with Berwick at its centre. This area is shown on tourism and leisure guides, pamphlets and maps published by, among many others, East Sussex County Council, Tourism South-east, The South Downs Joint Committee and even Wealden District Council. It is a tourist destination and the centre of a leisure area much used by the surrounding conurbations. National Cycle Network Routes, the Vanguard Way and the Wealden Way all pass directly through the Berwick area because it is an area of outstanding natural beauty which represents a leisure playground which must be preserved for future generations of the surrounding towns. The entire concept of new settlements in the Wealden District is profoundly wrong-headed. We are not living in the Wild West, there are no endless prairies and no Indians to kick out. Urban areas always expand and once developers have a stepping-stone into the Cuckmere area there will no going back. Agricultural, Rural and open landscape is not being made any more and we will need it in the future. At all public consultation meetings the public always stress the need to preserve the countryside and encourage agriculture. This aspiration is directly contradicted by a large new settlement in the middle of the Cuckmere Valley. Protecting local environmental quality is a high priority for residents along the Sussex Coast. Most agree that the quality of the local environment should be protected at all costs, even if this means that some needs for jobs and housing will not be met (this from one of WDC's own surveys). When asked where new housing should be put respondents to surveys said (in order of importance):- Where job prospects are strongest, where there is least congestion, where housing is in short supply and where regeneration is most needed. The Cuckmere valley does not qualify in any
respect. The proposed development would provide no new employment nor would it be close to employment opportunities except insofar as any commuter town is. The democratic process is at fault in the consultation process, since inevitably more opinions will be garnered from the urban population and fewer from the rural population who actually inhabit the target region. All public consultation has taken place in urban areas outside the target region but even here urban residents are aware of the necessity of preserving their rural surroundings. There is some suggestion of a ‘chipping away’ method of development starting with infill and limited expansion. This too is the thin end of a large wedge and should also be resisted for all the above reasons. Wealden District does have a problem with Government housing quotas because it is a largely rural district with an AONB in the north and a potential national park in the south - the area in between should not therefore be considered as fair game. It must be considered on its own merits.

Consultee ID: Mr Rogers
106809

Part of document: option

Section of Document:

Your View: Disagree

Reason for comment:
Any affordable housing built in the popular rural areas of Wealden would swiftly become unaffordable when re-sold.

Consultee ID: Mr Rogers
106809

Part of document: option

Section of Document:

Your View: Disagree

Reason for comment:
Why do we like East-West (A27) traffic and dislike North-South (A22) traffic. There is no explanation or justification for this statement in the documentation.

Consultee ID: Mr Coleman
106810

Part of document: option

Section of Document:

Your View: Disagree

Reason for comment:
This development is situated next to an area of local importance as a Nature Reserve, namely Lake Wood, and an area of barrier land between town and country. There has already been a savage attack on the area due to the impact of the bypass, and any further developing of this sensitive area would, of course, have a negative impact on wildlife, local biodiversity and water, light and air. These impacts are important and must be born in mind here.
Consultee ID: Mr Coleman
Part of document: option 14b
Section of Document:
Your View: Disagree
Reason for comment:
It must be obvious to anyone looking at this proposed area of development, that the impacts would be serious on the stability of the area in respect of its undoubted value ecologically, and biodiversity of the natural features here. Everyone knows that when areas are concreted or covered in tarmac etc. the nature of the land changes, and this, coupled with the human impact of pollution, both in the air and on the ground due to abuse of the countryside degrades the area and affects all who live around the site. The greatest respect should be shown to the value of open spaces and they should be preserved as the lungs and life of the community.

Consultee ID: Mrs Fuggle
Part of document: option 14b
Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty
Your View: Agree
Reason for comment:
Small, limited developments on village outskirts in keeping with the character of neighbouring buildings would allow the village to develop and grow in a positive manner.

Consultee ID: Mrs Fuggle
Part of document: option 14b
Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty
Your View: Agree
Reason for comment:
Small, limited developments on village outskirts in keeping with the character of neighbouring buildings would allow the village to develop and grow in a positive manner.

Part of document: Question 15g
Section of Document:

Your View  ☐ Agree  ☑ No opinion  ☐ Disagree
Reason for comment:
The land east and north of the leisure centre and car parks should not be developed. This is outstandingly beautiful countryside which should be preserved-Brownfield sites within town centre could be redeveloped.

Question 32b

Section of Document:

Your View  
☐ Agree  
☒ No opinion  
☐ Disagree

Reason for comment:

More car parking needed for existing residents (and visitors) with no parking space. Many houses are being extended. Therefore emphasis for new housing needs to be on affordable and low cost market housing. I would like to see better (i.e. more frequent) bus connections to/from railway stations to places of work eg Eastbourne, Polegate and houses in order to reduce commuter use on A27. A bus service from houses in Upper Diccer to connect with trains at Berwick Station for Eastbourne and Lewes and Brighton could reduce car usage, but probably more incentives needed to use public transport. Alternatively free car parking could be provided at stations. The Cuckmere Valley in the Low Weald deserves AONB status and should be protected from development.

Your View

☐ Agree ☑ No opinion ☐ Disagree

Reason for comment:

The area known as Hindslands Playing Fields 16f should be kept as green fields. It was used for all sports and was paid for with rate payers money. I have lived at 39 Brightling Road behind Hindslands since the day I was born, 6 Sept. 1943. My parents Mr & Mrs Ernest Pickering still live here. They had their bungalow built here in 1939 in what was countryside and farmland. We have been hemmed in sides and front and we will not accept any more building behind us. I have played hockey on Hindslands as a member of Ladies Hockey Club Saffrons Eastbourne, as did other clubs and schools. Under this Government 187 School Sports Fields have been sold off. We still have the chance to keep this area. The now Prime Minister, Gordon Brown, has announced on 13th July 2007 that he will be allotting 100 million pounds for sports and more time for sports in schools. So I suggest Brighton University apply for the money they need and give back Hindslands to the local communities for sports and leisure. For young and the elderly. There is a strong local feeling that Hindslands field should be retained a green open space, and this area should not be included for housing. Leave villages as they are. You have ruined Polegate Village. We don't like it as a so called Town. Build where Towns are Towns and Brown areas. We have attended many meetings since 1998 regarding Hindslands. I cannot comment on other areas.

Agent ID: 106818

Part of document: ☑ chapter ☐ section ☐ option

Part 1

Section of Document: Context

Your View ☑ Disagree

Reason for comment:
Crowborough and other areas of the district are woefully and seriously short of infrastructure. The is recognised in PPG17. No further house building should be contemplated until the infrastructure problems have been addressed. AONB land is just that. Such land should not be considered for housing or industry. Housing should be built close to the likely employment areas. Car parking near the Uckfield/London rail stations is now a serious problem and needs addressing. In short further development for housing in most parts of Wealden is premature.

Consultee ID: Ms White  
Agent ID: 106819

Part of document: ☐ document ☐ chapter ☑ section ☐ option

Option 14a

Section of Document:

Your View ☑ Disagree

Reason for comment:
I've lived in this area for over 20 years and in particular Snatts Road over the last 2 years, it is simply a beautiful place to live, the fields, woods and wetlands are a pleasure to walk through at any time of day, on our walks we see some many different types of birds, butterflies, flowers and animals, the deer are often also seen. Many many people in the area use this land to relax and appreciate, it is good for our physically well being as well as our mind and souls. My children in particular get alot of stimulation from playing and exploring this area, I ask "What stimulation will anyone get from yet more housing ?" I think it will bring just further frustrations that modern day life brings from over populated areas, bad schooling, poor medical service, over stretched emergency services, bored teenagers, unemployment, congested roads etc etc the list goes on. Please stop distroying the courtsyide that Englands offers, it is becoming a rare beauty that everyone will miss once its all built on, I'm sure even people from the Panning and Building Department love the countryside, do not be responsoble for its distruction. Think of other ways to increase housing, redevelop rundown areas of cities, towns, and industrial wasteland. Success has been seen with such places like the docklands in London, this was an area that could provide many units of housing and has been thought through very well, do the same, look at areas of Brighton which are very run down and revelop them into affordable housing. Can I also be very politically incorrect and very British and ask someone to look at the over populated, illegal immigrants that are in the country and the amount of housing they are taking up, more control should be adherd to and thus I'm sure the demand for additional housing will lessen. Likewise with non-British passport holders buying and renting property in the UK if this was more controlled and limited it would give UK citizens more opportunities.
Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Dr Cann  
106821

Part of document: ☐ document ☐ chapter ☐ section ✓ option
Option 20b

Section of Document: 

Your View ☐ Agree ☐ No opinion ✓ Disagree

Reason for comment:

Strongly disagree this proposal totally disregards the local environment and infrastructure and is based on ill founded arguments. It is also unlikely that Wadhurst has in place the additional infrastructure and services to support such an influx of people and homes. Schools, medical facilities, mains services, policing, public transport, roads etc would all require significant improvements and increases in capacity. Parking and traffic congestion in the High Street is already a serious problem. The relevance of the railway station to housing development at Wadhurst is difficult to understand. It would suggest that the new housing is for commuters rather than for those in local employment. If the intent were to provide affordable housing for those in local jobs it would make more sense for developments to be sited away from the commuter routes and the consequent high prices these areas command. Any significant increase in the number of commuters will lead to serious over crowding both on the trains and in the car park. At present there is no spare capacity for parking at the train station with many cars being dumped at the side of the road.. Large numbers of new homes will inevitably spoil the character of the village and encroach on the surrounding countryside as such development could only be accommodated on green field sites. Section 1.15 of the document identifies areas of ‘key concern’ voiced by local people, which includes ‘Protecting the quality and unique character of the area’ – this would appear to be totally disregarded by the proposal.

Consultee ID: Mr. Edwards  
106823

Part of document: ☐ document ✓ chapter ☐ section ☐ option
Section of Document: How to Comment

Your View ☐ Agree ☐ No opinion ✓ Disagree

Reason for comment:

Regarding the proposal for Crowborough, further development would overburden medical and utility resources and an already inadequate road infrastructure. Access from some of the proposed sites, particularly 11d and 11e are via narrow lanes or roads with significant on-road parking. Proposed sites would eliminate what little green field remains between Crowborough and Jarvis Brook. Town Centre facilities are limited with apparent little opportunity to expand the retail outlets. With limited employment opportunities in Crowborough, further development will necessitate increased commuting by private transport as local public transport services are being reduced. Rail services to London are slow and inadequate and there is no direct rail service to the South Coast. The conclusion must be to re-appraise the requirements and build the necessary homes in closer proximity to employment areas.

Question 7e

Reason for comment:
Any policy restricting the change of use of village shops and pubs should recognise issues of market demand and viability.

Option 8a

Consultee ID: Taylor Wimpey UK Ltd
Agent ID: Sellwood Planning

Part of document: Question 18k

Section of Document:

Your View

Reason for comment:

None of the new settlement options have both the critical mass to support the range of facilities and services necessary to create a sustainable new settlement and support public transport and vehicular access.

**Reason for comment:**

When there is no realistic prospect of employment development coming forward on an allocated site, we would support the view that land should be used for other uses.

**Reason for comment:**
Question 7e

Reason for comment:
Paragraph 5.15 of the Issues and Options Consultation Paper states: “Where planning permission has not been granted for sites identified in the Non-Statutory Plan it will be necessary to reassess these areas as part of the Local Development Framework process to see if they are still deliverable”. We fundamentally disagree with this statement. The identified sites went through a long and thorough process of inspection. The principle of developing these sites has now been established. There is no need to reassess these areas, and the sites should remain as locations identified for new development.

Option 9c

Reason for comment:
We support the principle of providing affordable housing, but believe that the 40% target for Uckfield, Crowborough and Heathfield is excessive.
Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:

As such a large proportion of the District is within the AONB, to prevent development in these areas would lead to economic and social decline. Careful consideration must be given to design; not all development should be assumed to have a negative impact on the landscape.

Option 3a

Reason for comment:

A more flexible approach to land allocation would allow alternative schemes to be considered taking into account the needs of the local community.

Option 5a

Reason for comment:

Settlement boundaries should be reviewed and expanded where appropriate.

Option 5b

Reason for comment:
Option 7c

Reason for comment:
Limiting development to those villages that already have facilities does not aid those existing settlements which lack essential facilities. Modest development which includes the provision of key services could help rejuvenate village life.

Option 22e

Reason for comment:
Proposed site for residential development at Horam.

Option 24a

Reason for comment:
Housing densities should be appropriate to the location.

Option 25a

Reason for comment:
There is an increasing elderly population which requires small single storey properties. Flats and terraced housing often do not meet their needs. Whilst there is a need for small dwellings there is also a continuing need for family housing.
Consultee ID: Ms Norris
106826 Judith Norris Ltd

Part of document: Option 25d

Section of Document:

Reason for comment:
We should be providing affordable housing where it is required and creating mixed communities.

Consultee ID: Mrs Ashford Medaney
106827

Part of document: Option 14a

Section of Document:

Reason for comment:
Lack of infrastructure. Ruining of natural countryside/ancient woodlands etc

Consultee ID: Mrs Ashford Medaney
106827

Part of document: Option 14b

Section of Document:

Reason for comment:
Lack of infrastructure and ruining of countryside and environment

Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Mrs Cameron-Waller
Agent ID: 106830
Wealden Local Strategic Partnership

Part of document: option
Section of Document: Option 3d

Your View: Agree
Reason for comment:
Preferred options to be in line with the current Wealden Community Strategy priorities to: Encourage a balanced approach between residential use and new or existing business sites, for example, by encouraging a more sympathetic approach to the conversion of redundant farm buildings for alternative business uses Support efforts to ensure that adequate employment opportunities are in place or under development where more houses are to be built Ensure that appropriate support and infrastructure is available for the small and micro businesses which tend to predominate in the area.

Consultee ID: Mrs Cameron-Waller
Agent ID: 106830
Wealden Local Strategic Partnership

Part of document: option
Section of Document: Option 2a

Your View: Agree
Reason for comment:
This option is in line with the current Wealden Community Strategy priorities to: Encourage sustainable design through the introduction of a Supplementary Planning Document which includes energy efficiency, greater use of renewables and sustainable transport Recognise and adapt to climate change and its impact on Wealden, including management of CO2 emissions, the demand for water and the provision of adequate water resources, including new resources where there is environmental capacity Encourage initiatives to promote the green agenda, working towards a reduction in carbon emissions, and the ‘eco-homes’ standards in the provision of both social and private sector housing.
Option 2b

Reason for comment:
This option is in line with the current Wealden Community Strategy priorities to: Encourage sustainable design through the introduction of a Supplementary Planning Document which includes energy efficiency, greater use of renewables and sustainable transport Recognise and adapt to climate change and its impact on Wealden, including management of CO2 emissions, the demand for water and the provision of adequate water resources, including new resources where there is environmental capacity Encourage initiatives to promote the green agenda, working towards a reduction in carbon emissions, and the ‘eco-homes’ standards in the provision of both social and private sector housing.

Option 3a

Reason for comment:
Subject to the current Wealden Community Strategy priorities to: Encourage a balanced approach between residential use and new or existing business sites, for example, by encouraging a more sympathetic approach to the conversion of redundant farm buildings for alternative business uses Support efforts to ensure that that adequate employment opportunities are in place or under development where more houses are to be built Ensure that appropriate support and infrastructure is available for the small and micro businesses which tend to predominate in the area.
Option 3b

Reason for comment:
Market need for employment premises or market need for housing? Flexible solutions should be possible, may be a mix of employment premises and housing rather than one or the other. See priorities from the Community Strategy: Encourage a balanced approach between residential use and new or existing business sites, for example, by encouraging a more sympathetic approach to the conversion of redundant farm buildings for alternative business uses Support efforts to ensure that adequate employment opportunities are in place or under development where more houses are to be built Ensure that appropriate support and infrastructure is available for the small and micro businesses which tend to predominate in the area

Option 3c

Reason for comment:
Agree subject to the Community Strategy priorities below, particularly to include opportunities for micro businesses. Encourage a balanced approach between residential use and new or existing business sites, for example, by encouraging a more sympathetic approach to the conversion of redundant farm buildings for alternative business uses Support efforts to ensure that adequate employment opportunities are in place or under development where more houses are to be built Ensure that appropriate support and infrastructure is available for the small and micro businesses which tend to predominate in the area
Hailsham and Polegate seem already to be more or less at capacity without major infrastructure development. Infrastructure improvements would therefore be an essential element of any development in those areas. The LSP supports the concept of the Eastbourne – Hailsham Triangle business development ‘Blueprint’, but would encourage the WDC LDF team to liaise with the East Sussex Economic Partnership (ESEP) as the ‘Blueprint’ forms a key element of their new 10-year Economic Development Strategy and they envisage a ‘special development vehicle’ to deliver the vision. There needs to be coherence and alignment between the Wealden and Eastbourne LDFs and the strategies and plans of ESEP and, for example, SEEDA.
Hailsham and Polegate seem already to be more or less at capacity without major infrastructure development. Consurnee ID: Mrs Cameron-Waller
106830 Wealden Local Strategic Partnership

Part of document: ☑ option

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
The LSP believes that a maximum of around 15% of development should be distributed between villages, prioritising those which are most sustainable in the longer term. To encourage development in villages which are unsustainable goes against common sense and could be seen as an irresponsible use of scarce investment resource. Therefore, about 85% of development should be focused in and around towns.

Consurnee ID: Mrs Cameron-Waller
106830 Wealden Local Strategic Partnership

Part of document: ☑ option

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:
Disagree unless significant infrastructure improvements are included.

Consurnee ID: Mrs Cameron-Waller
106830 Wealden Local Strategic Partnership

Part of document: ☑ option

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
The LSP believes that the classification of settlements and attendant strategy should aim for development which achieves long term sustainability, either by consolidating existing sustainable settlements or by contributing additional sustainability to settlements which are currently at the margins of sustainability.
Option 8a
Reason for comment:
Disagree unless significant infrastructure improvements are included.

Option 8c
Reason for comment:
Disagree unless significant infrastructure improvements are included.

Option 8d
Reason for comment:

Option 9c
Reason for comment:
Agree, but Uckfield’s situation needs particularly close study and review, see comments under each town later.

**Part of document:**  
☐ document  ☐ chapter  ☑ section  ☑ option

**Question 11f**

**Reason for comment:**
Levels of development in and around Crowborough should to some extent be determined by the infrastructure improvements which can be achieved. However, considerable weight must also be given to designing in measures to assist in building social cohesion as this is already a cause for concern in the community. ’Planning for Real’ type exercises should be undertaken so that there can be real involvement and engagement around the decision-making process.

**Part of document:**  
☐ document  ☐ chapter  ☑ section  ☑ option

**Question 14i**

**Reason for comment:**
The LSP believes that the complexities of the factors surrounding options for development in Uckfield demand a major, dispassionate review to include ‘outside the box’ thinking, considering really radical approaches and involving ‘Planning for Real’ – type exercises.
Question 15g

Reason for comment:
Hailsham seems to be very close to capacity without significant infrastructure improvements, although there may be room for marginal incremental development.

Question 16h

Reason for comment:
The Polegate / Willingdon area seems to be very close to capacity without significant infrastructure improvements, although there may be room for marginal incremental development.

Option 18j  
Section of Document:  
Your View □ Agree □ No opinion ✓ Disagree  
Reason for comment:
After careful consideration, the LSP concluded that they do not believe that a new settlement option is appropriate for Wealden.
A Community Strategy priority is to Influence the Local Development Framework to allow villages to expand in order to provide small scale developments, and allow higher density dwellings (eg terraced houses) in rural areas providing the design and layout is appropriate and includes suitable provision for open space and parking. The LSP supports dwelling densities of more than the 30-35 dwellings per hectare where this is appropriate, but is reluctant to support a blanket level for the entire District given the wide range of settlement types and sizes. Development should be in keeping with local character.
Option 25a

Reason for comment:
Agree – in rural areas as well as in towns

Option 25b

Reason for comment:
A Community Strategy priority is to Lobby for an increase in the percentage of affordable housing in developments, an extension of the requirement to include smaller schemes, and encourage affordable provision in all settlements The LSP supports mixed, balanced and sustainable development to meet the needs of existing and future communities. It is likely that some flexibility is required in order to achieve this.

Option 25c

Reason for comment:
A Community Strategy priority is to Lobby for an increase in the percentage of affordable housing in developments, an extension of the requirement to include smaller schemes, and encourage affordable provision in all settlements The LSP supports mixed, balanced and sustainable development to meet the needs of existing and future communities. Part of document: □ document □ chapter □ section  ✔ option

Question 31b

Section of Document:

Your View □ Agree □ No opinion  ✔ Disagree

Reason for comment:

As the paper states at 8.4 ‘The best plan visions are often fairly short’. The examples given are very short and succinct, but effective. Flowery language is inappropriate. Given current thinking about the importance of aligning Sustainable Community Strategies and LDF Core Strategies, the LSP would encourage the LDF team to liaise with the East Sussex LSP Chairs and Co-ordinators group overseeing the production of an East Sussex Integrated Sustainable Community Strategy to ensure that the visions expressed are in harmony with each other.

106832  
Part of document: □ document  ✔ chapter  □ section  □ option  
Section of Document: Location Plan  
Your View  □ Agree  □ No opinion  ✔ Disagree  
Reason for comment:  
1) The proposal for a new town at Berwick will visually impact the South Downs and The Cuckmere Valley, this being the last remaining undeveloped river in the South East. 2) Berwick and the surrounding villages are considered 'rural', any new building on the scale proposed would change the areas dynamics - the reason why so many of us choose to live and bring up our families in this environment is that it is safe and largely free from modern day influences - why spoil this! 3) As large scale building is also being considered for the A22 from Golden Cross to the Boship, my own village Ripe, is in danger of becoming a rat-run - consequently this will impact my ability to enjoy my own home.

Reason for comment:
I feel that small developments in all suitable villages are better than one large settlement. Our infrastructure—roads, water, sewage—could not cope with 1000’s of people in one area.

Consultee ID: Gower
Part of document:  □ document  □ chapter  □ section  ☑ option
Section of Document:
Your View  ☑ Disagree
Reason for comment:
Sandy Cross lane is a very narrow road, at places 2 cars cannot pass each other with ease. There are no pavements for anyone to walk on and I cannot see how these could be created. Sandy Cross lane and Weavers Brook are already used as a rat run, at parts of Weavers Brook 2 cars cannot pass each other. it is not safe to walk along them. Such a development would inevitably increase car movements through Old Heathfield. The building would be within the AONB and close to SSSIs and inevitably have a negative impact on them. I am not opposed to development within Heathfield per se but unless there is proper public transport or facilities to allow people to walk safely then such devepment would not enhance the town but make it worse. I do not think that many jobs can be created within Heathfield and those living in the new developments would need to use cars to get to work, there being virtually no alternative.

<tr>
<td>Reason for comment:</td>
<td>Firstly I believe these plans make the usual mistake of thinking that expansion is always a good thing - this is an erroneous concept; within the province of the human body there is a term for unlimited growth: cancer. Besides this, a large percentage of housing in the area is utilised by the elderly - single occupants in 4 bedroom houses. If space is an issue, as it must be to even begin justifying additional housing, why not create attractive affordable one-bedroom apartments that act to draw the elderly, simultaneously freeing up a large number of family-sized properties without recourse to building new houses on green areas. Such areas usually constitute a primary attraction to new residents in the first place, so the less of them there are, the less interest there will be from potential new residents. As an aside, I'd like to point out that the very way the options offered here have been presented offers little scope to really speak our minds - where, I ask, is the option stating that there should be no expansion at all? Failure to present all possible options for consideration defeats the purpose of community discussion; it becomes subtly biased in favour of expansion whether we want it or not.</td>

Option 5b

Section of Document:

Your View □ Agree □ No opinion ☑ Disagree

Reason for comment:
Rachel Stelling said it all as far as I'm concerned: "A settlement boundary is there to protect the village from overdevelopment. If it can be ignored then it is meaningless, however strict the criteria...." I would also add again that as many four-bedroom houses are occupied by less than four people, the situation is akin to building bypasses for the increasing number of cars when the majority of these cars are capable of carrying four passengers but almost always seem to be used by individuals. "More" is not the answer - "better, more efficient use of what already exists" is. This is the story of our world, is it not?

Option 19a

Section of Document:

Your View □ Agree □ No opinion ☑ Disagree

Reason for comment:
Forest Row has a very special community. Could more infill development be accommodated in preference to expansion of the boundary? More local discussion is needed to determine what housing needs exist and how they might be met.

Foreword

Section of Document:

Your View □ Agree □ No opinion ☑ Disagree

Reason for comment:
Specifically, but equally relevant elsewhere, Re Polegate and Willingdon. We do not want anything larger than options 16e and 16g until we have schools, roads, infrastructure that support these developments. East Sussex is a backwater in terms of travel.
Reason for comment:
The Council should also consider land lying north of the Millbrook Industrial Estate, south of the railway line and immediately west of Palesgate Lane. The land is in a sustainable location, well screened and bounded on three sides by existing development.

Reason for comment:
The proposed development would have an unacceptable impact on views to and from the Downs and on the historic landscape of Wootton park. This is a registered Park and Garden of Special historic interest and the landscape setting of the manor, a grade II* building of special historic architectural interest. Planning legislation requires special regard to be given to the impact of development on features of special architectural interest. Wootton park is a multi layered landscape extending over 2,000 years and notable features include; Doomsday Book reference 1086 a manor of 4.5 hides which had increased value by 400% since 1066 Hunting Charter of 1252 confirmed presence of road and substantial demesne with its own chapel. The field boundaries and names remain unaltered to present day Roman Road - Fanne Street and associated tree belt which passes north of the house John Speeds map of 1652 and Blaus map of 1645 show field boundaries and names, recent research suggests that the fields in the front Park have never been ploughed or fertilized. Parts of the house and chapel date from this period Manor House built in 1650 on foundations of older house and incorporating medieval features including chapel Lewes Toll road opened early 18th century with original tree belt South Coast railway built 1832 with further tree planting Extension of house, garden parkland and model farm built by Detmar Blow an important example of Arts and craft movement.
Any large-scale new settlement at Berwick would create a logistical time-bomb with regard to traffic flow on the A27. The present road through Berwick and Upper Dicker, joining the A27 and the A22 would also suffer a dramatic increase in traffic densities. There is a large school on this road at Upper Dicker, with children crossing the road regularly between different school buildings.

Development in the High Weald AONB should, however, be restricted to that necessary to satisfy only the housing needs of those settlements that are within the AONB.
Although new development should meet ever more stringent requirements for energy saving, it should not be linked to micro generation from renewable energy sources. Site suitability and planning controls relevant to the various types of energy generation are entirely different to that for residential development.

- [ ] section  
- [x] option

**Section of Document:**

Your View  
- [x] Agree  
- [ ] No opinion  
- [ ] Disagree

**Reason for comment:**
Rotherfield's restricted village centre road junctions flanked by listed properties in a conservation area severely impair traffic movement, which is already overloaded by traffic coming through the village to reach the Jarvis Brook industrial estates. Growth potential should therefore be significantly reduced.

Most affordable housing needs to be in the towns within a reasonable distance of the services required by young families.

Existing permissions widely flouted. Controls impractical.

Reason for comment:  
A line has been drawn and should be kept to - otherwise a boundary is not real.
Option 5b

Reason for comment:
A line should be drawn and kept to.

Option 19a

Reason for comment:
Forest Row is large enough. Focus should be on infill development and encouraging smaller villages in the District to reach critical mass to be self sustaining.

Option 5a

Reason for comment:
Rules are there to be stuck to.

