WD1	5	2.4	The Government announced a change in policy and guidance in relation to affordable housing thresholds in November 2014. This guidance states that affordable housing contributions, under Section 106, should not be sought from developments of 10 units or less, and which have a maximum combined gross floorspace of no more than 1000sqm. However, for designated rural areas authorities may choose to implement a lower threshold of 5 units or less where affordable housing contributions should not be sought. Evidence shows that within Wealden District designated rural areas can sustain a lower threshold for the provision of affordable housing.
WD2	5	2.5	Section 157(1) of the Housing Act 1985 defines designated rural areas and includes National Parks, Areas of Outstanding Natural Beauty (AONB) and an area designated by order of the Secretary of State as a rural area. The rural designated area under Section 157(1) of the Housing Act 1985 is extremely narrow and apart from the AONB does not include rural areas within Wealden District, however there are other orders relating to affordable housing which designate rural areas within Wealden District including The Housing (Right to Acquire or Enfranchise) (Designated Areas in the South East) Order 1997 and The Housing (Right to Enfranchise) (Designated Protected Areas) (England) Order 2009. On this basis, and for the purposes of this Plan, rural designated areas include land which falls within the Area of Outstanding Natural Beauty as well as the Parishes of Arlington, Berwick, Buxted, Chalvington with Ripe, Chiddingly, Danehill, East Hoathly, Fletching, Framfield, Frant, Hadlow

			<p>Down, Hartfield, Hellingly, Herstmonceux, Hooe, Horam, Isfield, Laughton, Little Horsted, Long Man, Maresfield, Mayfield, Newick, Ninfield, Pevensey, Rotherfield, Selmeston, Wadhurst, Warbleton, Wartling, Westham, Withyam and specific areas identified on maps referred to in the Orders in the Parishes of Forest Row, Hailsham, Heathfield and Waldron, Polegate and Willingdon and Jevington.</p>
WD2	7	AFH1	<p>AFH1 Affordable Housing</p> <p>New housing developments, including affordable housing, will be expected to provide for a mix of dwelling size, type and tenure that meet the identified housing needs of the local area. New housing developments must make the most effective use of the land, taking into account the character of the local area.</p> <p>Affordable housing is required at a level of 35% of the number of dwellings on development sites <u>with 5 dwellings (net) or more</u>⁽²⁾ in areas defined on the Proposals Map as Affordable Housing Policy Area⁽²⁾ of 41 dwellings (net) or more, and with a combined gross floorspace of more than 1,000 sqm. Affordable housing is required in all other areas of the District at a level of 35% of the number of dwellings on development sites of 6 dwellings (net) or more.</p> <p>Where sites are allocated in a Local Plan, above nationally determined thresholds, that document may specify a different, and potentially higher, housing target having regard to the findings of the associated viability assessment and any site specific considerations.</p> <p>Affordable housing provision should incorporate a mix of tenures. The presumption is for development sites of 49 dwellings (net) or less that around 80% of the total number of affordable homes provided will be for social rented accommodation with the remainder being for intermediate accommodation. For development sites of 50 dwellings (net) or more around 40% of the total number of affordable homes provided will be for social rented accommodation, 40% will be affordable rent and 20% intermediate accommodation.</p>

			<p>Where it can be proven that affordable housing requirement cannot be achieved, due to economic viability, there will be flexibility in meeting stated targets. In such exceptional circumstances, the tenure of affordable housing should be examined prior to the proportion of affordable housing. It will be the responsibility of the applicant to demonstrate that the requirements of the policy cannot be met. The closest alternative target that can be achieved will be sought taking into account viability and need.</p> <p>The affordable housing will be distributed within the site to ensure it is integrated and indistinguishable within the new development and surrounds. It will also be comparable in design terms with the market housing on site.</p> <p>Affordable housing should be delivered on site, <u>however in exceptional circumstances a commuted payment may be accepted in lieu of on-site provision. These circumstances may include provision where a Registered Provider finds it uneconomic or impractical to provide the units in the scale or form agreed.</u> However, for developments between 6 and 10 units in designated rural areas (all areas within the District excluding the areas defined on the Proposals Map as Affordable Housing Policy Area) planning obligations will be sought in the form of cash payments which are commuted until after completion of units.</p> <p>(2) The Affordable Housing Policy Area is derived from Section 157(1) of the Housing Act 1985 and The Housing (Right to Acquire or Enfranchise) (Designated Areas in the South East) Order 1997 and The Housing (Right to Enfranchise) (Designated Protected Areas) (England) Order 2009</p> <p><u>(2) Any future change in Government Policy requiring alternative thresholds will supersede this part of the policy</u></p>