Option 5b

Reason for comment:
Rules are there to be stuck to.
Consultee ID: Simmons

Part of document: □ document □ chapter □ section □ option

Section of Document: Option 19a

Your View  □ Agree  □ No opinion  □ Disagree

Reason for comment:
I love Forest Row and feel safe here. If it got bigger I couldn't walk my dog on my own because there would be too many strangers. Also my school is a nice size so I know most of the children's names. I like this and feel like I know people here. We can walk to the shops and see my friends. Please don't spoil this by making it bigger. I moved from Southwater where the school got big and didn't like it there as much.
Absolutley not, sandy cross lane of all places is completly innappropiarat, the area of outstanding natural beauty is all ready under threat from global warming and other man made enviromental problems, out of all proposed sites there is no reason why the land and area around old heathfield, the area behind the proposed area has to be completely destroyed, along with various eco enviroments which would destroy the areas wildlife, and numerous habbitats which are already struggling to survive. Under no circumstances should the council even consider destroying the only remaining animal and wildlife habbitats in and around heathfield, Thedilution of people in the area would destroy the community, disruption to the highly unsuitable road network which is even unsuitable for the school run let alone a new housing estate as well. The small schools of Prkside and All saints would be swamped and overrun with new children needing convienient schooling, classes would increase in numbers and children already in education therefor cannot get the individual help they require, unless the council are planning to build a new school in the area aswell (even tho there is already three). Acess to the site would completly tear apart the historic enviroment, and is completly innapropriat when a brown feild site closer to town has been proposed. Extra police would be need to be situated in the immediate area, as the distance from town is in practical, transport and bus routes would have to be altered thus spreading the urban development accross all the way from town down to old heathfield. If the area was to be sentenced to this fate, i can predict that the remaining area of old heathfield, towards The Star would be developed shortly afterwards as it has nothing more than sandy cross lane has physicaly stopping it. Once the sandy cross area has been developed and all natural beauty, wildlife and last remaining sense of rural community has been completly destroyed, what is stopping the development and urban sprawl traveling further and further. Drainage in the area would be a problen because of its situation, the new houses would bring with them higher crime rates (with no one to police them) more theft from houses surrounding, noise pollution, sound pollution, loss of wildlife, loss of bird species, loss of community, more traffic using highly unsuitable road networks, choosing to destroy areas of natural outstanding beauty when it could so easily be done on Brown feild sites where it already has good reliable transprot links, no wildlife or community to be destroyed, easier to police as the areas of higher crime (the new development) could be policed along with town. Once the development had been built other services would pop up to cater for their needs, such as more small shops, then a bigger shop, then they would want fuel so a petrol station would be built, this would all compet for customers and lead to eventual degenration of the town area which would have to compete for the customers, once the town was run down the rest of heathfield would be soon to follow. Therefor i beleive the council would be making a huge mistake which cannot be put back by building any development on sandy cross lane or any part of the old heathfield area once built it would signal the rapid decline in community, complete devestation of the enviroment and ruin the lives of the inhabbitants in the area. This mistake has been made before in other areas.
Consultee ID: Mr Shaw

Part of document: Option 5a

Section of Document:

Reason for comment:
The statement does not provide an effective framework for policy at all - to say that boundaries should be maintained but expanded where necessary means that anything becomes possible. Boundaries should be maintained and particularly in relation to large villages such as Forest Row, development should be encouraged within those boundaries.

Consultee ID: Mr Shaw

Part of document: Option 19a

Section of Document:

Reason for comment:
Forest Row is already a large village. An extra 200 or so houses would make it a small town and increase the likelihood of it becoming 'joined up' with Ashurst Wood and East Grinstead. Forest Row has the feel of a lively and self-sustaining community and that identity would be endangered if the physical boundaries started to merge with other developments which are currently separate.

Consultee ID: Mrs Innes

Part of document: Part 10

Section of Document: Details of How to Comment

Reason for comment:
I strongly disagree with proposals for additional housing and development in and around Hailsham, Hellingly, Lower Dicker, Willingdon and Polegate. I believe any such developments would damage our existing wildlife and natural environment putting the whole area at severe risk of flooding; overload the already stretched facilities for social, health, welfare, medical and dental care. It would also impact adversely on our rural way of life. Public transport in these areas is slow and restricted forcing people to use their own cars to go about their daily business. Parking is already at a premium in the towns. The A27, A22 and A267 already have more than their fair share of serious/fatal accidents and these roads have to be shared with cyclists, slow moving farm vehicles and horse riders. In Hellingly we frequently suffer already from power failures and these can only worsen if more houses are built. Please say 'No' to government plans for further development in this beautiful part of out country. Stop the urbanization of our villages.

Reason for comment:

Consultee ID: miss RICHARDSON Agent ID: 106861

Part of document: option 7a

Section of Document:

Your View: Agree  No opinion  Disagree

Reason for comment:

This is very unclear and the criteria used very contradictory as well as vague and subjective, just because a "service" is present, does not mean it is any good, in some cases. You classify Buxted as a "smaller centre" but then put it in the same growth potential catagory as "larger centres" by your listed definitions it would be "intermediate"

Consultee ID: miss RICHARDSON Agent ID: 106861

Part of document: option 7c

Section of Document:

Your View: Agree  No opinion  Disagree

Reason for comment:

development should be spread accross the area, not concentrated so that all communities can grow, rather than swamping a few to "save" the rest
Consultee ID: miss RICHARDSON Agent ID: 106861

Part of document: □ document □ chapter □ section ✔ option

Section of Document: Option 7c

Question 18k

Your View  ☑️ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
I disagree with the idea of a new settlement for the area, as previously discussed in earlier questions.

Option 23e

Your View  ☑️ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
We support these spatial objectives as they identify that parts of Hailsham are significantly deprived and have poor access to services. Some areas of Hailsham are within the top 15% most deprived areas in the UK. Government policy in PPS1 and PPS6 encourages social inclusion and the creation of safe, sustainable, liveable and mixed communities with good access to jobs and key services for all members of the community. The Core Strategy should ensure that development is accessible and delivered within urban areas close to the communities that they seek to serve. The document should appropriately support proposals that will provide services that will address social disparities within Hailsham. We are also supportive of the need to enhance Hailsham’s role as a service centre through the improvement of its retail offer. The Core Strategy states that there is a clear quantitative and qualitative need for comparison and convenience floorspace within Hailsham. Coupled with the levels of deprivation in the town, there is a need to provide a discount foodstore within the urban area at an accessible location for all. We are also supportive of the objective to improve local services and to maximise opportunities for town centre regeneration. The improvement of Hailsham’s retail offer and other services will assist in the enhancement of the town centre through regeneration and investment in infrastructure and through the redevelopment of underutilised previously developed land in central locations. Such an approach reflects the sustainable objectives of Government policy set out in PPS1, PPS3 and PPS6. We also support the objective of retaining the Cattle Market within the vicinity of the town and are supportive of efforts to identify an appropriate relocation site within the Parish boundary, as set by the Hailsham Cattle Market Act. The Cattle Market acts an important focus for the town and farming community, serving as an integral part of the local economy and also acting as a tourist attraction for the town. However, the Cattle Market site forms an important site on the edge of the town centre and, subject to a suitable relocation site for the market being secured, the current owners of the site should be supported in their efforts to redevelop the site for uses that are appropriate to is central location and supportive of the other spatial objectives for the town. This would allow for a modern Cattle Market facility to be provided at a more accessible location, providing a facility that will better serve the farming community and improve animal welfare. This will also allow the existing site, which is currently underutilised, to be redeveloped for appropriate uses at an edge of town centre location. We propose that the Cattle Market site be allocated for mixed use development, specifically retail and residential due to its accessible and edge of centre location, within the LDF process to assist its future redevelopment.

☑️ option

Question 32a

Section of Document:

Your View   ☑️ Agree   ☐ No opinion   ☐ Disagree

Reason for comment:

We support objective SO10 which seeks the broadening of the weak retail offer of the District’s Towns through meeting the need for additional comparison and convenience goods floorspace by 2016. We believe that there is a significant quantitative and qualitative need for convenience floorspace within Hailsham. The current provision and the commitment for a new Tesco in the short term is recognised, however, there is considerable need for a qualitative improvement to the local offer to provide genuine choice for the community that the town serves. Significantly, there is a need for discount convenience facilities to meet the qualitative needs of the areas within Hailsham that are identified as deprived. Such an approach is supported by PPS6 which promotes social inclusion, ensuring communities have access to a range of shopping facilities, and that deficiencies in provision in areas with poor access to facilities are remedied. The provision of additional retail facilities will also provide investment to the town, crucially improving deprived areas and creating additional employment opportunities and an improved physical environment for the benefit of all who live in and visit Hailsham.

☑️ option

Option 2a

Section of Document:

Your View   ☑️ Agree   ☐ No opinion   ☐ Disagree

Reason for comment:

UNTil such time that a better understanding is obtained and published, I believe that there is insufficient knowledge amongst many on what is the most efficient form in initial capital cost and payback period and the amount of energy generated. Ideas and targets are good and to be encouraged, but surely should be weighted with realism.
Reason for comment:
The protection of employment in rural Wealden areas is a high priority, because the lack of it can lead to problems elsewhere in the community framework, but if an allocated site has not been developed for the lifecycle of previous structure plans because businesses do not want to locate in that designated area, then the allocation should be reviewed for other development, say new settlements. Also, where old factories have laid empty but advertised for a reasonable while, they should be considered for affordable housing in accordance with PPG’s and enacted in other authority areas.

Reason for comment:
Agreed

Reason for comment:
Agreed

Reason for comment:
Agreed, but bring forward the long awaited and programmed highways improvement works
A cautious agreement. Generally town infrastructure is better than in the village. Shops, schools, health care, leisure and transport links have been evaluated for future growth capacity of housing, whereas villages have limited infrastructure and other social facilities. However there is a need to balance the type and quantity of housing to suit each individual area without destroying the social and community fabric, or letting it decline.

Agreed, but with the conditions of strict consultation, retention of settlement character, a good percentage of affordable housing to suit local needs, infrastructure, transport, employment and the countryside. Could undeveloped historic employment designated land take the pressure off villages?

Agreed. A balanced approach and delivery, instead of placing all eggs in one basket. A spread should be encouraged to enable a balanced sustainable community addressing the private housing needs, and those of the young and the elderly.

Part 1

**Section of Document:**
Context

**Reason for comment:**
Firstly a general comment about the timing of the consultation, once again at peak holiday time when many people are away from home. Secondly I do agree that we need affordable, sustainable and eco-friendly housing design and this might well be an opportunity for courage and innovation in design. However I fear that the only way these developments will be funded is by speculative developers reaping high profits. I am against the proposals for the rural villages on green field sites such as is proposed for Wilmington Green. At present we have the South Downs and the old village street, the A27 which cuts through the Village Green itself and the railway. As I understand from your draft proposals somewhere between the railway and the green at Monkyn Pynn you propose a development of 1-2000 homes and a railway station! This is at present agricultural land with the unspoilt green at Monkyn Pynn beyond which is Abbotts Wood within about a mile at Robin Post Lane. What is proposed is a large new village between the beauty spots of Abbotts Wood, Monkyn Pynn and the Village Green, Village of Wilmington and the South Downs, now about to become a National Park. As a railway user (from Berwick) I am not convinced that we need another railway station given that most inhabitants of the proposed development will almost certainly be car users commuting to Brighton and Eastbourne. Why not look at a more modest development or series of small developments say up to 500 dwelling units, at various such sites, of affordable well designed "green" dwellings such as can be found in Shropshire and the London Borough of Sutton, well integrated into the landscape and using existing brownfield sites or redundant farm sites which have existing farm buildings, perhaps utilising some of these in innovative ways?

**Option:**
Option 18i

**Reason for comment:**
Too close to AONBs and would destroy the character of the area, particularly the almost unique now in this part of the South East, rural feel of the lateral stretch from Selmeston to Folkington and from Abbotts Wood to the Long Man as well as views of the Long Man from different points within this compass. The already appalling traffic problems on the A27 would become even worse and the infrastructure is not in place to cope with this level of development (including the railway which is at capacity already at peak hours) Whoever put this idea forward is either winding us up or rehearsing for a comedy spot on the Edinburgh Fringe.

- [ ] No opinion
- [x] Disagree

**Reason for comment:**

Wadhurst has already outgrown its infrastructure. The main line station and secondary school make it a popular residential location, such that the traffic roads are already severely congested, parking in the village is a major problem and other facilities such as the medical practice are over-subscribed and working to absolute capacity. The secondary school cannot expand without spilling over into undeveloped agricultural land in a sensitive valley within the AONB. The village lies at a busy intersection linking the access routes Lamberhurst - Mark Cross and Tunbridge Wells - Ticehurst; traffic on these roads passes both the secondary and primary schools where there is already gridlock twice daily in term time. The fact that Wadhurst is the largest of the three villages under consideration in this paragraph militates against (rather than in favour of) its further development as its infrastructure is already severely overstretched and its residents’ quality of life already degraded by its over-development.
Option 20b

Section of Document: Agent ID: Agree No opinion Disagree

Reason for comment:
Wadhurst has already outgrown its infrastructure. The main line station and secondary school make it a popular residential location, such that the traffic roads are already severely congested, parking in the village is a major problem and other facilities such as the medical practice are over-subscribed and working to absolute capacity. The secondary school cannot expand without spilling over into undeveloped agricultural land in a sensitive valley within the AONB. The village lies at a busy intersection linking the access routes Lamberhurst - Mark Cross and Tunbridge Wells - Ticehurst; traffic on these roads passes both the secondary and primary schools where there is already gridlock twice daily in term time. The fact that Wadhurst is the largest of the three villages under consideration in this paragraph militates against (rather than in favour of ) its further development as its infrastructure is already severely overstretched and its residents' quality of life already degraded by its over-development.

Part 1

Section of Document: Context

Reason for comment:
Central Government has said that 80% of the 3 million new dwelling proposed in the next 20 years should be built on Brown field or ex government sites. The South East England Regional Assembly (not an elected body) then calculates that Wealden must built 8,000 new dwellings. Wealden does not have sufficient Brown field sites to meet the 80% government requirement and therefore will be forced to build on Green field sites. In addition there is little consideration given to the infrastructure of the area e.g. roads, transport, schools, water, hospitals etc.

Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:
Building on AONB could start "encroachment" because 99% would be on Green field land. Also it would increase noise, pollution and require new roads/services etc. The only exception should be on a Brown field site within a designated AONB if the development is an improvement e.g. old farm buildings or industrial area etc.
Option 2a

Your View  □ Agree  □ No opinion  ✔ Disagree

Reason for comment:
It is always good to have targets but there is insufficient information on how the 10% has been calculated or can be achieved (measured). If it means Wind Turbines on the High Weald definitely NO. New domestic and industrial/commercial developments could include strict energy saving methods. But if the desire is for "affordable homes" how can it be achieved?

Option 2b

Your View  □ Agree  □ No opinion  ✔ Disagree

Reason for comment:
Same comments as 2a

Option 3a

Your View  □ Agree  □ No opinion  ✔ Disagree

Reason for comment:
Only on Brown field sites but must protect the local envioroment.

Option 3b

Your View  ✔ Agree  □ No opinion  □ Disagree

Reason for comment:
Option 3d
Section of Document:
Your View  
Agree  No opinion  Disagree
Reason for comment:
Very necessary to create and retain local employment.

Option 5a
Section of Document:
Your View  
Agree  No opinion  Disagree
Reason for comment:
If a boundary has already been established there must be a very strong reason to extend it. Not just to increase development otherwise i.e. encroachment onto Green field sites.

Option 5b
Section of Document:
Your View  
Agree  No opinion  Disagree
Reason for comment:
Only if local residents agree.

Option 6a
Section of Document:
Your View

Reason for comment:

This should be a short-term priority, thus we agree with the re-instatement but feel this is an urgent need now.
Reason for comment:
The Government in PPS7 gives the highest status of protection to landscape and scenic beauty within areas designated as AONB’s. Wealden District Council is able to find suitable land that does not fall within the AONB and therefore should not consider allocating significant housing growth in these areas. Major development should not take place in the AONB’s except in exceptional circumstances, following rigorous examination, which amongst other things, should demonstrate that it would be in the public interest to allow development in the AONB’s.

Reason for comment:
The Government seeks to promote housing development in locations that are within easy reach of community facilities and good access to employment. On this basis, new housing development should be balanced with an appropriate level of new business development or in proximity to existing centres.

Reason for comment:
There should be a more distributed strategy in Wealden for the allocation of new housing in towns and villages that would benefit from additional development to support existing services, based on settlement hierarchies. PPS3 aims to deliver high quality housing that contributes to the creation and maintenance of sustainable rural communities. Therefore some villages in proximity to towns may be more suitable locations than on the periphery of towns themselves.
Section of Document:

Option 5a

Reason for comment:
The implication of this question is that whilst settlement boundaries should be maintained, they should generally be expanded to provide for growth throughout the District on a dispersal-based strategy. The most appropriate approach would be the maintenance of settlement boundaries, with any change considered, having regard to the full range of alternative options for providing land for additional housing growth. This should include the land east of Friday Street north east of Penrith Way / Castle Bolton.

Section of Document:

Option 5b

Reason for comment:
The use of defined settlement boundaries is an effective tool for controlling development. Delivery of development can best be achieved by the preservation of settlement boundaries and allocations of specific development through the LDF process.

Section of Document:

Option 6a

Reason for comment:
Focusing 80% of new development in and around towns with the remainder distributed to villages fails to recognise the negative impact of large scale allocations as bolt-ons to existing towns that could have negative impact on character and service provision that exists within the existing towns, particularly given that many have experienced large scale housing growth through the previous Local Plan, and many require a period of adjustment to allow employment provision services to catch up with the significant level of recent growth.
Option 6b

Section of Document:

Your View  □  Agree  □  No opinion  ☑  Disagree

Reason for comment:

Focusing 75% of new development in and around towns with the remainder distributed to villages fails to recognise the negative impact of large scale allocations as bolt-ons to existing towns that could have negative impact on character and service provision that exists within the existing towns, particularly given that many have experienced large scale housing growth through the previous Local Plan, and many require a period of adjustment to allow employment provision services to catch up with the significant level of recent growth.

Option 6c

Section of Document:

Your View  □  Agree  □  No opinion  ☑  Disagree

Reason for comment:

Focusing 70% of new development in and around towns with the remainder distributed to villages fails to recognise the negative impact of large scale allocations as bolt-ons to existing towns that could have negative impact on character and service provision that exists within the existing towns, particularly given that many have experienced large scale housing growth through the previous Local Plan, and many require a period of adjustment to allow employment provision services to catch up with the significant level of recent growth.

Option 7a

Section of Document:

Your View  ☑  Agree  □  No opinion  □  Disagree

Reason for comment:

The majority of new development should be focused on larger settlements that lie outside the AONB and are capable of sustaining new development and incorporating it as part of the village community. Large village locations with a number of retail uses, community facilities, open space / playing fields, schools and levels of local employment help to prevent outward commuting to larger towns.
Option 7b

Reason for comment:
The emerging approach of identifying and classifying villages according to their growth potential, which is criteria based, allows for a detailed and robust assessment of those villages capable of sustaining additional housing development. The LPA should go one step further and look at those villages with growth potential that are located outside the AONB and prioritise those over villages in the AONB for future development.

Option 7c

Reason for comment:
Identifying land in or adjacent to those villages with potential allows for the planned location of new houses which contributes to the achievement of sustainable development in accordance with PPS3. 36 of PP3 requires that housing development is located in suitable locations which offer a range of community facilities with good access to jobs, key services and infrastructure. The LPA should go one step further and look at those villages with growth potential that are located outside the AONB and prioritise those over villages in the AONB for future development.

Option 7d

Reason for comment:
Local village services should, as a rule, be preserved and enhanced wherever possible.

**Part of document:**  
☐ document  ☐ chapter  ☐ section  ☑ option

**Section of Document:**  
Option 8b

**Reason for comment:**  
The focus should emphasise the potential of edge of Eastbourne development to include Stone Cross and in particular land to the north east of Penrith Way / Castle Bolton. This option has good access to a range of higher order facilities and services in support of objectives for creating mixed and sustainable communities. PPS3 requires suitable locations to be found with the range of community facilities and with good access to jobs, key services and infrastructure. The site is outside the AONB and within the Sussex Coast Policy Area.

Consultee ID: Gosden  
106871

**Part of document:**  
☐ document  ☐ chapter  ☐ section  ☑ option

**Section of Document:**  
Option 9a

**Reason for comment:**  
The Core Strategy acknowledges that an Uckfield focus suffers from significant infrastructure problems, including flooding and travel congestion, which is currently blocking all major development. Even if a solution could be found for this, it is likely to lead to a contrived form of development that may be unreliable in deliverability and may be so costly as to fail to provide a full range of services required for successful integration. Additionally, any major new development should be focused on the Sussex Coast Policy Area.

Consultee ID: Gosden  
106871

**Part of document:**  
☐ document  ☐ chapter  ☐ section  ☑ option

**Section of Document:**  
Question 7e

**Reason for comment:**  
The process of identifying villages that have growth potential should go further and prioritise those villages that are located outside of the AONB above those that are within the AONB. By identifying such villages, the Local Authority will be able to take account of other key objectives such as the protection of AONB’s. Development in AONB’s should only be allowed in exceptional circumstances, following the most rigorous examination, which must demonstrate that they are in the public interest before being allowed to proceed (paragraphs 21 and 22 refers). By utilising the existing approach to identify villages with potential growth and then including a further assessment that takes account of the overall location in relation to the AONB, the Local Authority will have a more robust approach to identifying options for sustained growth whilst protecting the landscape.
Hailsham has already experienced significant housing development in recent years, and should be allowed a period of assimilation, prior to consideration of further development. Stress is placed on local services, including highway infrastructure capacity and further development may exacerbate this. The aims of regeneration of the town can be achieved without the requirement for significant additional development. As a result, there should be no Hailsham focus within the emerging LDF Core Strategy.

Significant development between the two towns is likely to encourage out commuting to existing centres rather than encourage development in proximity to existing services and facilities. This may fail to create a vibrant community and on this basis there should be no Polegate / Hailsham access.

Whilst there should be an emphasis on allocating new development within the Lower Weald area of search in order to protect the existing AONB’s the focus should not be on a new settlement but an extension of existing towns or villages. In particular, the emphasis should be on an area focused around the edge of Eastbourne to include Stones Cross.
Option 9b

Reason for comment:
A split of development between Uckfield and Crowborough would be likely to lead to a significant development, either within or affecting the High Weald AONB. PPS7 makes clear that the greatest level of protection is afforded to these statutory protected landscape designations, and significant development should only be allowed in exceptional circumstances. Additionally, any major development should be within the Sussex Coast Policy Area identified in the South East Plan.

Option 9c

Reason for comment:
A Uckfield / Crowborough / Heathfield split would again risk significant levels of development either within or affect the High Weald AONB. PPS7 makes clear that the greatest level of protection is afforded to these statutory protected national landscape designations, and significant development should only be allowed in exceptional circumstances. Alternative land exists outside the AONB within the Sussex Coast Policy Area and development should be focused in the south of the District in those areas.

Question Ten

Reason for comment:
Size thresholds for housing allocations of 30+ dwellings in or on the edge of towns, and 15+ dwellings in or on the edge of villages is tantamount to seeking significant amounts of development to come forward in the form of windfall sites. Such an approach directly conflicts with PPS3, which states that allowances for windfalls should not be included in the first 10 years of land supply unless LPA’s can provide robust evidence of genuine local circumstances that prevent specific sites being identified. No such circumstances exist in this instance, as land can be identified, particularly in the Low Weald character area which is also within the South Coast Policy Area.

Question 11f  

Section of Document:  

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree  

Reason for comment:  
Crowborough should not be identified as a location for significant residential development. It is tightly constrained by the High Weald AONB. Significant development is likely to be required to be located in or on the edge of the AONB, resulting in harm to this nationally protected landscape. Such development is contrary to the aims of Central Government as set out in PPS7, which should only be permitted in exceptional circumstances. Alternative locations for development are available in the Low Weald, which would not be harmful to the AONB and which is within the South Coast Policy Area as identified in the draft South East Plan.

**Question 18k**

**Section of Document:**

**Reason for comment:**

In order for Wealden to provide a new settlement within the immediate future there would need to be significant work done to not only identify an appropriate site but then identifying all the key issues in providing a strategic new settlement in a countryside location. Significant issues would need to be addressed such as transport provision, education, health care, together with issues such as creating a sustainable community that has a heart and focus with good connections to large towns in the area. All these issues will need to be addressed before a new settlement will meet the existing needs within the District. We consider that the new settlement approach would not bring forward a sufficient number of houses in the short term. Therefore, the approach may lead to a further settlement within the District that has high levels of out commuting for employment etc. PPS3 requires housing development to be in suitable locations which offer a good range of community facilities and with good access to jobs, key services and infrastructure. Paragraph 13 of PPS3 seeks to achieve this by making effective use of land and existing infrastructure. In general, urban extensions should be considered more sustainable with the potential to expand existing services and allow for better transport connectivity to existing employment, education and health care provision.
Reason for comment:
Guidance for the density of new residential developments is detailed in PPS3 Paragraph 47 which looks at a broad density range and a net of 30 dwellings per hectare should be used as a national indicative minimum. Good design is fundamental to using land efficiently and providing the policies within the LDF facilitate good design there is no justification why a typical density figure of 30 to 35 dwellings should be set. Some sites may in themselves be capable of delivering high densities and should not be unduly restricted by a policy that is already covered in National Guidance.

Reason for comment:
Would set a precedent for developing up to & beyond AONB. Sandy Cross Lane too narrow to support traffic. Bottom of lane has drainage issues.

Reason for comment:
Only in cases where it will not affect the general built and rural environment. For example small areas of land between existing dwellings similar to 'infill' development in gardens. This should only be in densities of less than 5 per acre. If this were utilised throughout the region it would reduce the number of larger developments and avoid the concentrated increase of traffic that all larger developments inevitably incur.
Consultee ID: Stanbridge
106873

Part of document: □ document □ chapter □ section ✓ option

Option 7a

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:

Although a village may have 'growth potential' to increase the housing stock could affect the character of the village. The possibility for using 'infil' sites, providing they are in keeping with the local built environment, may allow some increase in housing stock, however 'development sites' do affect the villages. Apart from appearance the concentration of additional traffic always has a detrimental effect for the residents.

Consultee ID: Stanbridge
106873

Part of document: □ document □ chapter □ section ✓ option

Option 18g

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:

This is a large proposed development in a rural area. Although temporary transport may be included what happens when the compulsory service period ends? It may be acceptable as a brown field site but there is no employment in the area therefore the traffic will increase considerably. People will use their cars for work, shopping, schools, and other facilities. 600 dwellings could mean 1200 new cars each making an average of 2 journeys a day i.e. 2400 car movements over approx. 12 hours. or 3-4 car movements per minute. This will definitely affect the immediate area and the surrounding villages.
In principle it would make sense to have smaller and affordable housing mainly within towns. Towns should have more facilities available 'by foot' from the dwellings. Older people and people on lower incomes may not be able to afford a car therefore to have the housing in villages where in most cases transport is non existant or impractable defeats the idea of helping those individuals. As has been highlighted the fact that private companies are building most of the new houses is a problem in itself. Builders do not want to build cheap housing as there is less profit. As they cannot be forced to build affordable homes it seems clear that there needs to be more public funding for housing associations. As it stands at present the whole concept for the Governments future plans will not achieve the publicised aims. To build 8,000 new houses in Wealden using private companies will only bring new people into the area not solve the local needs. Most of the new houses will be larger properties certainly not of help to young old or those in public services. If the builders are not allowed to build what they want then they will not build at all. Councils and Governments to date have not managed to stand up to major developers. When they (Gov/Councils) openly declair that more housing is desperately needed they weaken their own position in any negotiations.

The bus services to Tunbridge Wells and rail stations is exceptionally poor throughout the region. The problem is viability, people will not use buses as they are not convenient. Bus companies will not provide buses because they are not profitable. Is there not a strong need to have bookable buses. This may exist around the region but it does not have sufficient publicity or backing to make it truly viable. It should be possible to arrange commuting and shopping services in small units so villages are covered to all the main towns.

Part of document: ☑ option

Section of Document: Infrastructure Requirements

Your View ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
Cannot comment on many points as insufficient information, however I do agree with better schemes for park and ride plus special shopping bus services and rush hour services for commuters to save them having to use their cars for work. Maybe a bus filter service to the park and ride centre so the whole community can be served without using their cars at all.

Consultee ID: Stammers  
106874  

Part of document: ☑ option

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Your View ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
It is important not to condemn areas of the county to utter stagnation. By not allowing any development this can only compound the difficulties faced by the younger generation when trying to afford property in the area and increase sustainability problems for employers trying to maintain employment within those areas. Communities wholly given over to the few who are able to afford the property available (increasingly commuters) become dormitories with little investment returning to local firms. It also means a non-equitable distribution of development: if all settlements evolved in proportion to their current size then this would minimise impact upon services etc whilst providing housing at the community level where it is needed. Why do we need huge developments which bring with them numerous follow-on problems regarding transport/services etc when smaller development would reduce these problems and blend (IF DEVELOPERS ARE INSTRUCTED TO BUILD APPROPRIATELY TO THE AREA) into the environment.

Consultee ID: Stammers  
106874  

Part of document: ☑ option

Section of Document: Option 3d

Your View ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
Absolutely fundamental. It's a disgrace that large-scale development has been allowed without the appropriate employment and other services to maintain it as a community.
Apart from developer’s reduced profits there is absolutely no reason why new development should not be built with minimum levels of solar/wind power production (as appropriate to site) water reuse (hand-washing and rainwater collection to store for toilet-flushing for instance) insulation, natural air conditioning (Victorian sash windows are still extremely effective at maintaining cooler inside temperatures so why not make more use of this?) and underground heat-capture installations. It would be utterly foolhardy not to build new houses appropriate to future climate change when already, water supply problems and increasingly warm summers are a problem in this area.

It would be a refreshing change if developments were built which pushed forwards the highest standards rather than leaning insolently on the fence of mediocrity.

With the proviso that this is a self-fulfilling prophecy. If you cannot afford to live in an area then, realistically, considering the type of local employment and wages derived from it, you are unlikely to work there. Therefore, enough affordable housing needs to be built to allow people to be able to work in the local area, but enough land kept aside for employment to allow expansion. Looking long-term, working close to home has to be encouraged in order to reduce the over-reliance on commuting and especially car commuting, since the road and rail networks through Wealden are at capacity now.

<td>I believe the whole strategy of LARGE scale development is wrong for this area. If each village and town took a proportionate number of dwellings to its current size, then sustainable, community-based growth would be achieved, rather than yet more soulless commuter ghettos.</td>
</tr>
</tbody>
</table>
I believe each settlement should take a proportion of the housing needs, according to its current size. This would allow each settlement to grow organically and allow housing to appear in each type of area, allowing young rural workers to remain within the rural environment. However, I believe it is vital that the homes built are aesthetically suitable to the individual area (not developers’ architects’ idea of twee mish-mash of neo-styles but a true, modern reflection to continue the organic way in which Wealden villages and towns have grown historically); are environmentally sound; are dedicated to the underrepresented sections of young families and couples who are otherwise forced from their villages on price grounds.

In principle, but I would like to see a system of grants put in place to encourage local amenities to open up in some of the other villages, rather than rely on those which have survived. This would be a proactive means of reinvigorating local environments and allow more villages to be categorised as appropriate for future development/investment.

With some limitations that this should not become a rigid protocol.

Section of Document: Site Allocation Thresholds

Reason for comment:
I believe this is far too prescriptive and will be difficult to enforce due to the dramatically varied nature of the towns and villages within Wealden.

Consultee ID: Stammers  Agent ID: 106874

Part of document: Option 15g

Section of Document:

Reason for comment:
Some of the options for regeneration sound appealing but still the size of each development appears to be out of context with the existing structure.

Consultee ID: Stammers  Agent ID: 106874

Part of document: Option 16i

Section of Document:

Reason for comment:
Polegate has an excellent choice of shopping, unfortunately this has reduced somewhat with the loss of the fishmonger (people went to the supermarkets for fish) and butcher (ditto). Please do not curse us with another supermarket (Co-op is fine, Tesco and Somerfield provide out-of-hours service) which will have the effect of destroying the very individual, community-based and customer-oriented nature of Polegate's shopping area, The Cuckoo trail is a wonderful resource already available and Abbott's Wood is accessible less than a mile from Town, with the Downs to the South side, also easily accessed via the network of footpaths. Agree Bus services are very poor. Again, developments suggested are so out-of-scale to what is already there that they are destined to put unacceptable strain on already creaking infrastructure.
Option 18i

Reason for comment:
Please do not just count the "agree"s since the comments underneath imply the users might not have clicked the correct circle... Disagree due to inappropriate size of development: Transport (both road and public provision), water, sewerage (including run-off which would be massively increased in an area already prone to flooding), social amenities, social and health care provision, schooling all totally inadequate for such an expansion; views from/to proposed National Park/current AOONB would be devastated, impacting on the benefits from tourist economy; beginning of end in terms of infill; destruction of swathes of important and newly invigorated local farming land; train station unlikely to be utilised by train companies as most small stations have had their services clashed in order to cut the journey times to London; park and ride would encourage yet more traffic onto this already cramped and dangerous stretch of A27; etc etc etc

Option 25a

Reason for comment:
Agree absolutely with the terraced housing - current developments make a mockery of the idea of "detached" so why not improve buildings' environmental impact by reducing the number of walls venting heat to the outside, reducing the amount of land footprint neede per building and therefore reducing the amount of land which needs to be concreted over. Much of the housing stock in the Wealden villages is terraced and therefore, new terracing is more likely to reflect the aesthetics than tiny detached boxes.

Your View  Agree  No opinion  Disagree

Reason for comment:

Judging by how many "travellers" try/do settle in unauthorised areas in the south, I would like to know how the 'need' was established. This is a very emotive subject in the areas that have been affected by unauthorised stays. Very easy to say someone else should host the sites.

Sooner rather than later

Consultee ID: Stammers
106874

Part of document: ☑ option
Option 27c

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:
Strongly disagree - this would just drag cars in from the surrounding areas, continuing to overburden the A22/27/2270

Consultee ID: Stammers
106874

Part of document: ☑ option
Option 27d

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:
The A27 should be dualled at the earliest possible opportunity BUT be landscaped such as to reduce the visual impact. The beautiful sinuous curves of the Shoreham by-pass are an example of where this has been done quite well but improved quality of life for residents and drivers alike. The A27 is so dangerous (I write, looking over one of the more dangerous junctions and have seen 3 near-misses (a quiet day!) whilst completing this) that this must be a priority. The old plan to follow the railway line should be dusted off and pushed through FINALLY and all talk of Cphall to Folkington abandoned as the mean, ridiculous, developer-inspired plan that it is.

Question 17d

Section of Document:

Reason for comment:
Contradictions within the document, about the distance between Stone Cross and Westham Station invalidate the principles on which this plan is supposed to be based. Para 5.16 refers to a distance of 1.2 miles but matrix A indicates no rail within 5 Km - even when you do this sums this doesn't match!
There is no good access to Westham Station because setting down is dangerous and parking is impossible. Westham village is already overparked with rail commuters and school journeys. There is no parking by the one village convenience store. Public (bus) transport to other possible centre is under threat now and looks like being withdrawn. Then there is the foul water drainage which is known to be not enough now! It certainly won't stand being used to piggy-back more houses and the associated foul water. What happens to present residents of Westham village when there are floods (?) - take a look at the Environment Agency flood maps for the area. Drown, or just drown in sewage??

Your information on Westham village is wrong again. There is no Library. It might help with planning if you could distinguish the difference between Westham Village and Westham Civil Parish, but even in the whole Parish there is no Library.

Yes, but only small, affordable and shared ownership housing for key local workers.
Consultee ID: Mrs McDonnell  
106879 Civil Servant

Option 2b

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:

Wealden should be encouraging innovation and uptake of new technology to reduce carbon emissions - only by insisting on challenging targets for developers will economies of scale make such technology more affordable. You only have to look at inspirational and innovative projects like the BedZED development in Surrey to see what is possible.

Consultee ID: Mrs McDonnell  
106879 Civil Servant

Option 3d

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:

We also need to create a range of job opportunities - not merely replace poorly paid agricultural jobs with poorly paid service sector jobs.

Consultee ID: Mrs McDonnell  
106879 Civil Servant

Option 5b

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:

Small developments of affordable/shared ownership housing for local people, the elderly and key workers seems sensible.
Consultee ID: Mrs McDonnell
106879 Civil Servant

Part of document: 
Option 21c

Section of Document:

Reason for comment:
Increasing station car parking in Buxted is not the answer - it will only seek to encourage rat-running through the lanes. The problem needs to be addressed at source ie the lack of parking in Uckfield.

Consultee ID: Mrs McDonnell
106879 Civil Servant

Part of document: 
Option 25a

Section of Document:

Reason for comment:
Development should be driven by needs of the community and the need to live sustainably, not the need for the developer to make a handsome profit. And it isn't just the young who need suitable starter homes - the elderly need manageable, quality housing eg small bungalows - this would free up houses for families.

Consultee ID: Mrs McDonnell

106879 Civil Servant

Part of document: 
Question 31a

Section of Document:

Reason for comment:
Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:
The AONB is an important designation which must be protected, however small developments of affordable housing must be allowed to maintain the sustainability of the village. In a popular village like Hartfield we would not want to see a potentially unlimited unmet demand for affordable housing being satisfied by allocating land for new development, so any target numbers should be set appropriately, using brownfield sites in preference to greenfield sites. We do not support the erosion of the AONB by allocation of greenfield sites for development of commercial housing.

Part of document: Question Ten

Section of Document: Site Allocation Thresholds

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree
Reason for comment:

Hartfield Parish Council Response: We would not want to see any single site of this large a scale in Hartfield. Several small sites, e.g. infill sites or previously developed land, should be considered in preference to a single greenfield site.
Hartfield Parish Council Response: Agree with definition of Hartfield as a village with Limited Growth Potential and the implication that this would potentially include allocation of land for 20 houses in the period covered by the LDF. We would anticipate the majority of this housing growth being met by the affordable housing sites already identified at Old Crown Farm and the former coalyard at Hartfield Station. A site for the permanent surgery has already been identified in the Local Plan at Old Crown Farm. The priority for any additional allocation of land for development should be affordable housing. Any further allocation of land for commercial housing should be limited to small developments on infill sites, with the current development boundary of Hartfield village kept intact. We now have data from our Parish Plan questionnaire that indicates that Hartfield residents support this approach.

Hartfield Parish Council Response: Any development in the villages surrounding the Ashdown Forest must be carefully constrained to avoid any impact on the special character of the Forest.
Option 25b

Section of Document:

Reason for comment:

Hartfield Parish Council Response: Agree, for developments involving several houses (rather than a single unit).

Option 25c

Section of Document:

Reason for comment:

Option 25e

Section of Document:

Reason for comment:
Hartfield Parish Council Response: Agree. Wealden’s policies must balance the need to protect the AONB with the need for provision of appropriately designed, sustainable, affordable housing. As far as possible, land already developed - brownfield sites - should be chosen in preference to green field sites. In villages, several small development sites should be identified in preference to any one large development of social housing. In attractive villages Wealden should not expect to satisfy a potentially unlimited demand for affordable housing, setting any targets for housing provision at a realistic level.
Hartfield Parish Council Response: We feel that a specific objective should be included relating to addressing the need for affordable housing in villages – SO5’s desire to meet the minimum target for affordable housing isn’t enough. Appropriate targets should be set for each village with growth potential, to satisfy some of the unmet demand, while not seeking to meet the potentially unlimited demand in our most attractive villages. A broader “sustainability” objective should be developed which states a desire to ensure that our villages remain sustainable, with a balanced population, able to live and work locally, making appropriate provision for affordable housing both for families with children and those living alone, and with easy access to (protected and enhanced) local facilities. We would also like to have seen more in the LDF Issues and Options about using planning as part of managing the impact of increasing traffic levels, where possible avoiding the creation of new journeys (e.g. by providing opportunities for working closer to (or at) home, supporting the use of public transport and cycling to avoid car journeys etc.)

**Part of document:**
- Option 18e

**Section of Document:**
- Option 18f

**Reason for comment:**
- Agree
Circumstances alter cases; any site, irrespective of location, whether in town or village that could allow development of, say, 6 homes, should be considered according to its merits and demerits, which must include impact on smaller communities.

1. General 1.1. If the whole of Downlands Farm were to be used for future development, the size would be disproportionate to the needs of Uckfield. In contrast to most other sites currently under consideration it lies a greater distance from central Uckfield; there is sufficient land to satisfy immediate needs in closer proximity to Uckfield town centre. It would not form an integral part of Uckfield and would be unlikely to have direct communications with the town. 1.2. It would give Uckfield an irregular and unbalanced structure, generate urban sprawl, and substantially erode the strategic gap between Uckfield and Maresfield. 1.3. Residential development in Uckfield has already largely concentrated on the northern side of the town, with the large developments of Manor Park, Rocks Park and West Park. Development of Downlands Farm would further imbalance the town structure. 2. Landscape 2.1. The landscape value of Downlands Farm is higher than other land under consideration. Development of Downlands Farm would inflict permanent landscape damage upon classic unspoilt Wealden landscape and breach the natural basin in which Uckfield lies, which imparts visual protection to Maresfield and the High Weald AONB. Development would destroy this. 3. Ecology 3.1. The development of the Downlands Farm site is unsustainable. Overall, development of this site would carry greater environmental impact than the other sites under consideration for future development. 3.2. Development of Downlands Farm would inflict irreparable ecological damage on the environment, which has important examples of ancient woodland, and a diverse flora and fauna. It also includes wetland habitats that will be lost or damaged and there would be serious degeneration of biodiversity. 4. Transport 4.1. Development of Downlands Farm would generate substantial traffic. If accessed from local roads the development would overburden the local road network, particularly Snatts Road, which is wholly unsuitable for any increased volume of traffic, especially the dangerous southern section and junction with Rocks Road and very narrow access to the Town centre at Church Street, which is already heavily congested at peak times. 4.2. The alternative of a link road to the bypass has serious objections. · First on highway grounds, due to the existing congestion on the bypass at peak traffic flows. · Secondly the distance of the development from the town centre would deter pedestrian access and encourage car dependency; the lengthier road route for residents accessing local amenities and the town centre that would be envisaged by a link road would create additional environmental impact. · Thirdly it would carry a heavier impact on town centre traffic by this implied over-dependence on private transport.
Consultee ID: Mr Hossack  
Agent ID: 106883  
Part of document: Option 14b  
Section of Document:  
Your View: Disagree  
Reason for comment: 
This location represents a green space between Uckfield and Coopers Green. It is a significant distance from Uckfield Town Centre and although served by public transport, would encourage car dependency if developed. Its development would give Uckfield an even more irregular and unbalanced structure and create urban sprawl.

Consultee ID: Mr Hossack  
Agent ID: 106883  
Part of document: Option 14c  
Section of Document:  
Your View: Disagree  
Reason for comment: 
Whilst this may appear as a natural location for Uckfield to develop, having more limited environmental impacts and being nearer the town centre than other sites, the road access at Framfield Road is totally inadequate. Until better highway access and an improved second river crossing can be arranged, the area should not be developed.

Consultee ID: Mr Hossack  
Agent ID: 106883  
Part of document: Option 21a  
Section of Document:  
Your View: Agree  
Reason for comment: 
Although in general agreement, as the area would appear to be appropriate for development, the dimension visualized is too large. Also, unless adequate additional local services are provided (local retail outlets etc), the impact of the development of this area and Five Ash Down on Uckfield would be excessive, when considered in conjunction with the developments proposed for Uckfield itself.
Travellers' sites should be located where there is a local demand from travelling families and allow them to become part of the settled community if they so wish. It essential that they are in locations that allow inclusion of the families into the local community, for schooling and access to amenities. By implication this must mean nearer established centres of population.

This would support the sustainable approach to transport in this area and offer a viable alternative to accessing the south coast from Uckfield and the north. It is essential that the impact on existing communities is mitigated as far as possible.

"Some development" is too loose a term. In general there should be a presumption against development in AONBs, but there may be cases where regeneration of existing buildings or even small scale new building to strict environmental and sustainable standards may be appropriate. (See Julian Salmon's response)

Part of document: □ document  □ chapter  □ section  ✔ option  
Option 19a

Section of Document:

Your View  ☐ Agree  ☐ No opinion  ✔ Disagree  
Reason for comment:  
It's doubtful whether Forest Row's infrastructure or services would cope with this level of increase. I believe the Health Centre and local school among others have voiced these concerns. Also building in the proposed areas would lead to 1) ribbon development towards East Grinstead which would destroy the unique character of the village, and 2) increased risk from flooding in the proposed areas west of the village, as demonstrated after the recent heavy rain.
Mr Brett

Option 24b

Reason for comment:

Strongly opposed. This new settlement would conflict with the AONB and the proposed National Park. Furthermore, this would be contrary to the proposal by the Inspector to extend the National Park Boundary to include all Wilmington Green. Common Land is protected. Landscape at the foot of the downs would be gravely damaged. South East Regional Plan does not promote new towns or settlements.

Reason for comment:

Consultee ID: Mr Samways
106892

Part of document: ☑ option
Option 21b

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:

With the recently approved development of up to 140 houses on the former Grampian site, Five Ash Down does not have the infrastructure in place for further development. The busy junction at the north of the village with the A26 is an accident black-spot & will only be made worse. The water & sewage treatment for the village is totally insufficient - especially as the village suffered from sewage issues several years ago resulting from the Grapian site. The addition of a further 140 homes on this site will equal the waste production of the old site, resulting in further issues again.
Option 2b

Reason for comment:
Importance of delivering sustainable economic growth, with a need to meet the 2010 target of 10% renewable energy. Therefore, it would be helpful if the Local Authority were to pursue a higher renewable energy target.

Option 3a

Reason for comment:
SEEDA would generally support the proposals to consider developing sites allocated for employment purposes for mixed use developments, we recommend that the concept of 'no realistic prospect' is approached with caution. Concerned if land at the Polegate Business Park were lost to other uses. Useful to base all decisions on the findings of an up to date Employment Land Review.

Option 3b

Reason for comment:
Importance of retaining employment premises where there is evidence of market need, specifically in rural areas, as Regional Economic Strategy identifies that in rural areas the reuse of redundant buildings supports the growth of rural businesses.
Consultee ID: Mr Mawer  
106893  
SEEDA  

Part of document: option 3c  

Section of Document:  

Your View  
☐ Agree  ☐ No opinion  ☑ Disagree  

Reason for comment:  
The needs of businesses are continuously evolving and therefore the policy needs to give greater flexibility towards a variety of employment uses.

Consultee ID: Mr Mawer  
106893  
SEEDA  

Part of document: option 3d  

Section of Document:  

Your View  
☐ Agree  ☑ No opinion  ☐ Disagree  

Reason for comment:  
Advise that you view district based forecasts with caution, but most up to date Experian econometric forecasts may offer a more up to date forecast for the Wealden economy than the ones you refer to. We consider the Borough is not a self contained labour market, and therefore we would be concerned if forecast labour supply should be used as a policy of constraint on the economic development of the North of the District.

Consultee ID: Mr Mawer  
106893  
SEEDA  

Part of document: option 4a  

Section of Document:  

Your View  
☑ Agree  ☐ No opinion  ☐ Disagree  

Reason for comment:  
Support option to allocate the site for new employment and business development, most suitable site in Eastbourne and Hailsham triangle to raise the economic performance of this part of the district.
Option 4b

Section of Document:

Reason for comment:
Support option to allocate the site for new employment and business development, most suitable site in Eastbourne and Hailsham triangle to raise the economic performance of this part of the district.

Option 4c

Section of Document:

Reason for comment:
Support option to allocate the site for new employment and business development, most suitable site in Eastbourne and Hailsham triangle to raise the economic performance of this part of the district.

Option 4d

Section of Document:

Reason for comment:
Support option to allocate the site for new employment and business development, most suitable site in Eastbourne and Hailsham triangle to raise the economic performance of this part of the district.

Option 25c

Section of Document:

Reason for comment:
Supportive of proposals for a 'one to one' approach to affordable housing in rural areas so long as an up to date Housing Needs Survey and Housing Market Assessment have identified the need. It is important that the policy does not make future rural developments unviable.

<td>An amendment to PPS1 dealing with the impact of climate change is expected shortly, in all likelihood prior to the formulation of Preferred Options. The Core Strategy should look towards this new guidance.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Option 2b

Reason for comment:
An amendment to PPS1 dealing with the impact of climate change is expected shortly, in all likelihood prior to the formulation of Preferred Options. The Core Strategy should look towards this new guidance.

Option 3a

Reason for comment:
PPS3 (para 44) indicates it is appropriate to consider whether sites that are currently allocated for industrial or commercial use could more appropriately be reallocated for housing development (see also: Employment Land Reviews: Guidance Note ODPM – 2004). However, as a matter of principle, land identified for employment use should be retained where there is an identified need, particularly where this would provide for balanced and sustainable communities.

Option 3b

Reason for comment:
Given the likely additional housing growth within Wealden through revised RSS targets, existing employment premises should be protected from alternative forms of redevelopment, except in exceptional circumstances. This will help ensure an appropriate level of supply and provision to balance housing growth. Assessments of “market need” should take planned levels of growth within the emerging LDF into account.
Reason for comment:
Housing development should be balanced with an appropriate level of new business development in accessible locations to encourage sustainable travel and encourage delivery of employment sites. PPS3 promotes housing development in locations which offer good access to jobs (para.10).

Reason for comment:
The respondent favours a Polegate/Willingdon/edge of Eastbourne focus for new development, and in this context, new employment sites on the periphery of Polegate would compliment housing on other sites very well.

Reason for comment:
The respondent favours a Polegate/Willingdon/edge of Eastbourne focus for new development, and in this context, new employment sites on the periphery of Polegate would compliment housing on other sites very well.
### Option 4c

**Reason for comment:**
The respondent favours a Polegate/Willingdon/edge of Eastbourne focus for new development, and in this context, new employment sites on the periphery of Polegate would compliment housing on other sites very well.

### Option 4d

**Reason for comment:**
The respondent favours a Polegate/Willingdon/edge of Eastbourne focus for new development, and in this context, new employment sites around the A22 at Hailsham would tend to promote unsustainable traffic patterns, in the absence of major improvements to public transport infrastructure along the A22 corridor.

### Option 5a

**Reason for comment:**
In addition, the Core Strategy should identify settlements where boundaries are to be reviewed for proposed urban extensions.
Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID:  Mr  Carr
106894

102500  c/o Strutt and Parker

Part of document:  □ document  □ chapter  □ section  ✔ option
Option 5b

Section of Document:

Your View  □ Agree  □ No opinion  ✔ Disagree

Reason for comment:
Properly controlled development can be best achieved by maintaining the concept of settlement boundaries, with the allocation of specific sites through the LDF process. The abolition of this approach in favour of a criteria-based policy would undermine the consistency of decision-making. It would also make it difficult to plan for appropriate levels of growth.

</table>

**Part of document:** □ document    □ chapter    □ section    ☑ option

**Option 7a**

**Section of Document:**

**Your View**  ☑ Agree    □ No opinion    □ Disagree

**Reason for comment:**

The emerging approach is considered a sound basis for classifying settlements. PPS3 requires Local Development Documents to identify a strategy for the planned location of new housing to contribute to the aims of sustainable development, including providing housing in rural areas, not only in market towns and local service centres, but also in villages, in order to enhance their sustainability.
Section of Document:

Reason for comment:
The approach contemplated is broadly sensible, however it may be difficult to define/maintain size limits given the variability of rates of infilling.

Reason for comment:
This approach is too simplistic and difficult to reconcile with the Core Strategy element of spatial planning, which sees options emerge from issues rather than arbitrarily imposed.

Reason for comment:
Polegate/Willingdon and the edge of Eastbourne provides a focus for development where linkages can be forged between employment and housing growth in a sustainable way, alongside new transport infrastructure. The area is well-located and connected to Eastbourne for accessing jobs higher order services. There should be a Polegate/Willingdon/edge of Eastbourne focus in the Core Strategy.
Option 9a

Reason for comment:
The Core Strategy should focus on the Sussex Coast Policy Area as required in the emerging RSS. There should be no Uckfield focus for major new development.

Consultee ID: 106894  Mr Carr
Agent ID: 102500  Mr Carr
c/o Strutt and Parker

Part of document:  □ document  □ chapter  □ section  ✔ option

Option 7d

Reason for comment:
Local village services should, as a general rule, be protected in the planning system.

Consultee ID: 106894  Mr Carr
Agent ID: 102500  Mr Carr
c/o Strutt and Parker

Part of document:  □ document  □ chapter  □ section  ✔ option

Option 8a

Reason for comment:
Hailsham has already experienced significant housing development in recent years, and should be allowed a period of assimilation. Local services are presently stretched, including highway capacity. The aims of regeneration of the town can be achieved without the requirement for significant additional development. There should be no Hailsham focus within the emerging LDF Core Strategy.
Comment - Hailsham has already experienced significant housing department in recent years and should be allowed a period of assimilation. Local services are also presently stretched, including highway capacity. There is presently a clear visual break between Hailsham and Polegate which should not be undermined by additional housing development, particularly given the availability of alternative, less visually sensitive sites. Significant development in the north of Polegate is unlikely to result in more sustainable travel patterns with these towns and Eastbourne and will only serve to encourage further commuting distances to the main urban area of Eastbourne. There should be no Polegate/Hailsham axis within the emerging LDF Core Strategy.

Comment - A new settlement proposal will involve considerable lead-in times and will not provide deliverable housing opportunities in the short or medium term. As such, the prospect should be considered in relation to future rather than current needs.
The Core Strategy should focus on the Sussex Coast Policy Area as required in the emerging RSS. There should be no Uckfield/Crowborough focus for major new development.  

Reason for comment:
Setting size thresholds of this kind for housing allocations is akin to a formal “windfall” allowance. This conflicts with PPS3, which states that allowances for windfalls should not be included in the first 10 years of land supply unless LPAs can provide robust evidence of genuine local circumstances that prevent specific sites being identified. No such circumstances exist in this instance, as land can be identified, particularly in the Low Weald, to meet the requisite development requirements of the strategy.
Comment - Crowborough is tightly constrained by the High Weald AONB. Significant development is likely to be required to be located in or on the edge of the AONB, resulting in harm to this nationally-protected landscape. Such development would be contrary to PPS7, and should only be permitted in exceptional circumstances. Alternative locations for development are available within the Low Weald, which would not be harmful to the AONB.

Comment - Significant development in or around Heathfield is likely to be located either within or impacting on the AONB. This is contrary to Government guidance that states that significant development in such locations should only be granted in exceptional circumstances, as alternative land is available to meet the requisite development needs of the District within the Low Weald.

Comment - A small section of the District to the south-east of Tunbridge Wells is countryside outside the High Weald AONB. It is however closely bordered by this national landscape designation. Significant development in this location is likely to impact on the AONB, contrary to the aims of PPS7, which affords such areas the highest protection. There are other locations for development, particularly within the Low Weald part of the District, which would meet the requisite development needs of the District without compromising the aims of the AONB.
### Reason for comment:

- **Comment - Uckfield** is subject to limitations due to traffic congestion and flooding, which may well be prohibitively expensive to resolve. This may well prevent adequate delivery of housing development. As such, there should be no significant development identified within Uckfield beyond current commitments.

- **Scale of proposal required** to make a viable settlement in this area will upset the existing urban hierarchy and lead to the undermining of Polegate.

- **Comment - Hailsham** has already experienced significant housing development in recent years, and should be allowed a period of assimilation. Local services are presently stretched, including highway capacity. The aims of regeneration of the town can be achieved without the requirement for significant additional development.
Option 16a

Reason for comment:
Comment - No further residential development should be committed here beyond the allocation already established in the non-statutory Local Plan. May be suitable for commercial use.

Option 16b

Reason for comment:
Scale of proposal required to make a viable settlement in this area will upset the existing urban hierarchy and lead to the undermining of Polegate.

Option 16d

Reason for comment:
Comment - Suitability for commercial use should be explored.

Option 16e

Reason for comment:
Comment - No further residential development should be committed here beyond the allocation already established in the non-statutory Local Plan. May be suitable for commercial use.
Option 16f

Reason for comment:
The respondent controls a significant proportion of this area of land and supports the concept of a comprehensive approach to the development of this area, which could take place without harm to the wider landscape. The general location provides great potential for development of widely accessible services, as well as an excellent relationship to existing transport corridors. The respondent is prepared to participate in a comprehensive masterplan to deliver this opportunity through the LDF process.

Option 16g

Reason for comment:
Comment - The role of Polegate town centre should be reinforced. However, redevelopment of the station area should be for mixed use rather than purely residential.

Question 16i

Reason for comment:
The identified objectives are supported.
Comment - Stone Cross has experienced very significant growth and change over recent decades, and a further period of assimilation is required before significant additional development is considered.

Reason for comment:

Comment - A new settlement proposal will involve considerable lead-in times and will not provide deliverable housing opportunities in the short or medium term. As such, the prospect should be considered in relation to future rather than current needs.

Reason for comment:

The proportion of affordable housing proposed correctly reflects the strengths of the housing markets in these locations and hence the likely deliverability of the affordable element, subject to the findings of the Housing Need Study.
Option 24a

Reason for comment:
Development at densities in excess of 35 dph may well be acceptable in large housing schemes.

Option 24b

Reason for comment:
The best use must be made of available housing opportunities, even where adjacent development is at a significantly lower density.

Option 24c

Reason for comment:
Densities at this level are unlikely to be achievable within Wealden other than in town centres.

Option 25a

Reason for comment:
The LDF evidence base (including the SHMA and Housing Need Study) must provide the basis for identifying the type of housing required.
Reason for comment:
The desirability of maintaining and improving bus services is clearly important but should not in itself be a key determinant of the location of development.

Reason for comment:
The allocation of development at certain sections along the proposed route to help fund missing links, should not in its own right be a reason for development in these locations. The most appropriate location for development must be based on a wide range of issues, and inappropriate weighting to the benefit of a new railway link could result in the identification of land for development that would otherwise be considered inappropriate.

Reason for comment:
The potential for future dualling should be maintained to prevent premature overcapacity developing, and to allow the effects of efforts to bring about modal shifts to be assessed before proving additional capacity.
Section of Document:

Option 27e

Reason for comment:
The existence of Local Authority boundaries should be no obstacle to the movement of people by sustainable means to the main regional centres used by Wealden residents.

Section of Document:

Option 28a

Reason for comment:
Comment - The option is supported in principle but significant improvements to existing parks may be a better option where these are well located for existing and proposed development.

Section of Document:

Option 28c

Reason for comment:
Existing public and private sports facilities in the main areas identified for new housing growth should be protected.

Reason for comment:

Consultee ID: Mr Chivers

Part of document: Option 14a

Section of Document: 

Your View: Agree

Reason for comment:

It does not appear that the infrastructure is present to support expansion of the village by such a large amount. The answer to the housing problem is not necessarily to be found in purely building more housing. Better use/management of existing resources can go a long way to improving this situation.

Consultee ID: mr durdant-hollamby

Part of document: Option 19a

Section of Document: 

Your View: Agree

Reason for comment:

This area provides a valuable buffer on the edge of Uckfield and should not be brought into urban development. The watershed has no further capacity for run-off.
Consultee ID: Mr Chivers
Consultee ID: Miss Heron
Consultee ID: Mrs Sullivan

Option 14b

Section of Document:
Option 14b

Reason for comment:
Uckfield should be a country town surrounded by countryside. This proposal would create a conurbation with Maresfield which would ruin the character of the latter as well as damaging the situation of the former. The hydrological issues also need to be addressed - this watershed has no capacity for further run off.

Reason for comment:
Your View: Disagree
The proposed settlement for Berwick/Selmeston does not make sense for a number of reasons: 1. The area simply cannot support this level of development without significant, devastating changes to the infrastructure of two rural villages. 2. There are insufficient natural resources (such as water) to support a development of this size. 3. The road network would not support this level of activity. 4. It would devastate both Berwick and Semeston villages. Residents chose to live in the country - not a town. There are plenty of towns around the south downs that already have the infrastructure in place to support additional housing.

Inadequate infrastructure, edge of AONB, poor access and greenfield site.

This must be sympathetically handled but a settlement type approach in an AONB is better than constant backfilling and further overcrowding of areas of Crowborough that are already closely packed together.

Part of document: [ ] document [ ] chapter [ ] section [ ] option
Option 11d

Section of Document:

Your View [ ] Agree [ ] No opinion [ ] Disagree
Reason for comment:
Only if this is done in a way that a) regenerates this already overcrowded area of town (with so much space and large homes in the rest of Crowborough I am concerned that Alderbrook will be the poor relation if the development does not come with at least a school, potentially secondary provision, better bus services and retail outlets alongside other community facilities and b) that consideration is given to the traffic impact on this area and the town as a whole.

- ✓ option  
  
**Option 24a**

**Section of Document:**

**Your View**  
- ✓ Agree  
- □ No opinion  
- □ Disagree  

**Reason for comment:**

Building sympathetic on greenfield sites better than overcrowding homes - especially as areas for development in Crowborough are already tight for space. Crowborough is a town of homes with good size homes and gardens. To cram in homes goes against style and culture of town

---

Consultee ID: Ms Kerwin-Nye  Agent ID: 106906

**Part of document:**

- □ section  
- ✓ option  
  
**Option 24a**

**Section of Document:**

**Your View**  
- ✓ Agree  
- □ No opinion  
- □ Disagree  

**Reason for comment:**

NB there is no space to respond to the assertion on there being spare health and education capacity within Crowborough but given that we already have the largest secondary school in SE this assertion on education is false. Any capacity in all schools at present is based on population drops rather than long term capacity. In addition with many of town unable to access NHS dentists and waiting lists being high it is clear that health capacity is limited too.

Consultee ID: Ms Kerwin-Nye
Part of document: Option 27a
Section of Document:
Your View ☑ Agree □ No opinion □ Disagree
Reason for comment:
It should be one factor for consideration - however much is needed to improve intra town bus services e.g. within Crowborough

Consultee ID: Ms Kerwin-Nye
Part of document: Option 27b
Section of Document:
Your View ☑ Agree □ No opinion □ Disagree
Reason for comment:
Yes clearly. This A26 is strangely absent from the plan but has been the site of several serious accidents over the last 3 years and it the main Lewes Uckfield Crowborough TW route (with as your paper states the latter being the main shopping venue for Crowborough residents)

Consultee ID: Mrs Markwick
Part of document: Option 14a
Section of Document:
Your View □ Agree ☑ No opinion □ Disagree
Reason for comment:
I believe the development would cause unacceptabe harm to the rural setting. If this are is built on then Maresfield and Five Ash Down become part of Uckfield and Uckfield starts to lose its unique character and becomes one huge ugly town - look what has happened to Crowborough.

Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Ms Taylor  Agent ID: 106912

Part of document: Option 2a  Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
New domestic housing should be built to a minimum standard of 3 Star as defined by The Code for Sustainable Homes with immediate effect, and this standard be raised by one star grade each year, reaching the maximum standard of 6 Star by 2012

Consultee ID: Ms Taylor  Agent ID: 106912

Part of document: Option 2b  Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
New domestic and commercial development should meet a requirement of generating AT LEAST 20% of its energy from renewable sources with immediate effect, and that this target be the subject of upward review after 3 years

Consultee ID: Ms Taylor  Agent ID: 106912

Part of document: Option 19a  Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
There is growth potential in both the areas suggested, but a smaller number of homes should be considered. Higher density sustainable housing with larger communal green spaces, commercial units and good transport need to be provided. There should also be some consideration to the age mix of housing - mixing sheltered housing for the elderly with family housing to ensure a build up of social capital. Schooling, playgroups, youth activities and parenting support will be needed.
Consultee ID: Ms Taylor
Agent ID:

Part of document: □ document □ chapter □ section ✓ option
Option 25a

Section of Document:

Your View ✓ Agree □ No opinion □ Disagree

Reason for comment:
This is more sustainable and caters for a higher number of people.

Consultee ID: Ms Taylor
Agent ID:

But... You need an objective on youth - to provide better and youth sensitive services and to encourage youth activities. Also the sustainability objective should have some more concrete and measurable wording. It is a bit woolly at the moment.

Option 18a
Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
I wish to record my objection to the suggestion of major housing development in Isfield. 1. The suggestion would appear to be motivated by financial rather than sound planning concerns. 2. Isfield is too close to Uckfield to become a stand alone community. 3. Existing towns should be expanded to assist local employment. 4. It is absurd to consider building a small town around a level crossing. did we not learn from Uckfield's problems? 5. In Uckfield land between Snatts Road and the bypass would seem the obvious site to be developed first. Conservation objections should not override common-sense. 6. The liability of flooding will be increased in Isfield. 7. The possible re-opening of the railway is a separate matter. Could not the money be used to improve the existing Uckfield-London route? Re-opening would require the level crossing in Uckfield to be re-opened. We can do without that.

Consultee ID: Mr Comben
Agent ID: 106917
Part of document: □ document □ chapter □ section ✓ option
Option 13a
Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
Benhall Mill Road is very narrow, and, with constantly parked vehicles, a bus service, and regular hearses attending the cemetery and crematorium, access is very difficult. With a proposed new seventy houses exiting onto the road, with a possible one hundred or more cars it will become extremely dangerous particularly at the junction with Forest Road. I now understand that there is possible consideration for a further 3350 houses to be built further along Benhall Mill Road. This would, in my opinion, be catastrophic for existing residents and a strain on the already overstretched infrastructure.

Consultee ID: Ms Hamer
Agent ID: 106918
Part of document: □ document □ chapter □ section ✓ option
Question 16h
Section of Document:
Your View □ Agree □ No opinion ✓ Disagree
Reason for comment:
Concerned about drainage, pollution, biodiversity and the need for people to be close to town centre services.

- **Reason for comment**: Benhall Mill Road is unsuitable for additional traffic and parking.
- **Reason for comment**: disagree due to 1. traffic issues and 2. location next to the cemetery and crematorium.
- **Reason for comment**: Concern about the impact of wind turbines on the countryside.
- **Reason for comment**: Concerned about more development in Crowborough because of traffic, flooding and infrastructure issues.
Reason for comment:
Roads and services in Crowborough will not cope with the number of houses planned. Already congested at peak times. Town will lose its character.

Reason for comment:
disagree because of nature conservation and infrastructure issues

Reason for comment:
disagree with the area being developed because of biodiversity, traffic and infrastructure issues and the need to protect the countryside.
Consultee ID: 106939
Mr Chalmers

Favour Berwick Station  

Consultee ID: Mr and M Elliott  
Part of document: ☑ option  
Section of Document:  
Your View   ☑ Agree   ☐ No opinion   ☐ Disagree   
Reason for comment:  
Benefits from good road and rail connections.  

Consultee ID: Mr and M Elliott  
Part of document: ☑ option  
Section of Document: Infrastructure Requirements  
Your View   ☑ Agree   ☐ No opinion   ☐ Disagree   
Reason for comment:  
Emphasise that infrastructure should be in place before building commences and that it should be paid for by developers  

Consultee ID: Ms Baldwin  
Part of document: ☑ option  
Section of Document:  
Your View   ☑ Agree   ☐ No opinion   ☑ Disagree   
Reason for comment:  
because of traffic & infrastructure issues and the need to protect the countryside.
Consultee ID: Mr Daverie
106958

Part of document: □ document □ chapter □ section ✓ option
Option 13a

Section of Document: Agent ID:

Reason for comment:
Lack of infrastructure and services eg. schools, healthcare. Traffic impact on Benhall Mill Road. Loss of SNCI

Consultee ID: Mr Rose
106959

Part of document: □ document ✓ chapter □ section □ option
Part 3

Section of Document: Wealden's Working Patterns

Reason for comment:
To support the economy there is a need for: Upgrading A27 Polegate to Lewes and the Folkington link. New business parks with good road and rail access. Higher education facilities to support high tech high paid industries.

Consultee ID: Mr Rose
106959

Part of document: □ document □ chapter □ section ✓ option
Question 15g

Section of Document: Agent ID:

Reason for comment:
Hailsham is not suitable for more development due to inadequate sewage and surface water drainage systems and the need for upgraded health, school provision and social services.

Consultee ID: Mr Rose
106959

Part of document: □ document □ chapter □ section ✓ option
Option 18a

Section of Document: Agent ID:

Reason for comment:
Because it is located close to a main rail line link, main truck road and away from flood plains.

Reason for comment:
Consultee ID: Mr and M Woodward
Agent ID:
106974

Part of document: ☑ option
Question 7e

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:

Wadhurst is shown as having growth potential but before significant growth takes place a number of issues need to be addressed as follows: Capacity needs to be increased in sewerage, drainage, roads, education, rail transport, community buildings (especially community halls, sports facilities and shops), car parking, G.P.'s surgeries, hospitals and libraries. The level of development shown for wadhurst (285-320 Dwellings) is too high.

Consultee ID: Mrs Spencer
Agent ID:
106975

Part of document: ☑ option
Option 13a

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:

Overdevelopment of area. Traffic impact on Forest Road and lack of pedestrian crossings. Safety at Benhall Mill Road/Forest Road junction. Use of Birling Road as a rat-run. Inusfficient school places locally. Nearest schools Claremont, St Peters are over-subscribed. St Marks is 2 miles away. Lack of local facilities such as shops POs.

Consultee ID: Mr James
Agent ID:
106976

Part of document: ☑ option
Option 11b

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:

because of the impact on the character of the Town and Luxford Farm, Goldsmiths Leisure Centre and Caravan Park in particular.

</tbody>
</table>
Option 18i

Section of Document:

Your View  □ Agree  □ No opinion  ☑ Disagree

Reason for comment:

Unrealistic to expect a new station upon which this proposal is dependent. Train services are deteriorating e.g. no off-peak service at Pevensey Bay and Plumpton. Traffic impact and additional congestion on A27. Landscape impact, including on commons managed by Wilmington Registered Commons Association and historic/environmental factors. Contrary to Inspector’s views about quality of landscape. National park enquiry and proposal to extend boundary. Ecological impact. Impact on landscape setting of Downs. Lack of employment opportunities. Greater land take as need to build all new facilities too.

Option 13a

Land in Hackhurst Lane put forward for development.

Consultee ID: 106988
Young
Agent ID:

Part of document: Option 13a
☐ document  ☑ chapter  ☐ section  ☑ option

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

Traffic Impact. Impact on local services/infrastructure eg schools in Tunbridge Wells. Impact on SNCI. Poor Public transport - local bus is infrequent and does not operat on sundays and evenings. Access not suitable for residents of large-scale housing.

</tbody>
</table>

**Section of Document:**

**Reason for comment:**

Paragraph 4.42 puts forward the “Hailsham Focus” option. Question 8 Option 8a. My clients support this option. Hailsham is the largest town in the southern part of the District and supports a wide range of facilities and services. All local government services will be located in the town and because of its location in the Hailsham – Eastbourne Triangle, it will benefit from priority initiatives to stimulate economic regeneration and investment. Additional development in Hailsham will be able to build upon the existing social/economic base and contribute towards the regeneration of the town including the provision of improvement infrastructure.

<th>Mr Hayward</th>
<th>Agent ID:</th>
</tr>
</thead>
<tbody>
<tr>
<td>106989</td>
<td>RPS Planning &amp; Development Ltd</td>
<td></td>
</tr>
</tbody>
</table>

**Section of Document:**

**Reason for comment:**

Lack of evidence for proposed numbers. Part of land is available. Development may increase the viability of constructing a southern relief road which will benefit the town centre by reducing traffic congestion.

Consultee ID: Sir Sowrey 107004

Part of document: 
Part 2

Section of Document: Wealden's Landscape

Your View: No opinion

Reason for comment: Design of buildings and wildlife is of importance to Wealden's Landscape.

Consultee ID: Sir Sowrey 107004

Part of document: Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Your View: No opinion

Reason for comment: The High Weald AONB must be maintained.

Consultee ID: Sir Sowrey 107004

Part of document: Part 6

Section of Document: Wealden's Communities

Your View: No opinion

Reason for comment: Existing towns and villages must avoid high density and ribbon developments. Infrastructure for the future is critical as is the water supply that will be needed.

Consultee ID: Ms Kitto 107005

Part of document: Question 11f

Section of Document:

Your View: No opinion

Reason for comment: Oppose further housing development in Crowborough without the infrastructure needed.
Consultee ID: Ms Kitto
Agent ID: 107005
Part of document: Option 18a
Section of Document: Agent ID: Agree
Reason for comment: Agree because it would lead to reinstatement of the Lewes/Uckfield railway line

Consultee ID: Mr Fielding
Agent ID: 107006
Part of document: Option 18a
Section of Document: Agent ID: Disagree
Reason for comment: Not using the correct method for building good quality low cost environmentally responsible housing. Not using the correct method for building and running good quality low cost environmentally responsible public transport system.

Consultee ID: Boyce
Agent ID: 107007
Part of document: Part 2
Section of Document: Wealden's Landscape
Reason for comment: No development should be allowed on the Ashdown Forest, or should be seen from the Ashdown forest.

Consultee ID: Boyce
Agent ID: 107007
Part of document: Option 19d
Section of Document: Agent ID: No opinion
Reason for comment: A few affordable houses and smaller bungalows for the elderly would be appreciated, new medical centre required for the local practise. Bus service need improving.
Consultee ID: Boyce  
107007  
Part of document: option  
Section of Document: Infrastructure Requirements  
Your View: Agree  
Reason for comment: A high priority should be given to restore the Uckfield Lewis railway line and the Spa Valley Railway.

Consultee ID: Stokes  
107008  
Part of document: chapter  
Section of Document: Context  
Your View: No opinion  
Reason for comment: a percentage of land should be made available for self-build projects, some of which could be low cost homes built in conjunction with housing associations.

Consultee ID: Stokes  
107008  
Part of document: option  
Section of Document:  
Your View: Agree  
Reason for comment: agree dispersing development an small scale to rural villages as they can be easily accomodated without major effect and help support village life.
proposes a number of small developments of 20-40 homes in many different villages such as Ripe, Upper Dicker, Gun Hill, Laughton, Whitesmith, Waldron, Framfield, Golden Cross, Chiddingly, East Hoathly, Blackboys, Horam and West Firle. Supporting reasons: 1. easily assimilated into existing village structure 2. Generate demand for local services 3. Preserve character of village Proposes the non-Wealden villages of Glynde, Cooksbridge, Southease, Rodmell and Plumpton for development for the following reasons: 1. transport links 2. established services 3. proximity to environmental recreation

will create a link between Hailsham and Hellingly which goes against local development policy, it will also make this part of the A271 even more congested. A new relief road would be required, there would also be pressure on local schools and services.

Will combine Hailsham and Hellingly and congest A271. Developing at Hellingly hospital will change the character of the area away from the current centre. Hellingly has no amenities with poor roads and potential for flooding.

As explained in paragraph 2.26 of the issues and options document, Southern Water is currently undertaking a study on wastewater service provision in Wealden District (referred to here as the Wealden study). The primary purpose of this study is to determine the ability of existing facilities to accommodate development identified in Wealden’s Non-Statutory Plan (end date 2011). The study also attempts to look beyond 2011, taking into account information available on the likely location of new development in the longer term. The development schedules informing the study were agreed by the Council as best estimate in August last year. Wastewater catchments predicted to receive a significant level of new development were selected for more detailed investigation. As you will be aware, the information available on the location of new development had limited planning certainty at the time the development schedules were prepared. The spatial distribution of new development assumed in the Wealden study does not necessarily coincide with the options put forward in the issues and options Core Strategy, nor the preferred option that will be selected following consultation. We have reviewed each of the options in the draft Core Strategy on the basis of the Wealden study. The result is shown in the enclosed table. We have indicated whether there are known environmental constraints for each option, and whether investment will be required to increase wastewater treatment capacity. Each option has been assessed on an individual basis – in combination (cumulative) effects have not been considered. As recognised in paragraph 2.27 of the issues and options Core Strategy, there are known environmental constraints at Hailsham North and Hailsham South Wastewater Treatment Works. We are informed that the Environment Agency will not allow an increase in consented flow, and a new discharge point is therefore needed. We confirm the statement in paragraph 2.27 that significant lead-in time is likely to be required (up to 15 years), due to the need to find a suitable site and obtain the necessary permissions and funding to deliver a new wastewater treatment works. The phasing of new development in the Hailsham and Polegate area will need to take this into account. Where there are no environmental constraints but additional treatment capacity is required, we anticipate that new facilities can be provided through expansion of existing works. This investment would normally be funded through the periodic review of charges, subject to Ofwat approval. Ofwat generally agrees to fund investment required to service new development with planning certainty (i.e. identified in adopted development plan documents). Southern Water is very concerned that the Core Strategy issues and options document underplays the significance of issues relating to water resources, and ignores any options for future water resource development within the District. Southern Water and the other water companies are currently preparing their Water Resource Management Plans which will identify 25 year plans for future water resource development across their areas of supply. These Plans will adopt the so called twin-track approach of a combination of both demand management and water efficiency measures, and new resource development, in order to meet future water demands. Predicted future demand cannot be met by demand management or water efficiency measures alone. New water resources will have to be developed within the plan period. The suggestion in paragraph 2.34 of the issues and options document that there is no need for a Core Strategy Policy on potential reservoir development is a major concern to Southern Water. The proposal to raise Bewl Water is a strategic water resource option that would contribute towards meeting water resource needs on a sub-regional and regional basis. The text in paragraph 2.34 does not reflect the wording of draft Policy NRM2 in the South East Plan which requires planning authorities to “allocate and safeguard sites” identified in the Policy. The inclusion of a Policy in the Core Strategy would not be “unnecessary” or “cause duplication” as the issues and options document suggests. On the contrary, it is Southern Water’s contention that a Core Strategy that fails to include policy provision for the potential raising of Bewl Water would run a significant risk of being found to be unsound, particularly in relation to tests of soundness 4, 6 and 7. The Planning White Paper proposal
to strengthen the test relating to infrastructure provision reinforces this view. Southern Water will contact you separately to arrange an urgent meeting to discuss the issues relating to Bewl Water. Given the clear cross-boundary issues arising from new proposals at Bewl it may be advantageous to hold a joint meeting with Rother and Tunbridge Wells Councils. I hope the above comments are helpful. We look forward to participating further at the next stage of the preparation process. As explained above, more detailed sewerage capacity analysis can be undertaken on a site by site basis when the options have been refined.

Consultee ID: 107030  
Southern Water

Part of document:  
Section of Document: Site Allocation Thresholds

Reason for comment:  
We note that question 10 proposes allocation size thresholds of 30+ dwellings in or on the edge of towns, and 15+ in or on the edge of villages. We would prefer a lower threshold of 10 dwellings in both towns and villages, as the precise location of new development is a key factor in our investment planning. We are unable to plan to meet the demand from new development unless the site and scale of development is identified.

Section of Document: Option 18a

Reason for comment:  
The situation with regard to the other catchments (options 18a, 18b, 18i and 18j) is not known at this stage. We would advice you to contact the EA to establish whether there are any environmental constraints. We anticipate that treatment facilities can be provided through expansion of existing works provided: a) there are no environmental constraints, b) the necessary consents can be obtained from the EA and the appropriate planning authorities, and c) funding is approved by Ofwat. Ofwat generally agrees to fund investment required to service new development with planning certainty (i.e. identified in adopted development plan documents).

Agent ID: Southern Water

Part of document: □ document  □ chapter  □ section  ✓ option

Section of Document: Question 18k

Your View  □ Agree  ✓ No opinion  □ Disagree

Reason for comment:
The new settlement options (18a to 18j) propose a large number of houses in one location. This will lead to the need for new discharge consent(s) from the Environment Agency (EA) at the works receiving the waste, and investment to treatment facilities. As stated above, we know from the Wealden study that no increase in consented flow will be allowed at the works serving Hailsham, hence the need for a new discharge point. With regard to sewerage to convey wastewater to wastewater treatment works, we anticipate that the developer will requisition the necessary infrastructure to service new development. It is therefore expected that this infrastructure will be funded by planning gain. A site by site assessment can be carried out when the options have been refined, to assist the Council in selecting the preferred options.

---

### Consultee ID: Dr Somerville 107035

**Part of document:** ☑ option

**Section of Document:** Option 18j

**Your View** ☑ Disagree

**Reason for comment:**
Object to 18j because of infrastructure, landscape and the need to protect the countryside.
Option 13a

Reason for comment:
Land is designated as SNCI with the land backing Forest Road possessing more environmental worth. Infrastructure, e.g. refuse collection, schools will be resourced by overstretched Tunbridge Wells. Tunbridge Wells highways are already heavily utilised. Wealden approved development on the edge of its boundary would be at best opportunistic and only for planning gain. The South East Environment needs to be protected and allowing development sets a precedence for mismanagement of land in order to reduce nature conservation.

Option 18b

Reason for comment:
Where do the potential house owners live now and why do they wish to live in Isfield? Where do they propose to work? Are they potential commuters? Do they realise that they will be buying a house on a potential flood plain? Will there be facilities in the development place for schools, shops and all other needs for a new town? How will they cope with (a) the current busy narrow country lanes (b) current shortage of water during droughts (c) power and energy sources now at their maximum (d) extra sewer demands will be difficult to absorb.

Option 14a

Reason for comment:
The development options to the north and west of the town are preferred to those in the south and east.
Mr. Mcloughlin

Question 16h

Section of Document:

Your View ☑ No opinion

Reason for comment:

Regarding 16h - my comment is why Hindslands playing field is not used for any sport? It seems a total waste of what was originally a well maintained area.

Consultee ID: Gould Davis
107040

Part of document: ☑ option
Option 18b

Section of Document:

Your View ☑ Disagree

Reason for comment:

Single carriageway section of the A22 bisects Halland No church, village shops, school GP practice or station. Very poor public transport. Poor and tempremental electricity supply. Volume and weight of the vehicles using B2192 has increased phenomenally. Rate of recent road traffic accidents unacceptably high. Area unable to support more than a handful - up to 10 - new residences.

Option 15e

Reason for comment:
Developer submission: The areas of land around Oaklands farm and the Brickfield, Ersham Road, Hailsham are suitable for development. It is argued that Oaklands Farm and the Brickworks are both previously developed land. The scheme could incorporate the upgrading of the south Road / Ersham Road roundabout. None of the land has a high landscape value. There are no biodiversity or flood risk issues.; The area is located relatively close to Hailsham town centre. The area meets the criteria of PPS 3 in terms of deliverability.

Option 3a

Option 6a

Question 6d

Reason for comment:
Development should be centred primarily around the five main towns and larger villages on a proportionate basis

Question 11g

Reason for comment:
Infrastructure Question the suggestion that Crowborough has significantly less infrastructure problems than Uckfield

Question 11h

Reason for comment:
The extensive brownfield area between the southern end of western road and the railway would be ideal for a mixed development

Part 6

Section of Document: Wealden’s Communities

Reason for comment:
Density issues (Q 24) areas of open character and arcadia character should be protected

Each housing site should include affordable houses and necessary infrastructure
Consultee ID: DR Webh
107099
Part of document: □ document ☑ chapter □ section □ option
Part 6
Section of Document: Wealden’s Communities
Your View □ Agree ☑ No opinion □ Disagree
Reason for comment:
Develop between 16a and 16b as dual carriage way as well as A2270 (Highlands area)

Consultee ID: MR Coventry
107100
Part of document: □ document ☑ chapter □ section □ option
Part 2
Section of Document: Wealden’s Landscape
Your View □ Agree □ No opinion ☑ Disagree
Reason for comment:
Most important to safeguard the enviroment

Consultee ID: MR Coventry
107100
Part of document: □ document □ chapter □ section ☑ option
Option 2b
Section of Document:
Your View ☑ Agree □ No opinion □ Disagree
Reason for comment:
Should secure the highest percentage possible. Suggest looking at working concil requirements. Support carbon neutral housing

Consultee ID: MR Coventry
107100
Part of document: □ document □ chapter □ section ☑ option
Option 4c
Section of Document:
Your View ☑ Agree □ No opinion □ Disagree
Reason for comment:
Preferable to developing currently unspoilt countryside west A22and north A27
Consultee ID: MR Coventry Agent ID:
107100

Part of document: □ document □ chapter □ section ✓ option
Option 5a

Section of Document:

Your View ✓ Agree □ No opinion □ Disagree

Reason for comment:
Important to prevent development

Consultee ID: MR Coventry Agent ID:
107100

Part of document: □ document □ chapter □ section ✓ option
Option 6a

Section of Document:

Your View ✓ Agree □ No opinion □ Disagree

Reason for comment:
Makes better infrastructure

Consultee ID: MR Coventry Agent ID:
107100

Part of document: □ document □ chapter □ section ✓ option
Option 7b

Section of Document:

Your View □ Agree □ No opinion ✗ Disagree

Reason for comment:
Do not agree with developing a village within 5km of a town as people would still need to use their cars and it would create sprawl

Consultee ID: MR Coventry Agent ID:
107100

Part of document: □ document □ chapter □ section ✓ option
Option 9a

Section of Document:

Your View ✓ Agree □ No opinion □ Disagree

Reason for comment:
Crowborough and Heatherfield are constrained A.O.N.B and has a town centre station Development should be subject to:Reinstatement of leures-Uckfield line No development north of snatts road and west of A22
Consultee ID: 107100

Part of document: option

Section of Document:
Question 7e

Your View  
☐ Agree  ☑ No opinion  ☐ Disagree

Reason for comment:
Development in other villages and hamlets should be restricted to affordable housing only

Consultee ID: MR Williams
Consultee ID: 107102

Part of document: □ document ✓ chapter □ section □ option
Part 3

Section of Document: Wealden’s Working Patterns

Your View □ Agree ✓ No opinion □ Disagree

Reason for comment:
Respondent recognises need to attract additional opportunities to local towns issues: - reinstate Uckfield Leives rail link - poor rounds/speeding issues - restrict lorries from minor roads - improve bus infrastructure - encouragement of small local businesses

Consultee ID: MR Williams
Consultee ID: 107102

Part of document: □ document □ chapter □ section ✓ option
Option 21a

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:
500 proposed scale is too great, reasons: - impact on quality of life - lack of infrastructure - traffic increase - health and education facilities

Consultee ID: MR Williams
Consultee ID: 107102

Part of document: □ document □ chapter □ section ✓ option
Question 21g

Section of Document:

Your View □ Agree □ No opinion ✓ Disagree

Reason for comment:
Fairwrap housing development should be very limited and restricted to affordable housing (not just social housing)
Consultee ID: MR Williams  
107102
Part of document: □ document □ chapter □ section  ✔ option
Question Thirty
Section of Document: Infrastructure Requirements
Your View  □ Agree  ✔ No opinion  □ Disagree
Reason for comment:
Fairwrap and Maresfield suffer the same issues and wish to see major improvements in infrastructure before further developments are agreed. These include: - road restriction/quiet evening - improvements to schooling - improvements to healthcare facilities - better facilities for young people - basic infrastructure (fuel, electricity etc) - appropriate employment opportunities

**Agent ID:** 107103

**Part of document:**  
- [ ] document  
- [ ] chapter  
- [ ] section  
- [x] option

**Section of Document:** Option 4b

**Your View**  
- [x] Agree  
- [ ] No opinion  
- [ ] Disagree

**Reason for comment:**

Agree if there are no alternatives but should include substantial strategic green gap between southern edge of Hailsham and northern externity of any development. Release of land should be conditional upon A27 and Cophan roundabout improvements.

### Option 4c

**Consultee ID:** MR & MR Bowman  
**Agent ID:** 107103

**Part of document:**  
- [ ] document  
- [ ] chapter  
- [ ] section  
- [x] option

**Section of Document:** Option 4c

**Your View**  
- [x] Agree  
- [ ] No opinion  
- [ ] Disagree

**Reason for comment:**

Only if area can be accessed other than from Dittons road.

### Option 4d

**Consultee ID:** MR & MR Bowman  
**Agent ID:** 107103

**Part of document:**  
- [ ] document  
- [ ] chapter  
- [ ] section  
- [x] option

**Section of Document:** Option 4d

**Your View**  
- [ ] Agree  
- [x] No opinion  
- [ ] Disagree

**Reason for comment:**

Unless evidence proves a need.

### Option 5a

**Consultee ID:** MR & MR Bowman  
**Agent ID:** 107103

**Part of document:**  
- [ ] document  
- [ ] chapter  
- [ ] section  
- [x] option

**Section of Document:** Option 5a

**Your View**  
- [x] Agree  
- [ ] No opinion  
- [ ] Disagree

**Reason for comment:**

Agree where there is a proven need but countryside gap must be maintained.
Option 5b
Reason for comment:
Likely to result in urbanisation of the country side

Question 5c
Reason for comment:
Most sustainable and deliverable way of accommodating development is through the creation of new settlements on or near existing rail/road links

Question 6d
Reason for comment:
50% allocation to the villages remainder to the towns including possible new settlement Favour concept of wide dispersal of all new development evenly across the district

Option 7a
Reason for comment:
Agree with approach to identify infrastructure improvements but not for the purpose of controlling development

Section of Document: Option 14a

Your View  
- ☐ Agree
- ☐ No opinion
- ☑ Disagree

Reason for comment:
A petition has been signed by 1091 local residents against planning application WD/2006/2855 for development at Downlands Farm. These should be taken as assertions of disagree to questions 14a and 14b. The strong views expressed in the petition very much mirror the views expressed by a large proportion of Uckfield’s population in the recently conducted Uckfield Community Questionnaire. It is clear that the size of developments proposed for consideration on Downlands Farm and Budletts Common would: a) jeopardise to a degree the three most frequently mentioned factors that people like about Uckfield, and b) exacerbate the three most frequently mentioned factors that people like least about Uckfield, and c) not addressed the three most frequently mentioned factors that people regard as their greatest priorities for improving Uckfield. The views of the population are not normally as currently available as they are in this recent questionnaire, and I feel that as the questionnaire had such a high percentage rate of return, the views expressed, in conjunction with those in the petition should count as a material consideration in determining whether these two sites should be included in the LDF. The concept of extending development to such an extent north of Uckfield, outside the planning boundary, and to such devastating degree on very precious sites, has already received great local opposition, and has rightly been refused by Uckfield Town Council and Wealden District Council. The strategic countryside gap that protects North Uckfield and separates it from Five Ash Down, Maresfield and Buxted should remain firmly in place. Submissions from the Woodland Trust, Sussex Wildlife Trust, CPRE, Sussex Ouse Conservation Society and the Environment Agency reinforce views expressed in the petition.

Generally there is some concern over the relative lack of attention to economic development - It is considered that there is a need to be a balance between Hailsham/Eastbourne and Bexhill in terms of inward investment opportunities, especially given the sub-regional priorities.

**Your View:** Agree, No opinion, Disagree

**Reason for comment:**

- Every village that has a primary school should have a development of housing appropriate to the size of the village of which at least 70% should be affordable housing. If possible, sited within walking distance of the school.

- New build should concentrate on housing for people who work in the area - minimise road travel and maximise train use - need for affordable housing - priority should be given to smaller dwellings - new houses should be placed close to the major hospitals in the area with accident and emergency facilities - equal distribution - for every (say, 100 new houses) an area of land should be set aside for allotments.
Option 11c

Reason for comment:
The land north of Beacon Golf Club is under proposal of sale and wants to be constructed into a care home. If Wealden and Crowborough form a partnership with the club they could discuss more imaginative schemes (e.g. hotel with function room).

Option 11e

Reason for comment:
This land is largely residential and plots so would easily support housing development - Lordswell lane to be considered within the town development area - traffic solution in the form of width restrictions within Southview and Lordswell lane would make a difference.

Option 27b

Reason for comment:
A good service and modern stock between Uckfield and Lewes rail link would achieve success. I would like to ask Wealden to be more proactive in getting on with this scheme.

Option 3a

Reason for comment:
Consultee ID: MR & M Vine
107112

Part of document: □ document □ chapter □ section □ option
Option 4c

Section of Document:

Your View □ Agree □ No opinion □ Disagree

Reason for comment:
It would be preferable to concentrate attention on achieving the implementation of the allocated sites in Eastbourne, thereby broadening the scope and variety of employment opportunities for both Wealden and Eastbourne residents rather than allocating more greenfield land in south Wealden.

Disagree for the following reasons: physically separated from town centre and main services - increase traffic on A22 - landscape impact - not clear from highways agency if land at a-c can be accessed

Consultee ID: MR & M Vine
107112

Part of document: □ document □ chapter □ section ✔ option
Option 16e

Section of Document:

Your View ✔ Agree □ No opinion □ Disagree

Reason for comment:
Land is contained, unobtrusive edge of town site. It should not be reduced in size from that proposed in the informal plan development at 16d would be very exposed from the north (unlike 16e), subject to noise from the by-pass and difficult to access.
Option 16f

Proposed land at Mornings mill farm for housing and associated series and facilities (map submitted). The area is essentially identified and allocated in the Draft Wealden Plan 2003 although additional land to the north, south and east of that allocation would also be available. Justification:
- relatively unobtrusive development would form an appropriate urban extension to existing built-up areas
- minimal visual impact on AONB
- good access to services
- provision of a new primary school and neighbourhood centre
- with regard to traffic/access consideration - suggest one wide access point to A2270 which divides shortly after entering the site rather than two as proposed in table 7
- development at Morning mill farm help to reinstate the hindsland playing field

Option 16g

"Development here would be far less intrusive on the landscape than other suggested areas to the west and north of Polegate"

Question 16i

development at option 16f can help achieve a number of these

Consultee ID: Mr Hull
107115 Kember Louden Williams Ltd

Part of document: □ document □ chapter □ section □ option
Option 6a

Section of Document:

Reason for comment:
In terms of the preferred pattern of growth, it would seem sensible from a sustainability point of view that the main towns within the District are targeted for growth. The main towns invariably contain the necessary infrastructure or benefit from the ability for infrastructure to be improved. This said, the role of the villagers must not be ignored. Villagers provide essential facilities for those who dwell or wish to dwell in the countryside. Taking this into account, option 6a 80% town and 20% village would seem an appropriate mix.
Option 8a

Section of Document:

Reason for comment:
Hailsham is already the focus of some development and the proposals for the town centre, including a new retail store indicate more housing could be targeted as this settlement to consolidate and utilise existing and new facilities. The town has employment areas and schools and acts as a hub for the surrounding area. It is one of the most sustainable settlements in the area. that said, it is important that in targeting new housing other settlements are not undermined by the dominence of others in this respect, whilst Hailsham should recieve most of the housing growth, Polegate would also benefit from additional development. Option 8a and 8c would be appropriate.

Option 8c

Section of Document:

Reason for comment:
Hailsham is already the focus of some development and the proposals for the town centre, including a new retail store indicate more housing could be targeted as this settlement to consolidate and utilise existing and new facilities. The town has employment areas and schools and acts as a hub for the surrounding area. It is one of the most sustainable settlements in the area. that said, it is important that in targeting new housing other settlements are not undermined by the dominence of others in this respect, whilst Hailsham should recieve most of the housing growth, Polegate would also benefit from additional development. Option 8a and 8c would be appropriate.
Consultee ID: Mr Hull  Kember Louden Williams Ltd

Part of document:  □ document  □ chapter  □ section  ✔ option

Section of Document:  Site Allocation Thresholds

Reason for comment:
In the supporting text reference is made to the Government's density guidance. It is considered very important that this minimum density is adhered to if best use of land is to be made when development proposals are put forward. Not to do so will leave the district in need of additional sites. In Hailsham there are issues of road capacity, however with appropriate mitigation funded by contributions from developers, there should be no reason why sites should not meet the minimum density guidance or exceed it. In developing the Core Strategy east Sussex county Council should provide the district Council with comprehensive advise which considers future growth potential around the settlement including the improvements needed to achieve growth.

Consultee ID: Mr Hull  Kember Louden Williams Ltd

Part of document:  □ document  □ chapter  □ section  ✔ option

Section of Document:  Option 12c

Reason for comment:
The area to the South of Burwash Road and centered on Satinstown Farm between the B2096 Burwash Road and Halley Road would be suitable for housing development.

Consultee ID: Mr Hull  Kember Louden Williams Ltd

Part of document:  □ document  □ chapter  □ section  ✔ option

Section of Document:  Option 15a

Reason for comment:
15a option would not be able to accommodate the amount of housing indicated in the strategy given the flood risk issues and the constraints caused by landscape impact.
<table>

<tbody>
<tr>
<td>Option 15c</td>
<td>Mr. Hull</td>
<td>Landscape impact is also an issue with 15c option and this could significantly affect potential housing numbers.</td>
</tr>
<tr>
<td>Option 15d</td>
<td>Mr. Hull</td>
<td>Our clients land has been subject to assessment in terms of ecology, flood risk and highways. In principle there is no reason for development not to be targeted in the 15d area as indicated in the strategy. The perimeter of the 15d has good defendable planted boundaries which are a benefit from a landscape perspective. The site is closer to the core of the town than perhaps some of the other areas considered.</td>
</tr>
<tr>
<td>Option 15f</td>
<td>Mr. Hull</td>
<td>15f is served by the A22 and has several environmental contraints.</td>
</tr>
</tbody>
</table>
Reason for comment:
1) Wealden should resist massive house-build in its area. Target for the existing population. 2) Developments in Wealden should be of a limited scale which is appropriate to and sensitive to the existing environment and communities.

Reason for comment:
"We are not against small developments of say 1-3 dwellings in this parish". Considerations: scale, location, style, local need.

Reason for comment:
Disagree with large development in the South of Wealden (Hailsham) because: 1) Too large in scale 2) Strain on infrastructure 3) Proximity to/location within AONB 4) Threaten equilibrium of Cuckmere Valley Parish

Consultee ID: Mr Hayward  
107124

Part of document: ☑ option

Section of Document: Site Allocation Thresholds

Your View ☑ Disagree

Reason for comment:

it is a mistake to state any criteria indicating a generalised quantum for development. The acceptable extent depends on the particular village - in some instances 0 might be the right amount.

Agent ID: 107124

Part of document: ☑ chapter  
Part 6  
Section of Document: Wealden’s Communities

Your View: ☑ No opinion

Reason for comment: Respondent acknowledges the need to increase density but expresses concerns that increased densities may result in excessive numbers of small dwellings.

Consultee ID: Mr Hayward  
Agent ID: 107124

Part of document: ☐ document  ☑ option  
Option 27c  
Section of Document:

Your View: ☑ No opinion  ☑ Disagree

Reason for comment: It cannot make any sense to propose an additional station within a travel distance of not more than three minutes from the existing Polegate station. If anything needs to be done perhaps better parking facilities at Polegate should be provided.

Consultee ID: Mr Hayward  
Agent ID: 107124

Part of document: ☐ document  ☑ option  
Question 32b  
Section of Document:

Your View: ☑ No opinion  ☑ Disagree

Reason for comment: Respondent questions the way in which spatial objectives are created - suggests that what people want and what the district needs do not accord with national and regional policies.

Mrs Brooke (Consultee ID: 107126)

Question Twenty Nine

Housing Delivery

Your View: Agree

Reason for comment:

disagree with level of housing due to lack of need and infrastructure including hospitals, e.g. Pembury

Mrs Brooke (Consultee ID: 107126)

Part 1

Context

Your View: Disagree

Reason for comment:

New housing should be placed near facilities such as railway links for commuters and bus services provided for school children. The idea of a major settlement in Halland seems foolish in view of lack of any infrastructure and facilities to support c.2000 houses. Also given your stated aim to protect rural areas this use of green field space seems to be against your own policy. The A22 would be a difficult road to upgrade to a duel carriageway north of Hailsham, whereas the A27 is an ideal link east and west and is long overdue for promised upgrades.
Consultee ID:  mrs brooke  
Agent ID: 107126

**Option 18b**

**Section of Document:**

**Your View**  
☐ Agree  ☐ No opinion  ☑ Disagree

**Reason for comment:**

lack of infrastructure and A22 is a difficult road to upgrade

Consultee ID:  mrs brooke  
Agent ID: 107126

**Question 18k**

**Section of Document:**

**Your View**  
☐ Agree  ☑ No opinion  ☐ Disagree

**Reason for comment:**

suggest focusing on area close to A27 between E and B - better transport infrastructure

Consultee ID:  mrs brooke  
Agent ID: 107126

**Section of Document:**

**Your View**  
☐ Agree  ☑ No opinion  ☐ Disagree

**Reason for comment:**

Local Hospitals have not planned the capacity required for this increase in population. Even the new plan for the Pembury Hospital does not include these extra population figures because no one has approached the hospitals that this area uses to ask them.

Consultee ID:  mrs brooke  
Agent ID: 107126

**Section of Document:**

**Your View**  
☐ Agree  ☑ No opinion  ☐ Disagree

**Reason for comment:**

Wealden requires more affordable housing and including accommodation suitable for a growing elderly population (bungalows and sheltered housing) but this requirement seems lacking in the majority of housing developments.

mrs stewart
Agent ID:

Part of document: ☑ option
Question One

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Your View ☑ Disagree

Reason for comment:
iam 100% totally opposed to allowing any development in ANOB's. The whole point of them is to retain the character and landscape of those areas, and allowing new housing development in them would go completely against this. I also strongly disagree with the first and second lines in para 2.15, since going by the councils planning decisions they do not believe this either, given the number of applications they turn down for minor proposals that are in ANOB's, let alone for larger schemes. The CS document sets out all possible housing sites in the district. This probably amounts to 30K to 40K as urban extensions and a similar amount for new towns, ie a total of 60K to 80K. Given that only 5K of new houses are needed this shows that there are plenty of sites not in ANOB's available to meet housing needs. There is no need or justification to build in the ANOB's.
Part of document: Option 3a

Reason for comment:
This should only be considered where the business space lost is replaced on a new better site elsewhere otherwise the existing shortage of business space will be made even worse. How is the "no realistic prospect of development coming forward" determined. As for instance the non development of the Ashdown Business Park has been held up for 20 years by the intransigence and bloody mindedness of WDC as one of the landowners, in refusing to be realistic in the terms and money required to sell the site to one developer.

Part of document: Option 3b

Reason for comment:

Part of document: Option 3c

Reason for comment:

Part of document: Option 3d

Reason for comment:
Support this. Particularly the inclusion of B1 office use premises in housing areas, as most existing estates now are now dead in the day as everyone leaves to go to work. A level of B1 can easily be accommodated without causing harm to residential amenity, and reduce travel to work.
Option 5a

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

Object to this area as Hailsham is not a sustainable location for any development as it has no rail connection, and further development here should not be allowed.

Option 4d

Section of Document:

Your View  ☐ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

Object to this area as Hailsham is not a sustainable location for any development as it has no rail connection, and further development here should not be allowed.

Option 5b

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:

Many settlement boundaries because of the way development occurred in the past, leave out areas that are as developed as the settlement. Where they are near to the settlement, and with the need for more housing, it seems ridiculous to stop development here, when it will otherwise mean providing sites largely on greenfield sites elsewhere. Equally disallowing development on already developed land just because it is outside the boundary is contrary to sustainable development.
Reason for comment:
This strongly supports the need to allow a level of development in the villages to stop what is happening now. The villages are becoming dead from lack of young people and rural workers due to high house prices. New development will allow a level of affordable housing to be made which will otherwise never happen. Thus the writer supports 6c more than the other options.

Reason for comment:
Disagree, as it is making things even more complicated, each village is different and will lead to endless arguments as to whether a village fits each criteria.

Reason for comment:
Option 9a

Reason for comment:
support this so long as the best landscape/ecological areas such as Downlands Farm are excluded. Crowborough and Heathfield should not be considered at all as it would mean building on the ANOB.

Option 7d

Reason for comment:
agree only if it is realistically based on the fact that the use will carry on. There is not much point in leaving a building disused in a village which will have no growth, and the use ill then never be economic, and no one will come forward to re-instate it. In case such as this re use for other uses would have to be allowed.

Option 8b

Reason for comment:
support this and completely oppose other options. Hailsham is unsustainable due to lack of railway. A new town is also unacceptable.

Option 9b

Reason for comment:
Consultee ID: mrs stewart

The smaller number of dwellings on lower slopes may be ok but not the larger due to landscape issues
Option 14f

Reason for comment:
due to visual effect seen for miles, odour problems from sewage works

Reason for comment:
due to visual impact seen for miles, odour problems from sewage works

Reason for comment:
Disagree strongly. This is presumably the move the industrial estate from the flood plain idea. This is completely nuts and is highly unlikely to be economic, and unless compulsory purchase id used will be a nightmare to set up with all the differing landowners, leaseholders and tenants. It is also quite obvious to everyone other than the council and the EA that the simple way to solve the flooding problems in Uckfield is to enlarge the river bed, particularly where it is narrow at the rail bridge and by somerfield car park and possibly the A22 bridge. All this can be simply achieved by putting in large concrete pipes or culverts in these places. There is no need to waste large amounts of time and money on these other schemes. Its simple, if the river flood capacity is x but maximum flood flow is 2x then the river bed needs to be enlarged to 2x.
Consultee ID: mrs stewart  
107127
Part of document: Document  Chapter  Section  Option 14h
Section of Document:
Your View  Agree  No opinion  Disagree
Reason for comment:
This site is outside the defendable boundary of the bypass, moving into unspoilt countryside. New employment sites should be situated next to new houses to facilitate less car use. This site would only increase car use as it is not easily accessed by other means, and is away from the existing house sites.

Consultee ID: mrs stewart  
107127
Part of document: Document  Chapter  Section  Option 15a
Section of Document:
Your View  Agree  No opinion  Disagree
Reason for comment:
Disagree with any development at Hailsham as it has no rail link and is therefore unsustainable and will lead to many more car journeys than sites in areas with a rail link. Also much of the land is low lying and flat and prone to flooding.

Consultee ID: mrs stewart  
107127
Part of document: Document  Chapter  Section  Option 16a
Section of Document:
Your View  Agree  No opinion  Disagree
Reason for comment:
These areas may fit with the SEP, but there should not be so much development at the expense of the rest of Wealden district especially the north. It is important to spread development over all areas due to the affordable housing needed in all areas and also to allow economic growth in all areas not just one. Clearly the infrastructure restraints will limit when and the number of houses that can be built in the plan period.

☐ document  ☐ chapter  ☐ section  ☑ option
Option 18a

Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

Disagree totally with any ideas for new settlements. This concentrates all development in one area to the detriment of all other areas in the district. In particular it will mean virtually all affordable housing will be in one place whereas it is needed in all areas. It will greatly affect areas of otherwise open countryside to a much greater degree than urban extensions to existing settlements. Also given the number of potential urban extension sites compared with the number of houses actually needed there is no need to consider new settlements at all. New settlements will also concentrate new car travel in one area causing a greater problem than if spread around the district.

Option 25a

Section of Document:
Your View □ Agree □ No opinion ✔ Disagree

Reason for comment:
there are not enough family homes being built. Particularly flats are only of use to young, single or old people. Terraced house with gardens are ok.
Option 25b

Reason for comment:
disagree of the 40% figure as this is likely to make sites uneconomic to develop and lead to less affordable housing not more.

Option 25c

Reason for comment:
Disagree strongly. This amounts to a 50% plus affordable housing target and will just stop many small sites coming forward as it will not be worth the owners developing them. Most smaller sites outside of the towns will be already developed to a degree and already have a use or value and will not be worth developing with a 50% affordable house aim. The only result of this proposal will be to stop windfall and small scale proposals in their tracks, actually reducing the numbers of affordable houses.

Option 25g

Reason for comment:
Consultee ID: mrs stewart
107127

Option 25d

Reason for comment:
Given that landowners are unlikely to agree to 100%, nil value to them, affordable sites, there is little point in allocating these as they would not come forward. It would be better to have the policy set out in 25e, which reacts to those landowners who wish to donate such land.

Option 25e

Reason for comment:
Your View
☑ Agree ☐ No opinion ☐ Disagree

Option 25f

Reason for comment:
With an ageing population and government incompetence with the tax money they raise there is less and less ability for older/disabled people to be looked after. Therefore allowing for family to help by this means should be permitted.

**Reason for comment:**
- build the road
Disagree as in most cases the sanctions will only make deliverability timescales worse. For instance if a development is not completed and then lost as suggested how long will it take for an alternative to gain planning permission and then be built? What will happen to the half built site? Given that the best sites will be allocated first does this then mean moving on to less sustainable and desirable sites if the first sites are not completed in time? What happens if there is an economic slump as in the late 80's and early 90's that most people seem to have forgotten about when house prices dropped dramatically and hardly any were sold? How will the sanctions suggested be of any use here. Is it currently legal to end a planning permission by condition or s106 once it has started? The best way would be to only give permission on those sites that have no constraints. The council singularly failed to do this with the NSP, ignored all objections and allocated sites that everyone else knew were undeliverable and the current mess is entirely of their own making.

A lot of what is proposed here and in the LDF really amounts to social engineering and is not something that planning control can have much or any control over. The spatial vision may be good if written for the LDF, Local Social Engineering Framework, but many of its aims are totally dependant on the population behaving in ways that the LDF cannot control i.e. the amount of travel by car cannot be limited by planning permissions as such, it can only be facilitated. If someone wants to drive and not use the bus this cannot at present be controlled by planning condition.

Reason for comment:

Important green belt should be protected.
Consultee ID: Mr Wormald 107128 Polegate Town Council

Option 4c

Section of Document:

Reason for comment:
Consider access unsuitable and consequent traffic impact.

Consultee ID: Mr Wormald 107128 Polegate Town Council

Option 16a

Section of Document:

Reason for comment:
Council consider that if this area is developed then a separate community would evolve that would be connected to the main town of Polegate in name only and would most likely become a dormitory suburb of people travelling out of the area to work and shop. It is difficult to see where any real planning gain for the town would emerge if this option was chosen for housing development. Although development in this area would be least intrusive for Polegate as a whole it is not difficult to envisage this type of development spreading towards Hailsham creating a conurbation. This would impact on the greenbelt around Polegate which Council believes is important to maintain and could also blight the views from the South Down which are shortly to achieve national park status. Polegate Town Council therefore recommend that no housing development is sited in the area known as 16a

Consultee ID: Mr Wormald 107128 Polegate Town Council

Option 16b

</table>

**Reason for comment:**

Council consider that this option is viable in that any housing development here could be integrated into the existing community causing little disruption to the town.

### Option 16e

**Section of Document:**

<table>
<thead>
<tr>
<th>Your View</th>
<th>Agree</th>
<th>No opinion</th>
<th>Disagree</th>
</tr>
</thead>
</table>

**Reason for comment:**

Dispite recent applications from developers in respect of this area council consider that there are too many issues with roads and infrastructure for development to be viable. Problems include poor sewerage facilities, the dangers of siting an access roundabout on Dittons Road in close proximity to a 'blind' bend and the fact that the area is too far out of the main centre of Polegate.
### Option 16f

**Reason for comment:**
Council are strongly opposed to any form of housing in this area. First, development would exacerbate existing traffic problems on the A2270, main road to Eastbourne, second development would erode the green belt 'gap' between Polegate and Willingdon and would encourage the development of a conurbation.

### Option 16g

**Reason for comment:**
Council consider that development of the town centre could be viewed as an opportunity to create a 'vision' for Polegate. This might include complete redevelopment of the existing 'Centre' with the aim to regenerate the shopping facilities in and around the High Street. Concerns exist over the potential to cope with existing lack of parking. Council consider that regeneration of the retail businesses in Polegate High Street would be preferable to housing developments in the town centre.

### Option 18h

**Reason for comment:**
Council consider that any new settlement proposed for this area will not be acceptable as it will encourage the development of a conurbation between the two towns.
Consultee ID: Mr Wormald  Agent ID:
107128 Polegate Town Council
Part of document: ☑ option
Option 18j

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
Council consider that the proposal to make a major new settlement at Berwick is very sustainable especially as it has an existing station with good links to London and Brighton. Development at Berwick would most likely take place over a period of 15 to 20 years. This could result in good planning gains for the settlement and surrounding communities and would go a long way to getting essential upgrades to the A27 trunk road. Council recognise some concerns that Berwick is seen as an easy option for delivering the housing requirements for the area and it was also recognised that planners had an ideal opportunity for developing a well integrated settlement that could really benefit the hamlet and the surrounding communities.

support Meresfield as being identified as having growth potential. Benefits of site identified: outside of AONB well located in terms of transport and services

Consultee ID: 107133 slatford
Agent ID: rps

Part of document: ☑️ option
Question Ten
Section of Document: Site Allocation Thresholds

Your View ☐ Agree  ☑️ No opinion  ☐ Disagree
Reason for comment:
A threshold of 15 + dwellings in or on the edge of villages would be appropriate
Section of Document:

Reason for comment:

should be examined. Area proposed for development of approx 80 dwellings to the south east of Maresfield (east of London road/high street). The site is not located within the AONB and is well contained within the existing landscape. The area is in close proximity to primary education and public transport and close to a range of services in Maresfield and Uckfield.

Reason for comment:

Densities should vary between individual sites and average density should be approx 40 dwellings per hectare with lower densities in some rural settlements.

Reason for comment:

The level of affordable housing provided at the site should be no greater than 30%.

Reason for comment:

Recommends the formation of ecological/multifunctional green network to create a sustainable and robust environment to address isolated natural sites, decline in biodiversity and impacts of climate change. In addition such a network would ensure that everyone has access to natural green space. This can be achieved by mapping relevant areas including floodplains and space in and around developments.

Part of document:  ☑ document  ☐ chapter  ☑ section  ☑ option

Section of Document:  

Your View  ☐ Agree  ☐ No opinion  ☑ Disagree

Reason for comment:

a main priority should be preserving what we have for the future the charm of our villages is good for tourism
Question 32a

Reason for comment:

Reason for comment:
green fields and rural tranquility should be preserved for the future generations.

Section of Document: Wealden's Landscape

Reason for comment:
Wealden's landscape conservation area boundaries should be reviewed.

Section of Document: Settlements in the High Weald Area of Outstanding Natural Beauty

Reason for comment:
Agree but should be confined to infill sites.
Option 5a

Reason for comment:
Priority to be given to infill/brownfield sites first.

Option 6a

Reason for comment:
Development in and around towns will enhance town facilities and minimise need to travel by car.

Option 7a

Reason for comment:

Option 7b

Reason for comment:
Growth potential should be based on needs of the village taking account of demographic and environmental factors and the sustainability of key services.
Option 7d

Subject to growth potential being based on demographic and environmental factors and the sustainability of key services.

Option 8d

Agree with one new settlement in the Low Weald area.

Option 21a

Any development should be carefully planned in terms of traffic management, sensitive integration with the village and energy saving.

**Part of document**: Option 24a, 24b, 24c, 24d

**Section of Document**: 

**Your View**: Agree

**Reason for comment**: Agree with density of 40 dwellings per hectare in towns.

Possible in towns.
Affordable housing should be in a ratio appropriate to the needs of the specific rural community.
Consultee ID: Mr Wheeler
Maresfield Conservation Group

Part of document: Option 25g

Section of Document:

Reason for comment:

Consultee ID: Mr Wheeler
Maresfield Conservation Group

Part of document: Option 25d

Section of Document:

Reason for comment:
Sites solely for affordable housing should be located in towns where services, transport and retail and job opportunities are more likely.

### Section of Document:

Transport Needs

### Your View

- [ ] Agree
- ✔️ No opinion
- [ ] Disagree

### Reason for comment:

There is a need for comprehensive traffic impact assessments related to new developments on the trunk road system throughout Wealden and the wider region. There is widespread concern over the adequacy of the present infrastructure and the impact of new developments in particular the A22.

Section of Document: Delivery

Your View □ Agree ✓ No opinion □ Disagree

Reason for comment:
Table 15 appears to be only a very limited list of Potential Infrastructure Requirements. There is widespread concern over the adequacy of the present infrastructure. There is a need for a more comprehensive list of requirements, including transport infrastructure and these should be related to Local Strategic Partnerships and Local Area Agreements.

Question Thirty

Section of Document: Infrastructure Requirements

Your View □ Agree ✓ No opinion □ Disagree

Reason for comment:
Uckfield’s flood relief scheme should not have to rely on developer contributions alone. It should be done urgently in any way it can be done. Table 15 appears to be only a very limited list of Potential Infrastructure Requirements. There is widespread concern over the adequacy of the present infrastructure. There is a need for a more comprehensive list of requirements, including transport infrastructure and these should be related to Local Strategic Partnerships and Local Area Agreements.

Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Mrs Reid
107146
Environment

Part of document: [ ] document [ ] chapter [✓] section [ ] option

Your View [ ] Agree [✓] No opinion [ ] Disagree

Reason for comment:
Section 1.28 states that "There is also a limited legacy of brownfield land, which means that a significant amount of new development will have to occur on greenfield sites." This statement may be a reflection of the 'rural' nature of the district, however the number brownfield sites (including windfall sites) have not been exhausted yet. The statement above may also be a reference to the number of 'large' sites which are derelict/abandoned, rather than the actual hectarage of land that may available for redevelopment. Contaminated Land - Suggested Wording We would want the inclusion of the following within any policies: · Encouragement of development on brownfield land · To reflect the environmental benefits from remediating land affected by contamination, particularly relating to the cost of remediation being paid for by the development. · Development on brownfield land and contaminated land must be conducted in line with Planning Policy Statement 23 (PPS23). There should also be some reflection of the council's own Contaminated Land Strategy and how this relates to environmental improvements and identifying brownfield sites.

Environment

Part of document: [ ] document [ ] chapter [✓] section [ ] option

Section of Document: Wealden's Landscape Character

Your View [ ] Agree [✓] No opinion [ ] Disagree

Reason for comment:
Box 1 South Downs - Draft Management Plan Objectives "Pure unpolluted air, soil and water to allow the landscape and wildlife of the South Downs to be maintained" This statement should be supported by references to the Water Framework Directive (WFD) and Groundwater Protection: Policy and Practice (GP3) as a large proportion of the South Downs area is classified as a Primary Aquifer (See GP3 for definition). Box 2 The High Weald "Is formed of alternate bands of sandstone and clay, interrupted by fast following rivers in steep valleys known as 'gylls'." We note that the ghylls are likely to be groundwater supported and therefore the quality of the groundwater will have an impact on surface water quality.
Reason for comment:
We are encouraged by the details you have included in paragraphs 2.16 to 2.18 which recognise the mosaic of habitats and landscapes (as well as habitat connectivity) that characterise Wealden. While this is an excellent starting point for a nature conservation policy, we offer the following comments that we would also like to see translated into your nature conservation policy/policies:

- The link between biodiversity conservation and sustainable development should be explained.
- UK and Sussex BAPs should be referred to.
- We will expect to see a policy for the conservation, restoration and enhancement of important UK Biodiversity Action Plan (BAP) Habitats and Species, (in line with UK BAP targets) plus other habitats and species in development sites and areas. It is essential that the requirement for retention of existing valuable ecological features and ecological enhancements is stressed, for any development (in line with PPS9). New development must not detrimentally impact natural biodiversity resources and should result in a net increase in biodiversity.
- Particularly, there should be locally site/area-specific policy that identifies the extent and quality of existing habitats in the Wealden district (and possibly any important links with habitats outside the District), any physical processes upon which they depend, and the species they support. The policy should propose improvements in the quality and extent of these habitats, as part of development. Furthermore, the connectivity of these habitats/areas must be protected and enhanced. A policy should aim to enhance connectivity and avoid fragmentation of habitats (in line with PPS9). Thus green infrastructure (providing ‘ecosystem services’ such as sustainable drainage and flood relief, and allowing ecological functioning) should be considered alongside other infrastructure requirements.
- The current information does not address climate change and its affects on species and habitats, designated sites and biodiversity. This must be covered along with the proposed mechanisms for mitigating for or adapting to this change.
- PPS9 requires the identification of areas suitable for habitat creation/restoration and enhancement within the LDF (this may consider impacts of climate change, as above).
- Ancient woodland is very important in Wealden, as is ghyll woodland, which is not mentioned in the current information. Ghyll woodland is an ecologically valuable, nationally rare habitat, found in the Weald of Sussex and Kent. Due to the steep Ghyll woodland valley form, ghyll woodlands are usually inaccessible, thus have been isolated from active management. As a result, they are frequently continuous ancient woodlands with untouched natural watercourses, providing a damp, shady microclimate undisturbed for hundreds of years. They have an associated group of plant and probably animal species not found elsewhere, and are especially important for mosses, lichens, ferns and liverwort communities. Therefore, depending on upstream land use, their ecological value is, or has the potential to be extremely high. Development proposed in areas of ghyll woodland may be inappropriate or may require large buffer areas similar to areas with ancient woodland, to protect such habitats from impacts of hydrological changes, human and pet disturbance etc. As you may be aware, we are supporting your Council at an appeal for a proposal at Downlands Farm in Uckfield. The reasons for our objection were the unacceptable ecological impact through loss valuable habitats such as ghyll woodland.
- Ecological/multifunctional green network approach We would suggest that adoption of a green network approach will help meet several of the above requirements and this should form one of the spatial policies. Furthermore the detailed requirements may be addressed by a SPD. We support the ecological/multifunctional green network approach and have suggested policy wording below. Our overall objectives in influencing the strategic planning process are to ensure that development occurs in a sustainable manner, appropriate to the local area. Our remit with regard to the multifunctional green network approach includes flooding, biodiversity, fisheries, water resources, water quality, and groundwater, and we aim to ensure development is sustainable from all of these perspectives. The multifunctional green network approach is to recognise, improve and increase natural green areas, their functions and the connections between them. This will help you to deliver,
for example, floodplain storage and to improve water resources and quality - making use of the functions of natural areas - as well as delivering improvements and meeting targets for biodiversity and recreation. In particular, the concern of the Environment Agency is the retention of watercourses with associated floodplains and wetlands intact, and creation and restoration of such features. These will form an integral part of the multifunctional green network. Including a policy into the core strategy, laying out the delivery of this approach, is strongly recommended, in order to guide future planning and deliver locally on national principles as set out in the UK Biodiversity Action Plans, PPS9, PPS25, and within Policy NRM4 of the draft South East Plan. Suggested wording for this policy is set out below, as developed in conjunction with partners from the Sussex Environment Partnership. The policy is worded such that it can be altered to be locally specific, and delivery determined in a locally appropriate way. Multifunctional Green Networks Policy - Suggested Wording We aim to establish an ecological network/a multifunctional green network to conserve and enhance our priority natural areas and the connections between them. The network will ensure that everyone has access to natural open space, and will maximise opportunity to conserve and enhance biodiversity, whilst delivering ecosystem services (e.g. sustainable drainage and flood storage), that contribute to sustainable development. New development will contribute to this network. The establishment of an ecological network will be achieved through: 1) Mapping of areas that could contribute to the network e.g. natural green space, floodplains. Opportunities for future expansion and enhancement will then be identified in line with national guidance, e.g. UK BAP, PPS9, PPS25 etc. 2) Creation of a scheme for achieving this network through the life of the plan, by (either/or/both): a. Multifunctional green space being provided within and around developments, with appropriate linkages to the existing/future network. Green space area and network additions to be proportionate to the size/cost of development. b. A green network fund to be administered (by council/independent local body), with financial contributions to be proportionate to the size/cost of development. 3) The expanding network will be mapped, monitored and protected from future development. Water Resources Section 2.34, page 23 of the Draft South East Plan does indeed state that a twin-track approach of water resource development and demand management will be pursued. However, it also states that: “In preparing Local Development Documents local authorities should require development that would use significant quantities of water to incorporate measures to achieve high levels of water efficiency, and reflect current best practice including BREEAM ‘very good’ and increasingly ‘excellent’ standards”. As a result of this, it is our opinion that a core policy relating to water efficiency is necessary. This need is further justified by the pressure on water resources across the Wealden District (identified through our Catchment Abstraction Management Strategies (CAMS)). Water Resources - Suggested Wording In terms of the type of policy and wording suggestions, we recommend one of the following two options: 1) A Core Strategy policy stating “All new development requires compliance with Level 3 of the Code for Sustainable Homes, stipulating a minimum standard of water consumption at 105 litres per person per day”. 2) In Section 2.34, the removal of the sentence beginning “A Core Strategy policy on this issue” and the replacement with “The Environment Agency’s Catchment Abstraction Management Strategies (CAMS) covering the Wealden District identify that water is often an over committed resource. As a result of this, a high level of water efficiency will need to be attained. The Design Guide Supplementary Planning Document (SPD) will provide further information on these policies”.

Page 4537 of 6217
Section of Document: Wealden's Biodiversity

Reason for comment:
As described previously, we require the following to be taken into account when selecting sites and developing policies within the Local Development Framework. 1) Ecological Surveys At any potential development site we will expect to see results of detailed ecological surveys undertaken at an appropriate time of year by a suitably qualified and approved ecologist (preferably Institute of Ecological and Environmental Management affiliated). Surveys should include 1) Phase 1 habitat surveys and 2) protected species surveys. Such ecological surveys should be used to determine the appropriateness of development and inform the design of any development appropriate to any existing ecological site features. 2) Protection of watercourses/wetland habitats. In our remit to protect and enhance wetland habitats we would object to the loss of any length of watercourse or loss of wetland habitats and species, and the detrimental implications for local biodiversity. Less obvious wet habitats such as wet grassland and marshy/boggy areas should be considered as well as watercourses, waterbodies, wet woodland and ghyll woodland. In the case of any wet habitat loss we would expect to see at least like-for-like habitat creation as compensation. It would be strongly supported should development areas retain existing watercourses and waterbodies (ditches, streams and ponds) as landscape features, and provide suitable enhancements to these features. Particularly important is to retain such habitat corridors generally, including watercourses, woodlands and hedgerows. Our policy states that we are generally opposed in principle to the culverting of watercourses because of the adverse ecological, flood defence and other effects that are likely to arise. No installation of new culverts within any watercourse on site should be considered unless there is no practical alternative or an existing culvert is being replaced like-for-like in the existing location. We would recommend that, where practical, any existing culvert is removed and converted to an open watercourse, or where access is required a clear span bridge is installed. At any proposed site, we would request that a buffer strip (minimum 5 metres; at least 8 metres for a main river) is maintained between the bank of any wetland/watercourse and any development or works. This is in order to maintain a functioning wildlife river corridor/wetland habitat for ecological, amenity and aesthetic reasons. Any works should be carried out sensitively, and for any site development that results in a loss of wetland habitat, we would expect species mitigation and compensation for habitat loss. 3) Enhancements and ecological networks. Throughout the proposed developments and the Local Development Framework ecological enhancements should be an intrinsic part of plans. Furthermore, retaining and enhancing any development site's ecological connectivity through ecological corridors and networks is essential. This is in keeping with PPS1 'Delivering sustainable development', PPS9 ‘Biodiversity and Geological Conservation’ and the South East Plan. Policy NRM4 of the Draft South East Plan seeks to avoid a net loss of biodiversity and to actively pursue opportunities to achieve a net gain of biodiversity across the region. PPS9 states how planning decisions should maintain, enhance, restore, and add to biodiversity interests, and recognises that development proposals provide opportunities for including beneficial biodiversity features as part of good design. Furthermore, PPS9 recognises the need to maintain, strengthen and integrate networks of natural habitats within development. Fragmentation and isolation of habitats should be avoided. 4) Sustainable Drainage Systems (SuDS) We actively promote the use of sustainable drainage techniques for the regulation and remediation of surface water run-off and to mitigate the loss of natural drainage patterns. We would therefore recommend that, if ground conditions are suitable, developments should consider these alternatives to more traditional drainage methods. Provision of ecological enhancements through use of SUDS would be encouraged. Drainage methods may include surface water fed features such as swales (wide grassed ditches), wet balancing ponds incorporating reedbeds, and wetland areas which will help to store and clean surface water. These can also be designed as beneficial wildlife, amenity and landscape features as part of an open space...
or a landscaping scheme for a development. 5) Designated sites We are particularly concerned with wetland areas and protected habitats. Some proposed areas are near to an SNCI or SSSI and will therefore be unsuitable if the development will result in any disturbance/loss of the SSSI or SNCI. In these cases, assessments of the impacts of any development on adjacent or nearby SSSIs/SNCIs will be required to inform the appropriateness of development. If development is to occur, extensive buffer areas will be expected between any development any SNCI or SSSI, and enhancements will be sought as part of the development. Particularly the Pevensey Levels SSSI and Ramsar will be easily impacted by hydrological and water quality impacts of development in its catchment. 6) Protected species Our remit is also concerned with wetland areas and associated species. Further information about species present may be available from the Sussex Biological Records Centre. Rare or protected species would require protection throughout development, and habitat enhancement for these species would be welcomed. A sustainable development/strategy/policy will consider and act to conserve and enhance all biodiversity interests. This includes internationally, nationally and locally designated sites, and other undesignated local areas of biodiversity importance including particularly valuable habitat features (such as ponds, watercourse corridors, woodlands, hedgerows, unimproved grassland etc.), wildlife corridors, and any sites with biodiversity interest. Indicators will therefore be, for example.: 1) Number, area and condition status of designated sites (SACs, SPAs, SSSIs, AONBs, SNCIs, NNRS, LNRs). 2) Extent of certain habitat types, e.g. ancient woodland, hedgerow, ponds, saltmarsh, heathland, particularly UK and Local BAP habitats. 3) Achievement of BAP targets (both species and habitats). 4) Achievement of Water Framework Directive (WFD) targets. 5) The number of developments (over a certain size?) incorporating biodiversity enhancements/proportion of the development area set aside for enhancements. These indicators need to be SMART so that improvements can be monitored.
we have major concerns that any broad areas for development can be considered without a sound SFRA in place. While we appreciate that this may be appropriate at Issues & Options stage, it will not be later in the process and certainly not for your Submission document. Once the SFRA’s have been completed, we expect that a number of broad areas being proposed in the Core Strategy may need to be withdrawn and/or boundaries revised. The recent decision where the Inspector found the Chichester District Council’s Core Strategy unsound sets a clear precedent for LPA’s with regards to flood risk (amongst other issues). The need for a precautionary approach with regards to flood risk has also been further highlighted by recent flooding throughout England. In terms of policy requirements for addressing flood risk, we would expect a core policy to clearly state that development will be steered away from those areas shown to be most at risk within Wealden. The evidence base and justification for the local context of flood risk issues in your district will be provided by your SFRA and therefore a clear linkage and reference should be made between the Core Strategy and SFRA. The actual policy framework for addressing flood risk will be dependant on the findings of the SFRA and we encourage you to keep an open mind about how the core policies can best address this. For example, the findings of the SFRA may indicate that a number of policies may be required - one for the north of the district, one for the south and perhaps one specific to a broad area within your District (i.e. Uckfield, Pevensey, etc). Within the policy/policies dealing with flood risk, the causes and effects of climate change (as they are likely to apply to Wealden) should be included and addressed, as should the requirements for Sustainable Drainage Systems (SuDS). Section 2.35, page 23 The District's coast is under continuous pressure from the action of the sea. The shingle beach along the Pevensey frontage requires regular maintenance to allow the Shoreline Management Plan policy of "Hold the Line" to be implemented. The shingle at the mouth of the Cuckmere River requires regular maintenance to prevent it blocking the river mouth. The Environment Agency will shortly be consulting on the proposed flood risk management strategy for the Cuckmere estuary. The remaining coastline consisting of natural cliffs is retreating at a mean rate of 0.3 to 0.4m per year, and the coastal management strategy at areas such as Birling Gap is one of "Managed Realignment". Section 2.36 "shore management plans" should be replaced with "Shoreline Management Plans" [For information there are two SMP's covering the Wealden coastline (1) The Beachy Head to Selsey Bill SMP and (2) The South Foreland to Beachy Head SMP.
It has been recommended that at Hailsham North and South STW’s a limit of approximately 2800 and 1900 respectively, new homes be imposed on housing beyond that already connected, as outlined in the “Planning for Water Quality and Growth in the South East” document. When we receive consultations on planning applications we would request the following condition regarding foul drainage be added to any planning permission granted for locations served by the Hailsham North or South STW’s. This is provided that Wealden District Council and Southern Water Services are satisfied that this figure has not yet been reached and therefore accept this proposal: We would not object to this development, providing the following planning condition is imposed: No development approved by this permission shall be commenced until a scheme for the provision and implementation of foul drainage works has been approved by and implemented to the satisfaction of the Local Planning Authority. The sewerage undertaker (Southern Water Services) should be consulted regarding the availability of capacity in the sewage treatment works. The applicant and/or Southern Water Services Ltd should demonstrate to the satisfaction of the Local Planning Authority prior to the commencement of any development that the sewage treatment works will have capacity for the new development without causing a breach in existing discharge consent standards. We are supportive of your reference made to the need for phasing with regards to infrastructure requirements as well as the possibility for using planning obligations in order to address infrastructure requirements and necessary upgrades.

Question 5c

Section of Document:

Your View  
☐ Agree  ☑ No opinion  ☐ Disagree

Reason for comment:
As already indicated, it will be necessary to make changes to boundaries and possibly revise potential sites following the completion of your SFRA.
The approach of classifying settlements based on their services and accessibility must also take account environmental constraints and opportunities, including biodiversity and nature conservation.

For any coastal development options particularly, it will be essential to consider development in line with climate change and its effects on biodiversity.

Bordered by ancient woodland and ghyll woodland and watercourses therefore sensitive location – will limit the extent of developable site and mitigation and huge buffers will be required. Protected species previously recorded.

The flows at Windmill Hill (Cowbeech, Herstmonceux, Windmill Hill), Alfriston and Ninfield Lunsford Cross (Ninfield, Lunsford Cross, Catsford) STW’s are believed to be at their consented level. Southern Water should be consulted on any proposals draining to these works and they will be required to apply to the Environment Agency to address the consent issues prior to accepting any additional foul drainage.

Consultee ID: Mrs Reid 107146 Environment

Part of document: □ document □ chapter ✔ section □ option

Section of Document: Infrastructure and Phasing

Reason for comment:
Water Quality and Pollution - Suggested Policy Wording Development should only be permitted where the local planning authority is satisfied that: · This would not lead to deterioration in the quality of surface or groundwater resources. Discharges should be considered from STW’s and infrastructure, as well as surface water discharges.
We also note that the impact on waste infrastructure has not been assessed in the options and alternatives tables for the broad areas. We highlight that the issue of waste in East Sussex is of strategic importance with disposal options high on the agenda. The Core Strategy should seek to help reduce the amount of domestic, commercial and industrial waste arisings in the District.

Given the issues associated with water quality in the District, we feel that it is essential that a core policy on ‘Infrastructure Requirements’ is included. The policy should focus on ensuring sufficient capacity exists (in local infrastructure), that arrangements (through Section 106 agreements for example) can be put in place and that a phased approach to development is sought. We suggest policy wording along the following lines, and would be filling to advice on detailed suitable wording for supporting text. Infrastructure Requirements To ensure the environment is not adversely effected development will be permitted if: (a) there is sufficient capacity in the existing local infrastructure; or (b) suitable arrangements have been put in place for infrastructure improvements; or (c) where extra capacity is required to service the development a phased approach is undertaken.
Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Question Twenty Nine

Section of Document:  Housing Delivery

Your View  Agree  No opinion  Disagree

Reason for comment:

30c - We note that water supply and growth scenarios have and will be assessed by the Water Resources in the South East (WRSE) Group. This group consists of the regulators such as ourselves, water companies and the Regional Assembly working in co-operation to assess the infrastructure needs of planned growth. Whilst draft South East Plan policy (NRM2) will seek to safeguard land for reservoir development, not all of the new water resource options listed in the Plan will be required. The SE Plan process will not appraise the options. Whilst the enlargement of Bewl is an option listed in the Draft South East Plan, it will be subject to a bid by Southern Water to build new resources, and regulatory appraisal by us/ OFWAT. A business case must be made having regard to other supply options including water demand management measures. It will also be subject to a separate planning application process. It is likely that any ‘in service’ date for new sources of water supply will be beyond the current life-cycle of the emerging Wealden LDF. The development options will need to address development phasing as you address in the earlier section of Part 7.

Consultee ID:  Mrs Reid  Agent ID: 107146  Environment

Part of document:  document  chapter  section  option

Question Thirty

Section of Document:  Infrastructure Requirements

Your View  Agree  No opinion  Disagree

Reason for comment:

30d - As noted above, there are environmental capacity limits around the existing works at Hailsham North and Hailsham South. This will dictate the location and/or extent of new growth/improvements to works and our most recent position on future developments discharging into these catchments is outlined in our general comments. It would clarify 30d to state that replacement/additional works may be needed outside their current locations, subject to growth options.
Reason for comment:

Uckfield The Cock and Bull pumping station has been shown to be causing an ecological impact and therefore we would require this to be upgraded prior to accepting any further discharge to this location. The Harlands Farm and Framfield Road pumping stations discharging to the Framfield Stream are beginning to show an ecological impact on the receiving water. Should a large amount of development be focused in this area we would wish to see improvements at the pumping station in the future. There are known sewer pipe work capacity issues in Uckfield and Five Ash Down therefore Southern Water should be consulted regarding development in this area. Hailsham The Horsebridge pumping station is beginning to show an ecological impact on the receiving water. Should a large amount of development be focused in this area we would wish to see improvements at the pumping station in the future. Polegate Polegate pumping station on the Willingdon Sewer has been known to cause water quality issues in the past. Should a large amount of development be focused in this area we would wish to see improvements at the pumping station in the future.

Reason for comment:

Whilst we support the inclusion of objectives that encourage development on previously developed land (SO2) and cover biodiversity (SO3), climate change and sustainable development (SO14), we suggest that these are reworded to cover wider environmental considerations such as water quality and flood risk. We have identified both of these as being major environmental constraints in your District and therefore feel they should be addressed in the objectives. We also note that the spatial objectives do not cover 'waste’ (i.e. the principles of reduce, reuse and recycle) and particularly within the context of sustainable development. We are also concerned that SO5 on housing potentially conflicts with a number of other spatial objectives and may not be “SMART”.

Reason for comment:

Your View ✓ Agree ☐ No opinion ☐ Disagree

Reason for comment:
site between the Boship roundabout, along the A267 (on the right going towards Horam) and bounded by the road which leads to Lower Horsebridge/Hellingly school could possibly take some development on the A267 side. For the following reasons: good road infrastructure; possibility of extending the primary school; potential adequate water/run-off management.

☐ document  ☐ chapter  ☐ section  ☑ option

Section of Document:

Question 14i

Reason for comment:
A definite plan to stop the River Uck flooding - covering more ground with roads, parking areas, patios, houses - less land to absorb water causing more flow to the Uck. Not only do the present problems have to be dealt with but also future ones created by heavier rainfalls, if we are to believe our experts concerning global warming. Infrastructure: Primary schools are already near or at full capacity Bus services - inadequacy needs improving More cars equals more congestion Doctors are already near or at full capacity Doctors: Buxted surgery copes extremely well with increased numbers but will need more local facilities to cope with added influx.

Increase in danger.

Consultee ID: Medland Boyer Planning Ltd  
Agent ID:  
107161

Part of document:  
☐ document  ☑ chapter  ☐ section  ☐ option

Section of Document:

Part 1

Reason for comment:
Development within AONB should be extremely limited in order to minimise the impact of additional housing on this specially protected landscape area. In this respect the controls of national and regional policy will severely restrict the potential of these areas for development. The authority should therefore focus development on the towns to the south of the AONB, namely Uckfield, Hailsham, and Polgate/Willingdon.

This DPD should seek to establish the appropriate requirements for the provision of renewable energy measures and other issues of sustainable development by relying upon the recently published Code for Sustainable Homes. There is no need to add additional controls within the DPD to achieve sustainable development.

The expansion of settlement boundaries should be focused on a significant evidence base which considers all the relevant issues associated with achieving development.
Consultee ID: Medland 107161 Boyer Planning Ltd

Part of document: option 6d

Section of Document:

Your View: Disagree

Reason for comment:
Urban/rural split should not be represented as a percentage split. The Core Strategy should be solely focused on identifying key directions for growth. The distribution of this growth will be determined on a site specific basis only, through the Site Allocations DPD.

Consultee ID: Medland 107161 Boyer Planning Ltd

Part of document: option 9a

Section of Document:

Your View: Agree

Reason for comment:
Development in Uckfield would have lesser impact on landscape, and it has greater concentration of services in contrast with other four towns of District, as well as greatest potential for town centre expansion and there are established housing needs and requirements in the area.

Consultee ID: Medland 107161 Boyer Planning Ltd

Part of document: option 14c

Section of Document:

Your View: Agree

Reason for comment:
Support growth in Uckfield. Prominent view of part of the southern area of the site can be mitigated against through careful design and landscaping. Development process can include additional services that are required. Support development south of Framfield Road. Sensitve design required to respect setting of farm house.
Density policies should not be decided at a local level. PPS3 adopts a national density guide which can be translated at a local level. Housing mix should be determined through the Housing Needs Survey.

Each specific allocation for development will need to take into account sustainable transport measures.

Developers' contributions have been agreed in relation to this item of necessary infrastructure, however there has been a significant delay in finalising the transport proposals which has served to stifle the implementation of permissions.

The acknowledgement of the need for an indoor pool in Heathfield is most welcome.

**Reason for comment:**
impact on quality of life (noise, dust etc.) Wildlife impact / loss of hedgerows and trees public transport traffic increase
The campaign would urge Wealden District Council to consider doubling the consultation period to 12 weeks. Para 2.5 and 2.7 contain significant inaccuracies. The South Downs National Park designation process has been restarted, contrary to what is stated in para 2.5. Para 2.7 states the earliest possible date for a national park may be 5 or more years ago. In June 2007 a Defra Minister stated that a decision would be taken no later than Autumn 2008. The campaign believes these errors should have been picked up by the Council and corrected in its website. Respondent raises concerns over the lack of consultation with Natural England / South Downs Joint Committee in delivery.

Fully support increasing energy from renewables, must be done in sympathy with surrounding countryside, particularly in / close to nationally designated landscapes such as the South Downs.

Disappointed that tourism features so little in the paper.

*Page 4578 of 6217*
respondent requests wording change in LDF concerning Glebe Land site for the new school to be changed from "site not suitable for primary school...because of access to..." to "site identified subject to satisfactory access arrangements for vehicular and pedestrian traffic being agreed." Respondent suggests that the present landowner would be very amenable to a road over his land, which would hug the outline of the present football pitch. Access point would be on Frant Hill.

object for following reasons: 1. restricted access/narrow lane 2. location in AONB 3. Remote from local amenities Respondent requests clarification on whether compulsory purchase will be used to obtain land for roadbuilding

specific for following reasons: 1. restricted access/narrow lane 2. location in AONB 3. Remote from local amenities Respondent requests clarification on whether compulsory purchase will be used to obtain land for roadbuilding

Reason for comment:  
Seen a huge change in traffic levels over last 3 years in Hellingly & Hailsham. Local services cannot cope. Employers are saying that on average, there are over 200 applicants for each job. Local transport is awful.

Consultee ID: Mr & Mrs Thomas  
107215  
Part of document: □ document □ chapter □ section ✔ option  
Question 16h  
Section of Document:  
Your View □ Agree □ No opinion ✔ Disagree  
Reason for comment:  
There are not enough facilities to allow for increases in the population of Polegate. Doctors, dentists and schools are severely stretched and Eastbourne Hospital can hardly cope with patient numbers. Policing is minimal, Polegate Police Station is closed overnight and vandalism is on the increase. Parking is a severe problem and new homes with more cars would add to the problem. Water companies cannot cope.
Mr Van Wyk  
Fire and Rescue Service

Option 15c

Fire and Rescue Service site in Hailsham is identified as suitable and viable for residential development. Site plan included. (Late representation)

Mrs Conquer

Option 13a

I am writing to object to the planig application for Benhall Road. This road is already busy and getting out on to Forest Road is dangerous, again an already busy and noisy road. There is also alot of wildlife in the area that is being pushed further and further out as the centre of Tunbridge Wells is being more and more devloped. House building should be done on Brown sites firstly and only when these have run out should undeveloped land be carefully considered.

Ms Chisholm

Wealden’s Landscape

Reason for comment:
I can only hope that as you swallow up more countryside the planners will allow room for wildlife to operate and move and that despite the obvious chaos on future road use the visual aspect of the South Downs and the Cuckoo Trail will remain unblemished.

**Reason for comment:**
Option 4d

Reason for comment:
Discourage large retail businesses (we have sufficient). Encourage small creative business. As the state of farming alters use unwanted farm buildings having brought them up to "Green" standards. Preserve village post office stores.

Question 16h

Reason for comment:
Polegate can barely handle the weight of traffic. Any further housing/business development will bring it to gridlock at peak times.

Consultee ID: Mr Ivimey

Question 16i

Reason for comment:
Consultee ID: Mr Ivimey

Part of document: Option 16j

Section of Document:

Your View No opinion

Reason for comment:
The council should buy large houses especially in large gardens to develop into flats and small houses as starter homes. There is no need for more large houses, the vital thing is housing for low income groups.

Your View ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
There is a need for small starter homes for small income workers. There is no need for large houses, industrial estates and retail shopping areas. One solution is for the council to buy larger properties with large gardens and to develop these into flats and small individual homes with efficient insulation and solar power. There are many farms with unused buildings which could be used for small local creature industries. Cycle tracks and cycle lanes should be further encouraged. God forbid if this area should turn into London by the sea. The human animal has dominated all other life forms in the process of producing "concrete jungles". It's about time people were charged for having more than two children and heavily charged for owning fuel guzzling cars. The saddest fact is that councils have to obey the dictates of a central government composed largely of town lovers. Local government should make it clear that any central government relies on the goodwill of local authorities to uphold the law and the are often in a better position to observe the local scene and advise realistically. The price of houses is artificially high and we are riding for a fall.

Question 31a

Section of Document:

Reason for comment:
I do not agree that so much emphasis should be focussed on the South East. Everyone would like to live there. Why not somewhere North for a change

Question 31b

Section of Document:

Reason for comment:
I do not agree that so much emphasis should be focussed on the South East. Everyone would like to live there. Why not somewhere North for a change

Question 32a

Section of Document:

Reason for comment:
Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

Consultee ID: Miss Cooper
Agent ID: 107427

Part of document: □ document □ chapter □ section □ option
Question 32b

Section of Document:

Your View □ Agree □ No opinion □ Disagree

Reason for comment:

London will expand to the coast in the near future. This present requirement will not be the end - too many 2nd homes and holiday homes and no room for indigenous youngsters to buy and remain locally. Too many developers pockets being lined. Not enough infrastructure. Schools, medical services, drainage etc let alone parking spaces, nursing homes, care homes, hospitals all are pushed to the limit. In the 60's the emphasis was relocating ministry's to Newcastle, Staffordshire, Cheshire etc & Wales - all these places need homes too. But everyone wants the South East and the land once lost is lost forever. When the war came my family was asked to move from London to the North East with the ICI where my father worked - it was not too bad. The South East will capsize in time with the burden of too many buildings - think of the recent floods.

Part of document: Option 3d
Section of Document:
Your View: Disagree
Reason for comment:
Option 5b

Section of Document:
Your View  ☑  Agree  ☐  No opinion  ☐  Disagree
Reason for comment:

(5a) How can they be maintained but expanded, can't be both.

Option 6b

Section of Document:
Your View  ☑  Agree  ☐  No opinion  ☐  Disagree
Reason for comment:

Option 7a

Section of Document:
Your View  ☑  Agree  ☐  No opinion  ☐  Disagree
Reason for comment:
(7d) Regrettably redundant shops would be better as houses than left empty. Business rates are too high.

<tr>
<td>Reason for comment:</td>
<td>I have only answered questions relating to Mayfield and which I understand. There have been restrictions placed on the Love Lane site because it was originally commercial. This has made it unavailable for developers. In my view there is no current need for business premises in this area as there are plenty of empty shops and farm units. We need small homes for key workers - our primary school teachers come from afar - widows, starters etc., but they must have restrictions that they can only be sold on to locals and at a 'capped' price. Car parking and smallish gardens very desirable. There are other possible sites also.</td>

Reason for comment:

Caines RPS Planning 107484

Part of document:  
- option

Section of Document:

Your View  

Agree

No opinion

Disagree

Reason for comment:

-rigid requirements may make some schemes unviable/some sites may not come forward -object to any specific requirements of renewable energy provision unless the viability issue is made clear in the policy

Page 4680 of 6217
Option 3a

Reason for comment:
-residential/mixed use development in certain circumstances should be promoted on allocated employment sites that are run down/vacant and/or poorly located -recommended that Wealden District Council should review their non housing sites within this area as some may be better used for housing/mixed use development

Option 24a

Reason for comment:
Densities of 30 dwellings or more should be promoted. This is to maximise and efficiently developed land in accordance with Government Guidance

Housing Needs - Affordable Housing

Reason for comment:
FNH would request that if the council decide to include a policy which specifies when the provision of affordable will be sought on site it takes to account the following: -due consideration is given in the policy to the need to have regard to the specific circumstances of each site including economic viability -any specific requirement for affordable housing should be indicative and should be open to negotiation to accord with current Government guidance in circular 6/98 -any policy proposed by the council should therefore make it clear that each case will be treated on its merits
Consultee ID: Caines
107484 RPS Planning

Part of document: Option 25a
Section of Document:

Your View: Disagree
Reason for comment:
The council should not make specific reference to the mix and size of units to be provided on sites. The composition of residential development should be determined by developers at the time an application is submitted.

Consultee ID: Mr Minshull
107544 Highways Agency

Part of document: Part 1
Section of Document: Context

Your View: Disagree
Reason for comment:
Paragraph 1.24 points out that the council may, if it wishes justify a higher level of housing. The Highways Agency would not support an additional allocation of housing at the Sussex coast. The A27 is already at or nearing capacity and could not accommodate the traffic that would be generated by additional dwellings on top of the South East Plan allocation.

Consultee ID: Mr Minshull
107544 Highways Agency

Part of document: Option 3d
Section of Document:

Your View: Agree
Reason for comment:
The Highways Agency seek policies to reduce the level of car based travel and encourage sustainable travel. This option has the greatest potential to reduce car based trips.
Part of Document:  
Question 4e

Section of Document:  
Wealden's Settlement Pattern

Reason for comment:
While development in Hailsham would have a lesser impact on the Trunk road network compared to Polegate. The Highways Agency is not yet in a position to give a view on the options in question 4.

Part of Document:  
Part 4

Section of Document:  
Wealden's Settlement Pattern

Reason for comment:
Whenever possible development should be in locations where there are alternative transport nodes available or can be readily improved or provided. Outside settlement boundaries options and opportunities for modal shift should be carefully opened.

Part of Document:  
Question 6d

Section of Document:  
Wealden's Settlement Pattern

Reason for comment:
Wherever possible development should be in locations where there are alternative transport nodes available or can be readily improved or provided. Outside settlement boundaries options and opportunities for modal shift should be carefully opened.

</tr>
</thead>
<tbody>
<tr>
<td>107544</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Part of document: Option 7e

**Section of Document:**

**Reason for comment:**

Wherever possible development should be in locations where there are alternative transport nodes available or can be readily improved or provided. Outside settlement boundaries options and opportunities for modal shift should be carefully opened.

<table>
<thead>
<tr>
<th>Consultee ID:</th>
<th>Mr Minshull</th>
<th>Agent ID:</th>
</tr>
</thead>
<tbody>
<tr>
<td>107544</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Part of document: Option 8d

**Section of Document:**

**Reason for comment:**

Development in Hailsham is likely to have a lesser impact on the trunk road network than the development at Polegate, however, Polegate has the greater opportunity for sustainable travel. Each of the options require assessment for transport implications.

<table>
<thead>
<tr>

#### Part of document: Part 5

**Section of Document:**

**Reason for comment:**

The Highways Agency seeks policies aimed at reducing the level of commuting in and out of the district by balancing housing and employment. The Highways Agency will be looking to Wealden to provide and encourage sustainable travel for new and existing development. Development in Polegate and Hailsham will require improvements to the A27, using developer contributions. This could be delivered through "roof tax" using developer contributions SPD, options for broad development locations should be tested for their transport impact, ideally using transport models undertaken in partnership with Eastbourne. The regional assembly has only prioritised the A27 Willingdon bypass for delivery by 2016. A Selmeston bypass has not been prioritised for delivery by 2016 and is unlikely to receive a high priority beyond 2016. The Highways Agency does not have a remit to look at any options to the North of Arlington reservoir as it would not meet the requirements set out by the then Secretary of State for Transport in his announcement on the South Coast multi-modal study. The Highways Agency will not support direct access of the Trunk Road Network for development sites.

Section of Document:

Question 22e

Reason for comment:
Support the allocation of land adjacent to brewers arms pub, vines cross for residential development. Map included.

Consultee ID: Mr Minshull
107544 Highways Agency

Part of document: □ document ✔ chapter □ section □ option

Section of Document: Wealden's Communities

Reason for comment:
Transport - The Highways Agency supports policies that are aimed at encouraging modal shift away from the use of the private car and reduce the levels of commuting in and out of the district.

Consultee ID: Mr Minshull
107544 Highways Agency

Part of document: □ document □ chapter □ section ✔ option

Question Thirty

Reason for comment:
It is noted that the options 30a and 30b in the potential infrastructure requirements have been separated although the Highways Agency's schemes consist of Wilmington and Selmeston bypasses with the east end of the wilmington bypass being the A27 - A22 link. It is unlikely that the Selmeston bypass will be high priority after 2016 and while the Wilmington bypass has been prioritised for delivery in the period upto 2016 the Highways Agency has yet to identify a workable, deliverable improvement at Wilmington village itself. We are working with Wealden and developers to identify a workable solution for the A27 - A22 link. In addition the Highways Agency is continuing with smaller scale improvements to the A27 between Polegate and Beddingham. Given that the LDF is likely to run to 2026, it is possible that some form of improvement over and above the small scale could be delivered later in the plan period.

Consultee ID: Ms Taylor
Agent ID: 107726
Part of document: ☑️ option
Option 7d

Section of Document:

Your View ☑️ Agree ☐ No opinion ☐ Disagree
Reason for comment:

Hailsham is big enough already - more housing and services = more out of town supermarkets etc, killing off the market town centre. Hailsham already has social problems linked to too much housing.

Consultee ID: Ms Taylor
Agent ID: 107726
Part of document: ☑️ option
Option 8a

Section of Document:

Your View ☑️ Agree ☐ No opinion ☑️ Disagree
Reason for comment:

A qualified agreement. Polegate, Willingdon and Eastbourne all merge already.

Consultee ID: Ms Taylor
Agent ID: 107726
Part of document: ☑️ option
Option 8b

Section of Document:

Your View ☑️ Agree ☐ No opinion ☐ Disagree
Reason for comment:

This would eventually merge Polegate and Hailsham, creating an urban area which would link all the way from Eastbourne to Hailsham.
Consultee ID: Ms Taylor  Agent ID: 107726

Part of document: Option 8d

Section of Document: Numerous reasons why not. One is that it would put too much pressure on the already creaking infrastructure - roads, water, hospitals etc. It would also cause the urbanisation of a rural area.

Consultee ID: Ms Taylor  Agent ID: 107726

Part of document: Question Ten

Section of Document: Site Allocation Thresholds

Reason for comment: This is too open-ended. 30+ or 15+ could lead to 3000+.

Consultee ID: Ms Taylor  Agent ID: 107726

Part of document: Option 15a

Section of Document: Unless this was a very small development of less than 100 houses immediately north of the A271. It would disrupt the wildlife corridor from the Cuckmere River to the Pevensey Levels. It would also cause too much traffic on the A271 and around the Boship area.

Consultee ID: Ms Taylor  Agent ID: 107726

Part of document: Option 15b

Section of Document: The sewage works would be a deterrent unless it was a very small development of a maximum of 50 houses. It is also very close to an area of flooding.
Part of document: Option 15c
Section of Document:
Your View  □ Agree  □ No opinion  ☑ Disagree
Reason for comment:
The only suitable part would be the brownfield site south of Vicarage Lane to the church. North of Vicarage Lane is too low lying - flood risk and other environmentally sensitive issues.

Part of document: Option 15d
Section of Document:
Your View  □ Agree  □ No opinion  ☑ Disagree
Reason for comment:
Too low lying. Close to the sewage works. Access roads are narrow; no direct way out except through Hailsham town centre.

Part of document: Option 15e
Section of Document:
Your View  □ Agree  □ No opinion  ☑ Disagree
Reason for comment:
Unless it was a very small development of a maximum of 100 houses, but access is difficult and a small development would not qualify for a new road. A new road from the Speedway roundabout would damage the woodland. What is the "Scheduled Ancient Monument"?
Consultee ID: Ms Taylor
Agent ID: 107726

Part of document: option 15f

Section of Document:

Your View: Disagree

Reason for comment:
Ancient woodland. No public transport from Hailsham. No pedestrian access. Very dangerous access to A22 at present. Creeping invasion of Hailsham; once it has spread west of the A22 where will it stop?

Consultee ID: Ms Taylor
Agent ID: 107726

Part of document: option 15g

Section of Document:

Your View: Disagree

Reason for comment:
This question only asks for comments, not agreement or disagreement. But I cannot make a comment without saying "yes" or "no"! On the whole Hailsham is only suitable for small scale developments as the infrastructure cannot cope with any more. The town has really already reached its natural limits, bounded by the Pevensey Levels, A22 and A271.

Consultee ID: Ms Taylor
Agent ID: 107726

Part of document: option 15h

Section of Document:

Your View: Disagree

Reason for comment:
In principle - anyone would. However, these will only happen if there is significant growth as they nearly all require developer contributions and many are not included in the South East Plan; in particular, healthcare.
Consultee ID: Ms Taylor
107726

Part of document: ☑ option
Option 16a

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
A small employment development would be suitable. Not housing as it is too cut off from Polegate.

Consultee ID: Ms Taylor
107726

Part of document: ☑ option
Option 16b

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
But a smaller development than in the document and only if contained within the natural "bowl" by Cophall roundabout. It must not encroach on the woodlands.

Consultee ID: Ms Taylor
107726

Part of document: ☑ option
Option 16c

Section of Document:

Your View ☑ Agree ☐ No opinion ☐ Disagree

Reason for comment:
A small development only. Low lying land = flood risk.

Consultee ID: Ms Taylor
107726

Part of document: ☑ option
Option 16d

Section of Document:

Your View ☐ Agree ☐ No opinion ☑ Disagree

Reason for comment:
Poor infrastructure. Only suitable as in Q4.c around Dittons for small-scale employment/industrial.
Consultee ID: Ms Taylor
107726
Part of document: ☑ option
Option 16e
Section of Document:
Reason for comment:
But small development only. Consider the amount of traffic exiting onto Dittons Road.

Consultee ID: Ms Taylor
107726
Part of document: ☑ option
Option 16f
Section of Document:
Reason for comment:
However, access to the A2270 is a problem here. It is a very busy road now and would put pressure on Eastbourne services. Also primary healthcare considered to be a problem here. Fairly small development only.

Consultee ID: Ms Taylor
107726
Part of document: ☑ option
Option 16g
Section of Document:
Reason for comment:
Only small brownfield areas suitable. Part of the car park has already had a block of flats built upon it. Parking is a problem in Polegate.

Consultee ID: Ms Taylor
107726
Part of document: ☑ option
Question 16i
Section of Document:
Reason for comment:
In principle. However, as with Hailsham, these will only come about with developer contributions which will mean large-scale growth.

Option 17a

Part of document: Option 17a

Reason for comment:
But too many houses suggested. A maximum of 100 would help to balance the development on the other side of Dittons Road.

Option 17b

Part of document: Option 17b

Reason for comment:
Again, I have to "disagree" to make a comment! Why has it been suggested that 7/8 of the entire District's housing allocation be put in a place where its only "attraction" is a train station with limited destinations? This does not cater for "local needs". In the 2004 survey there was "0" need for affordable housing in Berwick Station!

</tbody>
</table>
Option 18g

Reason for comment:
This would cause too much traffic on the narrow roads towards and onto the A271, A267 and A22.

Option 18h

Reason for comment:
This would eventually cause the merging of Hailsham with Polegate, Willingdon and Eastbourne.

Option 18i

Reason for comment:
This would be highly visible from the South Downs. The A27 is heavily congested here. It would cause too much traffic on Thornwell Road, Bayleys Lane, Caneheath and "rat runs" through to the A22. This area is too remote for affordable housing and the only public transport is the expensive train. It would create an expensive commuter dormitory area. The low-lying land is prone to flooding. There is no infrastructure here. No development at all would be suitable here.
Option 18j

Reason for comment:
This would be highly visible from the South Downs. A town the size of Uckfield could not be hidden in folds of land as suggested. There is a complete lack of infrastructure and developer contributions would have to be very high. The A27 is very congested here. There are "rat runs" already through the narrow lanes to/from the A22/A27. The surrounding lanes are mostly not wide enough for 2 cars to pass - very dangerous. Cuckmere River/Valley very sensitive area and Arlington Reservoir SSSI. 2 high voltage power lines north east of reservoir. Land bridge over railway would completely destroy the existing village. A new town would be detrimental to the shop, post office and garage (if they were not demolished for the land bridge) as they could not compete with the supermarkets etc. Provision for healthcare: "lag of several years between new housing growth and the funding allocated to health providers". It would encroach upon villages of Arlington, Selmeston and Chalvington and increase traffic through Alfriston. Urbanisation of the countryside. Small infills of 1-5 units suitable as suggested in Villages background paper only.

Option 23b

Reason for comment:
But the A22 Boship is congested and this would potentially interrupt the wildlife corridors from the Cuckmere Valley and Pevensy Levels.

Option 25a

Part of document: Option

Section of Document:

Your View: Agree

Reason for comment:
Not an agreement or disagreement. This will only be the picture in 2026 if development is spread throughout the District and brownfield sites are used effectively.

Consultee ID: Ms Taylor
Agent ID: 107726

Part of document: Option

Section of Document:

Your View: Agree

Reason for comment:
Some of these objectives will be negated by the new settlements suggested, especially Objectives SO1, SO2 and SO3.
Reason for comment:
The debate about 'new settlements' which in our locality would in fact mean a 'new town' has not taken place and yet a 'new town' is proposed which would in effect wipe out Berwick, Arlington and Wilmington, three rural villages. The government has not asked for new towns/settlements to be built in order to meet housing targets. Wealden District Council should have the debate about new towns/settlements before proposing them.

Reason for comment:
Main issues for opposing New settlement option at Berwick: -Ecological sensitivity of the area (Old Brickyards; Arlington Reservoir SSSI & LNR; Cuckmere River Valley; Middle Gate Marsh SSSI; Ludlay Copse & Pond; Areas of wet flushes and rough and unimproved grassland) -Social and Environmental Problems of New Settlements Recent housing surveys in this locality do not show a demand for affordable homes in this area on the scale proposed. There is no indication that there are employment opportunities to match the scale of this development. -Lack of Infrastructure The level crossing is renowned locally for being 'more down than up' and causes regular tailbacks already. A bridge would almost certainly be necessary -High Water table The above points are a summary to the submitted comments.

Reason for comment:
Should fully utilise brownfield sites and empty dwellings. Flood risk. Unrealistic to expect necessary infrastructure for new settlement will be deliverable eg roads - Lewes - Uckfield reinstatement, A27/A22 dualling. If a new station could be achieved service would be poor. Impact on historic and character at Isfield. Ecological impact

Reason for comment:
Your View

Reason for comment:
No matter how much development is undertaken in the AONBs there will always be pressure for more development in the AONBs because such a large proportion of the population wants to live in the nicer parts of the country. Preserving AONBs is much more important than providing housing, for which the demand will never cease. Development cannot be reversed and once developed the AONBs will be lost for ever.

Reason for comment:
The target should be higher.

Mr Ford
Part of document: Option 13a
Section of Document:
Reason for comment: Has the merit of not building in AONB or Green Belt whilst 'infilling' in Tunbridge Wells
Option 20b

Reason for comment:
The narrow and congested Wadhurst High St. is already a very severe constraint on north/south traffic movements at most times of the day and there are no practical options for a by-pass or to provide more off-road parking. The large scale development being considered would 'gridlock' the High St. Although Wadhurst benefits from a station, the car park is full to capacity from early morning and there is no room for any more extensions. In addition development on the scale being considered would be unacceptable in an AONB.

Option 22a

Reason for comment:

Option 25d

Reason for comment:
In practice it is impossible to provide 'appropriate controls' (and certainly in the longer term) and in practice this is largely a backdoor route to residential development in areas in which it would not otherwise be permitted - witness the number of spurious 'nurseries', 'chicken farms' and other 'agricultural businesses'.

This would be a case of the 'tail wagging the dog'.

It's trying to be all things to all people. It should focus on Protecting Wealden’s Beautiful Landscapes. I also agree entirely with the sentiments expressed by Mr Korth and Mr Wishart.

Consultee ID: Mr Herbert 107737
Part of document: □ document □ chapter □ section ✔ option
Section of Document: Option 5a

Your View  ☑ Agree  □ No opinion  □ Disagree
Reason for comment:

We agree that settlement boundaries should be maintained but expanded where needed to allow for necessary growth.
Reason for comment:
Due to the rural character of the District, it is unrealistic to allocate more than 60% of housing development to the main urban settlements as these areas are limited in number, are subject to environmental/landscape constraints, would not meet the housing need of the district and would jeopardise the delivery of housing targets given the acknowledged infrastructure constraints to development in the Sussex Coast policy area.

Reason for comment:
We support the option to amend settlement boundaries to allow for necessary growth. If growth is considered appropriate then settlement boundaries should be amended otherwise there is the danger that piecemeal development could occur which would damage the rural character of the District. We support amendments to the settlement boundaries to the south of Maresfield as outlined in our submission text.
We agree with the emerging approach for classifying settlements based on their services and accessibility. However, the classification should be subject to regular review in light of changes to service provision after development has occurred or as a result of re-organisation of services.
We agree that this is the correct approach to classifying villages. Although, it is premature at this stage to place limits to that growth; growth limits should be identified through a more detailed assessment of settlement and site capacity.

We agree that development which would see the large majority of planned housing growth taking place in the villages with 'growth potential'.

We agree with an Uckfield Focus, as Uckfield (unlike Heathfield) benefits from strategic access which will be enhanced by the central rail corridor scheme. Additionally, Uckfield in contrast to Crowborough is a relatively unconstrained settlement in terms of environmental constraints. This option for growth must allow for a balance and distribution of growth that is socially, economically and environmentally sustainable, where settlements have suitable access to key community services and facilities. A growth strategy can often direct all or most growth to main settlements, neglecting the needs of smaller settlements, which, with some growth, have the ability to strengthen and improve existing services and facilities and public transport usage to larger settlements. It is not clear what role rural settlements will play in the three options identified above for the 'rest of Wealden'. We would support villages with growth potential being part of the proposed approach to focus development on one or more of these three urban settlements.

**Section of Document:** Option 14a

**Your View**
- ☐ Agree
- ☐ No opinion
- ☑ Disagree

**Reason for comment:**

We disagree with the broad search area to the north west of Uckfield for new development. This area is unsuitable for development, as outlined within the reasons for refusal by Wealden District Council, for the Downlands application and furthermore, development within this area would also have an adverse impact on landscape setting.
Maresfield is identified as a Village with Growth Potential in the Wealden LDF Core Strategy Issue and Options Consultation Paper (July, 2007) with a strategic potential for up to 500 dwellings. The potential for further development to the South of Maresfield has been acknowledged by the Council in its recent decision to grant outline planning permission for 80 dwellings at Park Farm. This permission is subject to a condition to ensure provision is made for future vehicular access to avoid prejudicing the future development of adjoining land South of Maresfield. The proposed mixed use development located to the south of the village, including Park Farm, provides a substantial and important opportunity to strengthen the existing community by building a stimulating environment which enhances the role of the village as a place to live, work and visit. Development at South of Maresfield will be of a high quality which respects the past form and character of Maresfield. Future investment has the potential to allow for local and strategic interventions to meet a range of local needs, particularly affordable housing, and provide better, or improve existing, village services and facilities. It would also provide the opportunity to address the existing problems associated with rat-running through village roads.

Maresfield provides the most sustainable location around Uckfield. Please see section 2, 3 and 4 of our hard copy submission entitled 'The Renaissance of Maresfield - Wealden District Council Core Strategy Issues and Options Consultation'.

We disagree that affordable housing should match one to one with general market housing units. Whilst we agree that such units are incorporated into development, the implications of this option would make many sites unviable and would also compromise other infrastructure requirements.
### Option 27a

**Consultee ID:** 107737  
**Mr Herbert** Colin Buchanan  
**Agent ID:** 102605  
**Mr Pounder** Colin Buchanan

**Part of document:**  
- ☐ document  
- ☐ chapter  
- ☐ section  
- ☑ option

**Reason for comment:**

We agree that development should be located where it might improve the viability of bus services to and between towns. Development will increase patronage and help sustain existing and new services.

### Option 27f

**Consultee ID:** 107738  
**Mr Marshall**  
**Agent ID:**  

**Part of document:**  
- ☐ document  
- ☐ chapter  
- ☐ section  
- ☑ option

**Reason for comment:**

We disagree with this option as a more sustainable approach to car parking standards should be advocated, incorporating the need for residential travel plans.

### Option 2a

**Consultee ID:** 107738  
**Mr Marshall**  
**Agent ID:**  

**Part of document:**  
- ☐ document  
- ☐ chapter  
- ☐ section  
- ☑ option

**Reason for comment:**

The 10% target is too low in the current global climate context and should be seen as a minimum objective.

### Option 2b

**Consultee ID:** 107738  
**Mr Marshall**  
**Agent ID:**  

**Part of document:**  
- ☐ document  
- ☐ chapter  
- ☐ section  
- ☑ option

**Reason for comment:**

The current target is too low in the context of the threat from global warming - rich countries should be taking the lead.
Option 5a

Reason for comment:
Settlement boundaries should be strict and maintained. A policy of some discretion will encourage endless speculative land acquisition and planning applications beyond current boundaries, leading to inevitable drift in shape and size of settlements.

Option 5b

Reason for comment:
"Small scale development outside settlement boundaries" is exactly the sort of policy to encourage speculative land purchases and planning applications, leading over time to erosion of current boundaries in an unplanned and undesirable fashion. Settlement boundaries should be maintained.

Option 19a

Reason for comment:
Forest Row cannot sustain growth without serious adverse impacts. Traffic congestion is already very severe and would get worse. Flood risk in the village was demonstrated graphically this summer and would be worsened by any development that increased immediate runoff into the village's watercourses. Forest Row is a successful and sustainable community precisely because it is separate from East Grinstead and not perceived as a suburb. Any development to the north and west of the village would undermine this.

Part of document: Option 13a

Section of Document:

Your View: No opinion

Reason for comment:

1. Impact on ecology. 2. Impact on infrastructure & local services - e.g. schools. 3. Traffic impact
Consultee ID: Mrs Sevious

Part of document: Option 15a

Section of Document:

Reason for comment:
Impact on local character Traffic impact - need a roundabout at A22/Hempstead Lane junction and traffic calming. Lack of infrastructure including buses, rail, healthcare, water supply, drainage and electricity Environmental impact Flood risk

Consultee ID: Mrs Sevious

Part of document: Question 15h

Section of Document:

Reason for comment:
Support the need for a new park for the town, such as Hampden Park

Consultee ID: Citiscape Citiscape Developments

Part of document: Option 3a

Section of Document:

Reason for comment:
Because this is in line with national and regional policy. Potential use should be specifically identified.

Consultee ID: Citiscape Citiscape Developments

Part of document: Option 3b

Section of Document:

Reason for comment:
This would lead to unsustainable and unsuitable patterns of development
Option 5a

Reason for comment:
Because of the need to allow the natural growth and evolution of settlements.

Option 5b

Reason for comment:
Used in conjunction with 5a this would allow for the natural growth and evolution of settlements especially in smaller settlements.

Question 5c

Reason for comment:
The northern settlement boundary of Hailsham should be extended to include the former Flour Mill to the north of Upper Horsebridge Road. The area would be suitable for a mixed use of development enabling the re-use of the Brownfield site, The site has good access to the centre of Hailsham.

Option 6a

Reason for comment:
Because this is in line with national and regional policies and is the most sustainable option in terms of being close to existing employment, services and infrastructure.

**Part of document:**  
- [x] option

**Section of Document:** Option 8a

**Your View**  
- [ ] Agree
- [ ] No opinion
- [x] Disagree

**Reason for comment:**

Citiscape Developments Ltd agrees with option 8a which would seek to focus future development in the Sussex Coast Policy Area at Hailsham. As paragraph 4.42 of the Issues and Options Paper confirms, development at Hailsham will assist with the regeneration of the town and the location also benefits from greater strategic infrastructure capacity than Polegate. Hailsham’s position being distant from both the Sussex Downs and High Weald Areas of Outstanding Natural Beauty (AONB) are also a distinct advantage over Polegate with its close proximity to the AONB.

Consultee ID: Citiscape  
107742 Citiscape Developments

**Part of document:**  
- [x] option

**Section of Document:** Option 8d

**Your View**  
- [ ] Agree
- [ ] No opinion
- [x] Disagree

**Reason for comment:**

Option 8d with the requirement for considerable investment in infrastructure to support new settlement is considered to be unrealistic. It would involve a lengthy and unpredictable lead in time before delivery of the required development could occur which is not an option for the District given the significant level of housing provision that has been identified. Its impact on the local environment would also be considerable.

Agent ID: Mr Wojtulewski

Part of document: □ document □ chapter □ section □ option
Option 5a

Section of Document:

Your View □ Agree □ No opinion □ Disagree

Reason for comment:
Essential to accommodate natural growth of suitable settlements in the district. Lack of brownfield sites and limited growth areas for new developments support this option. Comprehensive review of town boundaries are required.

Consultee ID: Gale
Agent ID: Mr Wojtulewski

Part of document: □ document □ chapter □ section □ option
Option 5b

Section of Document:

Your View □ Agree □ No opinion □ Disagree

Reason for comment:
Provided it is additional to 5a. Used on its own it may restrict development. It would appear more appropriate for smaller settlements where potential for greater development is limited.
### Question 5c

**Reason for comment:**
A minor amendment to the existing settlement boundary at Keld Drive to accommodate residential development is proposed. Consists of the house 22 Keld Drive and its large garden. A highly sustainable location being within walking distance of the Town Centre of Uckfield. The Dwelling is already within the development boundary. Only 0.3 hectares of land on higher ground is proposed, representing a small extension to the built up area. Additional tree screening could be incorporated which would add character to the area. The Environment Agency has raised no objections to this proposal with regards to flood risk. Peak levels during the 2000 floods were 21-21.3 AOD and that a further 0.44M should be added to take into account climate change.

### Option 6a

**Reason for comment:**
The most sustainable option in terms of ensuring development is located close to existing employment, services and infrastructure.

### Option 9a

**Reason for comment:**
Paragraph 4.46 provides justification which is supported. The options of splitting development with Crowborough and Heathfield would cause harm to AONB, contradicting natural planning policy.
Reason for comment:
Would exclude acceptable but smaller development sites, criteria based policies would provide no certainty and result in delays in delivery of high levels of housing. The acute need to provide housing should not prevent the council from saving time at the examination.

Reason for comment:
Concentrate development closest to town centre of Uckfield and at the most suitable options with minimal impact on surrounding landscape.

Reason for comment:
Requires clarification. Could be interperated that 40% level of affordable housing would apply for all new schemes (regardless of size). This is clearly not correct as small developments would not be viable. Suggest a threshold on ten or more units.

Consultee ID: Pelham Homes  
Agent ID: Mrs Owen
107745 102625 Jennifer Owen & Associates Ltd.

Part of document:  
Section of Document: Settlement Boundaries

Your View  
Agree  No opinion  Disagree

Reason for comment: Respondent questions the appropriateness of a criteria-based policy for settlement boundaries.

Consultee ID: Pelham Homes  
Agent ID: Mrs Owen
107745 102625 Jennifer Owen & Associates Ltd.

Part of document: Option 5b
Section of Document:

Your View  
Agree  No opinion  Disagree

Reason for comment: Unsustainable in the long run.

Consultee ID: Pelham Homes  
Agent ID: Mrs Owen
107745 102625 Jennifer Owen & Associates Ltd.

Part of document: Question 5c
Section of Document:

Your View  
Agree No opinion Disagree

Reason for comment: Supports expansion of Polegate to the north of the existing bypass and the west of the A22.

Consultee ID: Pelham Homes  
Agent ID: Mrs Owen
107745 102625 Jennifer Owen & Associates Ltd.

Part of document: Option 6a
Section of Document:

Your View  
Agree No opinion Disagree

Reason for comment: Inadequate information at present to determine any rural / urban split. Need up to date transport strategy and assessments of each rival settlement. The amount of development at villages should be limited to affordable housing with the remainder at the large towns in particular in the Sussex Coast Policy Area.
Part of document: option 6b

Section of Document:

Reason for comment:
Inadequate information at present to determine any rural / urban split. Need up to date transport strategy and assessments of each rival settlement. The amount of development at villages should be limited to affordable housing with the remainder at the large towns in particular in the Sussex Coast Policy Area.

Part of document: option 6c

Section of Document:

Reason for comment:
Inadequate information at present to determine any rural / urban split. Need up to date transport strategy and assessments of each rival settlement. The amount of development at villages should be limited to affordable housing with the remainder at the large towns in particular in the Sussex Coast Policy Area.

Part of document: option 7a

Section of Document:

Reason for comment:
agree with emerging approach but greater emphasis needs to be placed on the need to influence a potential modal shift through the location of new development.

**Reason for comment:**
Option 25a

Reason for comment:
Option is imprecisely worded, no reference point to measure against.

---

Option 25b

Reason for comment:
Should be 25% affordable in Polegate to reflect the low values in the area and costs of infrastructure delivery.

---

Option 27a

Reason for comment:

---

Option 27c

Reason for comment:
Parkway station overwhelmingly disliked by local population. Network Rail does not support this option.
### Option 27e

**Consultee ID:** 107745

**Pelham Homes**

**Part of document:** ☑ option

**Section of Document:** Agent ID: 102625

Jennifer Owen & Associates Ltd.

**Reason for comment:**

Supports suitably located park and ride facilities in respect of Eastbourne.

**Your View** ☑ Agree  ☐ No opinion  ☐ Disagree

### Question Twenty Nine

**Consultee ID:** 107745

**Pelham Homes**

**Part of document:** ☑ option

**Section of Document:** Housing Delivery Agent ID: 102625

Jennifer Owen & Associates Ltd.

**Reason for comment:**

Options do not reflect problems and long timescales necessary to prepare sites for development. Requests clarification on evidence of landbanking.

**Your View** ☑ Agree  ☐ No opinion  ☐ Disagree
Core Strategy should embrace an adequate transport strategy. Without such a transport strategy Pelham Homes consider there is no evidence base on travel matters to support the development distribution (30a and 30b). Support proposals to upgrade water supply / foul water treatment (30c, 30d and 30e). Pelham Homes no longer consider a Parkway station to be viable (30o). Support Local Transport Plan proposals for Eastbourne, Polegate and Hailsham bus quality corridor. As an LTP scheme this should have been included and appraised as part of the South East Plan (30p).

Spatial vision should be separated into that for the Sussex Coast Policy Area and the Rest of Wealden as the priorities are different. The opening of the Wealden Line is too specific.

Objectives S01, S02 and S03 are not required as already covered by national policy. S04 - Too general. S05 and S06 - Agreed. S07 - Poorly worded. Should make reference to the Design Guide. S08 - Should be reworded to reference the role of spatial planning in safety. S09 - as above with respect to spatial planning and health. S10 - as above with respect to spatial planning and the retail offer in Wealden. S11 - as above with respect to spatial planning and deprived areas. S12 - as above with regard to spatial planning and GVA. S13 - Open space should relate to new development and not existing shortfall unless the Authority can give any commitment to fund the shortfall. S14 - Should be a suite of objectives. Phasing of targets should be set out. Should be tougher targets for the Rest of Wealden.

Reason for comment:

Consultee ID: Mr Robin University of Brighton
Agent ID: Mr Connell King Sturge

Part of document: □ document □ chapter □ section ☑ option
Option 7a

Section of Document:

Your View ☑ Agree □ No opinion □ Disagree
Reason for comment:

The University supports a settlement hierarchy which recognises that the most suitable location for future development is within the district’s five towns. Within this a further distinction should also be made which prioritises those towns within the Sussex Coast Policy Area - Hailsham and Polegate.
Option 8b

Reason for comment:
immediately deliverable accessible by a range of transport nodes, proximity to eastbourne's facilities, services and employment opportunities.

Option 16a

Reason for comment:
1. Separated from town by existing trunk roads and railway lines. 2. Would harm the character / setting of the sussex downs AONB. 3. Would involve urban sprawl. 4. Recommended for refusal of Pelham Homes application by English Heritage.

Option 16b

Reason for comment:
1. Separated from town by existing trunk roads and railway lines. 2. Would harm the character / setting of the sussex downs AONB. 3. Would involve urban sprawl. 4. Recommended for refusal of Pelham Homes application by English Heritage.
### Option 16c

**Consultee ID:** Mr Robin  
**Agent ID:** Mr Connell  
**Id:** 107746  
**University of Brighton**  
**Mr Robin**  
**University of Brighton**  

**Part of document:**  
- Document:  
- Chapter:  
- Section:  
- Option:  

**Section of Document:** Option 16c

**Your View:**  
- Agree:  
- No opinion:  
- Disagree:  

**Reason for comment:**  
1. Would involve urban sprawl  
2. Separated from town by existing trunk roads  
3. Poorly related to town centre.

---

### Option 16f

**Consultee ID:** Mr Robin  
**Agent ID:** Mr Connell  
**Id:** 107746  
**University of Brighton**  
**Mr Robin**  
**University of Brighton**  

**Part of document:**  
- Document:  
- Chapter:  
- Section:  
- Option:  

**Section of Document:** Option 16f

**Your View:**  
- Agree:  
- No opinion:  
- Disagree:  

**Reason for comment:**  
Proposed land at Hindsland, Polegate for inclusion in the LDF (map submitted).  
1. This option is capable of delivering all of the districts' housing requirements in a single sustainable location.  
2. Well located in relation to facilities in Polegate and Willingdon.  
3. Land is immediately deliverable.  
4. Development would bring redundant land back into use.  
5. Development would not involve urban sprawl into sensitive countryside.

---

### Option 16g

**Consultee ID:** Mr Robin  
**Agent ID:** Mr Connell  
**Id:** 107746  
**University of Brighton**  
**Mr Robin**  
**University of Brighton**  

**Part of document:**  
- Document:  
- Chapter:  
- Section:  
- Option:  

**Section of Document:** Option 16g

**Your View:**  
- Agree:  
- No opinion:  
- Disagree:  

**Reason for comment:**  
Highly accessible but development may be unrealistic given the finite land available.

---

### Housing Needs - Dwelling Mix and Density

**Consultee ID:** Mr Robin  
**Agent ID:** Mr Connell  
**Id:** 107746  
**University of Brighton**  
**Mr Robin**  
**University of Brighton**  

**Part of document:**  
- Document:  
- Chapter:  
- Section:  
- Option:  

**Section of Document:** Housing Needs - Dwelling Mix and Density

**Your View:**  
- Agree:  
- No opinion:  
- Disagree:  

**Reason for comment:**  
It is considered that a generic density policy is unsuitable for the district. Densities should reflect accessibility to services and transport and the specific character of the area. It is believed that the range of 40 - 50 dph would be appropriate for Polegate.
Reason for comment:
1. Parkway Station is unnecessary. 2. Investment should be focused on improving existing transport nodes. 3. No evidence that Nation Rail would support a Parkway option.

Reason for comment:
Disagree unless specific reference is made to how proposals for parks are to be allocated.

Option 25e

Section of Document: Agent ID:

Your View

Reason for comment:

The Childrens Services Authority has long term ambitions to replace the primary school in Frant, as part of its investment in primary school refurbishment and renewal, but is currently unable to progress that project for a lack of funds. The funding position remains unclear until at least later this year when the Comprehensive Spending Review is completed. At the same time the Authority is working on a more comprehensive approach to investment prioritisation in schools, by building on our existing methodology. The CSA cannot therefore give any indication as to when funding may be available for a new school in the village. You will be aware that a great deal of work has been undertaken in the past to identify a site for a replacement primary school in Frant. A number of sites have been discounted, leaving the Glebe land in Church Lane as the only viable option. Although there will undoubtedly be a range of issues to be resolved in developing a primary school in this location there is currently no funding available to develop the design, including appropriate access arrangements for both vehicles and pedestrians. Consequently the Childrens Services Authority would wish the site to continue to be identified for a replacement primary school, subject to satisfactory access arrangements for vehicular and pedestrian traffic being agreed.

Option 5a

Section of Document: Agent ID:

Your View

Reason for comment:

because of the need to allow for the natural growth and evolution of settlements.
Option 5b

Your View

Reason for comment:
used in conjunction with 5a this would allow for the natural growth and evolution of settlements especially smaller ones.

Question 5c

Your View

Reason for comment:
the settlement boundary of Westham should be extended to the south.

Question 7e

Your View

Reason for comment:
identification of westham as having growth potential in view of its range of services and employment opportunities, access to public transport, proximity to Eastbourne and locations outside AONBs.

Option 23c

Your View

Reason for comment:
because of availability of a range of services, access to public transport, proximity to Eastbourne and location outside AONBs.
A density of 30-50 dwellings per hectare should be adopted with densities at the higher end of the range within urban areas or locations with good public transport.

This approach is questioned on viability grounds.

Respondent promotes land for housing at and to the rear of 71-72 Five Ash Down. Location plan submitted. For the following reasons: Five Ash Down has been classified as having growth potential in the Issues Paper, which we support. Located immediately adjacent to urban development Not prone to flooding Not within AONB Well screened Agricultural Grade 3 land: no loss of Best and Most Versatile Agricultural Land Good and safe access Existing bus route Proximity to 2 primary schools and train station Development would bring economic benefits for village/strengthening of existing services Site is available now

**Question 13b**

**Section of Document:**

**Your View**

- Agree
- No opinion
- Disagree

**Reason for comment:**

The A21 wants up dating as it is slow enough driving from here to London anyway, without extra growth in or near Tunbridge Wells.

Part of document: Question 31b

Section of Document: Agent ID:

Your View: Disagree

Reason for comment:

Why not concentrate efforts on sites South of the A27 between Polegate and Eastbourne? Existing infrastructure would better support proposed developments.
Whay has this been presented in the way it has? Are the Council genuinely seeking the general public to comment on the issues? If so, why does it cost £15 to find out what the Council want to do? Surely this is unreasonable un democratic? The majority of options are concerned with new development at the expense of ruining the existing countryside. Personally, I feel that the reason people come to live in this area is due to the proximity to countryside areas and therefore by taking these area away one simply increases numbers of people and decreases the aesthetic value and attraction of the area. It is abundantly clear that 16d, e and f are the only suitable locations for further development.

Reason for comment:
Reason for comment:
Settlement boundaries are there for a reason - you can't simply turn someone's farm into a housing estate!

Reason for comment:
I would put 100% around towns - they have the infrastructure and it preserves the countryside.

Consultee ID: Wheeler
108928
Part of document: Option 27d

Section of Document: Infrastructure Requirements

Reason for comment:
The infrastructure requirements in table 15 are completely unacceptable. Concentrate efforts of sites south of the A27 between Polegate and Eastbourne is the answer.
I have to say that the way this whole issue has been presented is a complete disgrace. The fact that it costs me £15 to find out what Wealden District Council want to do (and I do pay Council Tax) is a complete travesty. It is undemocratic and WDC need to be investigated by the highest authority to make sure that their future public interface is properly addressed. The vast majority of the options suggested completely ignore the rural viewpoint. No consideration for preserving our beautiful countryside is evident. It is abundantly clear that 16d, e and f are the only suitable locations for further development.

Consultee ID: Professo Van Linden  
109414  

Part of document:  
☑ option

Section of Document:

Your View  
☑ No opinion

Reason for comment:

90% plus should be located in and around towns as infrastructure pre-exists and improvement to infrastructure is thus more cost effective.

Question Ten
Section of Document: Site Allocation Thresholds
Your View ☐ Agree ☑ No opinion ☐ Disagree
Reason for comment:
Any such threshold should be calculated by reference to a cap or ceiling as opposed to a minimum. In any event, no development in villages.

Consultee ID: 109414
Professo Van Linden

Part of document: Option 18i
Section of Document: Your View
Reason for comment: Nothing west of A22. More north of A27 to preserve unique landscape and in sympathy with AONB which should in any event be extended.

Part of document:  
☐ document  ☐ chapter  ☐ section  ✓ option  
Question 31b

Section of Document:

Your View  ☐ Agree  ✓ No opinion  ☐ Disagree

Reason for comment:
These themes as expressed in 8.1 to 8.11 at first sight seem laudible but lack clarity, specifics or any information of development implications. thus unsatisfactory and I cannot answer.

109414

Part of document:  
☐ document  ☐ chapter  ☐ section  ✓ option  
Question 32b

Section of Document:

Your View  ☐ Agree  ✓ No opinion  ☐ Disagree

Reason for comment:
I am astonished at the expense of the Core Strategy Documents, the online reply facility which, in itself makes comment difficult and excludes the lower socio-economic groups. This is an inadequate democratic process and fails to offer clear and unambiguous information to facilitate a true public consultation process. The questions are phrased in such a way as to confuse respondents. This locale is a beautiful, unspoilt corner of south east England and any development to meet the needs of future housing should be east of A22 to preserve the local character and unspoilt rural environs. As a new resident, it was this AONB/National Park characteristic that brought me to the area. It should not be corrupted. Scheduling the consultation process across the peak summer holiday period with many residents on holiday is also most inappropriate.

Reason for comment:
Consultee ID: Mrs Levett
Consultee ID: 109523

Part of document: Option 4b
Section of Document: Option 4b

Reason for comment:
Your View: Disagree
Reason for comment: The response is based upon the current road system and the lack of infrastructure to sustain any new developments. Unless the roads are improved first no new development should be allowed. The Hackhurst Lane site has potential to come forward for mixed use as there is a willing land owner currently keen to pursue the site.

Consultee ID: Mrs Levett
Part of document: Question 6d
Section of Document:
Your View  Agree  No opinion  Disagree
Reason for comment:

Reason for comment:
The group have a preference for option 5b over 5a. The group would prefer to see new housing equally distributed throughout the District. This should be based upon the population of the town / village eg a 10% growth everywhere. Additionally, we should encourage town centre developments over shops etc.
should allow a disperse pattern of development to include affordable and small market housing in rural areas to allow new forming households to remain in the village and also allow trading down
Consultee ID: Mrs Levett 109523

**Part of document:** □ document □ chapter □ section ✓ option

for all new settlements considered the road infrastructure needs to be improved first

we feel unable to comment but would reconfirm that new developments should be distributed throughout Wealden

**Reason for comment:**

Listened to very informative debate at Hellingly Village Hall on 13 July and wish to make following points: New settlement should be seriously considered providing there are goods road and rail links to the larger towns and even to London particularly for employment links. Whilst the current suggestion is for an additional 3000+/- new dwellings, this will surely double in requirement before 2026, so a new settlement will need to have the capability of expansion. A single settlement will allow Wealden DC to manage and control the development more effectively, efficiently and economically in order to achieve maximum planning gain. The suggestion of infill sites between Polegate via Hailsham through to Golden Cross seem a spaghetti like quasi urbanisation of the whole area that will have no central focus, be difficult to manage and have much less planning gain for the area.

Question 18k

Section of Document:

Your View ☑ Disagree

Reason for comment:
Berwick is a rural community developing Berwick will destroy this. Traffic is a nightmare at times with no work here it will only increase for people travelling to work. Facilities are very few. We will be living on a building site for many years. Berwick is rich in wild life which will be destroyed. The towns Hailsham and Polegate should be developed more. Green sites should be left alone and protected.

Question 5c

Section of Document:

Your View ☐ Agree ☑ No opinion ☐ Disagree

Reason for comment:

Each case should be looked at individually according to its merits either inside or outside settlement boundaries

Consultee ID: Green
112602

Part of document: ☐ document ☐ chapter ☐ section ☑ option

Question 6d

Section of Document:

Your View ☐ Agree ☑ No opinion ☐ Disagree

Reason for comment:

I do not think you can put a focus on this question-each place has different situations and should be judged on this
Question 7e

Reason for comment:
again, each settlement has different services etc. so you cannot generalise. Each place should be consulted on its merits.

Reason for comment:
Consultee ID: Green 112602
Part of document: Option 18j
Section of Document:

Your View  ☑ Agree  ☐ No opinion  ☐ Disagree

Reason for comment:
area around Hellingly hospital should be considered as there are several parcels of land that could be developed for housing.

Consultee ID: Green 112602
Part of document: Question 18k
Section of Document:

Your View  ☑ No opinion  ☐ Disagree

Reason for comment:
As St Bedes school have taken most houses available there is a need for new houses for local people to keep the villages alive and not be completely taken over by the School of St Bedes.
## Core Strategy Issue and Options Consultation 2007 - Summary of Consultation Responses

### Part of document: Question 32b

<table>
<thead>
<tr>
<th>Reason for comment:</th>
</tr>
</thead>
</table>

I think that a lot of these questions are too general and each settlement has different requirements. I have only commented on places where I know very well as I have lived at Lower Dicker for 48 years. Since then I have lived at Dallington, Horsham and Ardingly so have been able to see the development around the Hailsham Hellingly area. Over the years I have been indirectly involved with developers and have noted these comments over the years. I would be happy to talk to anybody if they wish.

### Part of document: Question 31a

#### Section of Document:

- **Your View**: Agree
- **Reason for comment:**

  *A22 needs a double lane highway*

### Part of document: Question 31b

- **Your View**: No opinion
- **Reason for comment:**

  *A22 needs a double lane highway*

### Part of document: Question 32a

- **Your View**: Agree
- **Reason for comment:**

  *only council housing and affordable homes. Locals priority on housing list. A22 is too congested. There must be increased recreational facilities provided commensurate with the increased population. 1. sports fields 2. swimming pools 3. tennis courts 4. bowls greens There must be safe secure cycle tracks to enable movement by cycle along highways.*
